

Practical Exam #2  
REDEMPTION EXAM

Bones Practical Exam

What is the LEVEL of  
the VERTEBRAE?

Thoracic

Axis

Atlas

Cervical

Lumbar

Question

1

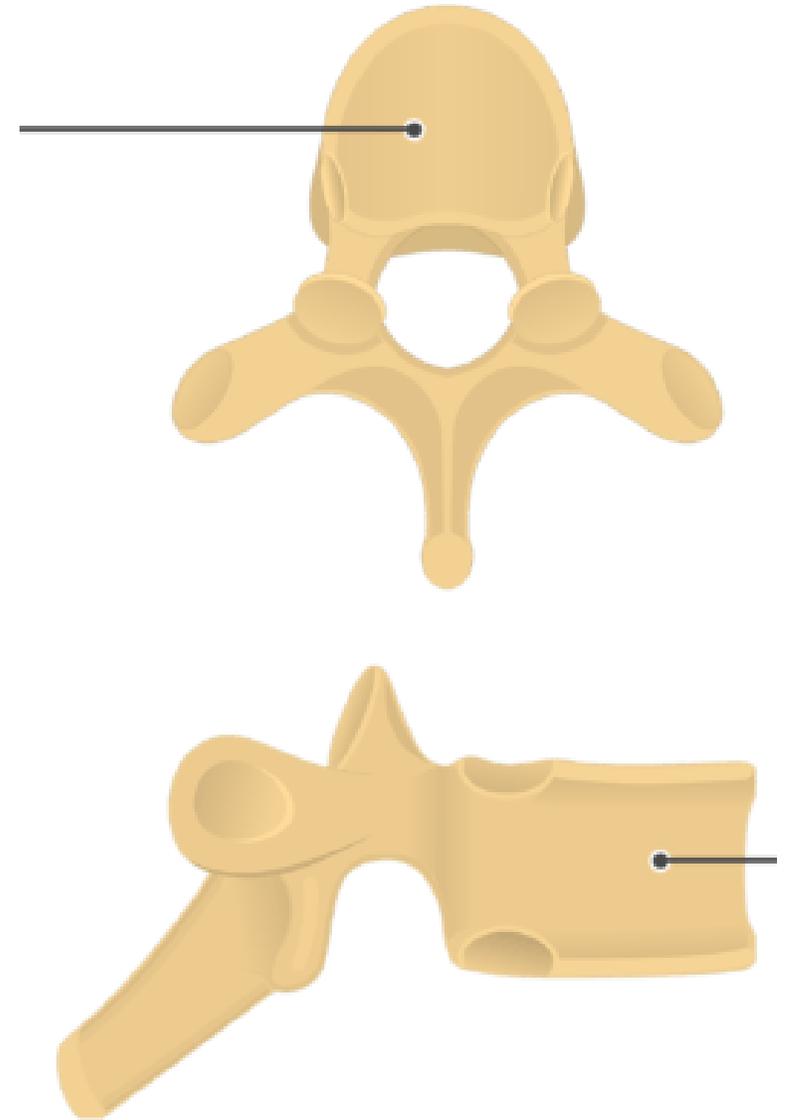

What is the LEVEL of  
the VERTEBRAE?

Thoracic  
Axis  
Atlas  
Cervical  
Lumbar

Question

2

Question

3

What is **STRUCTURE**?

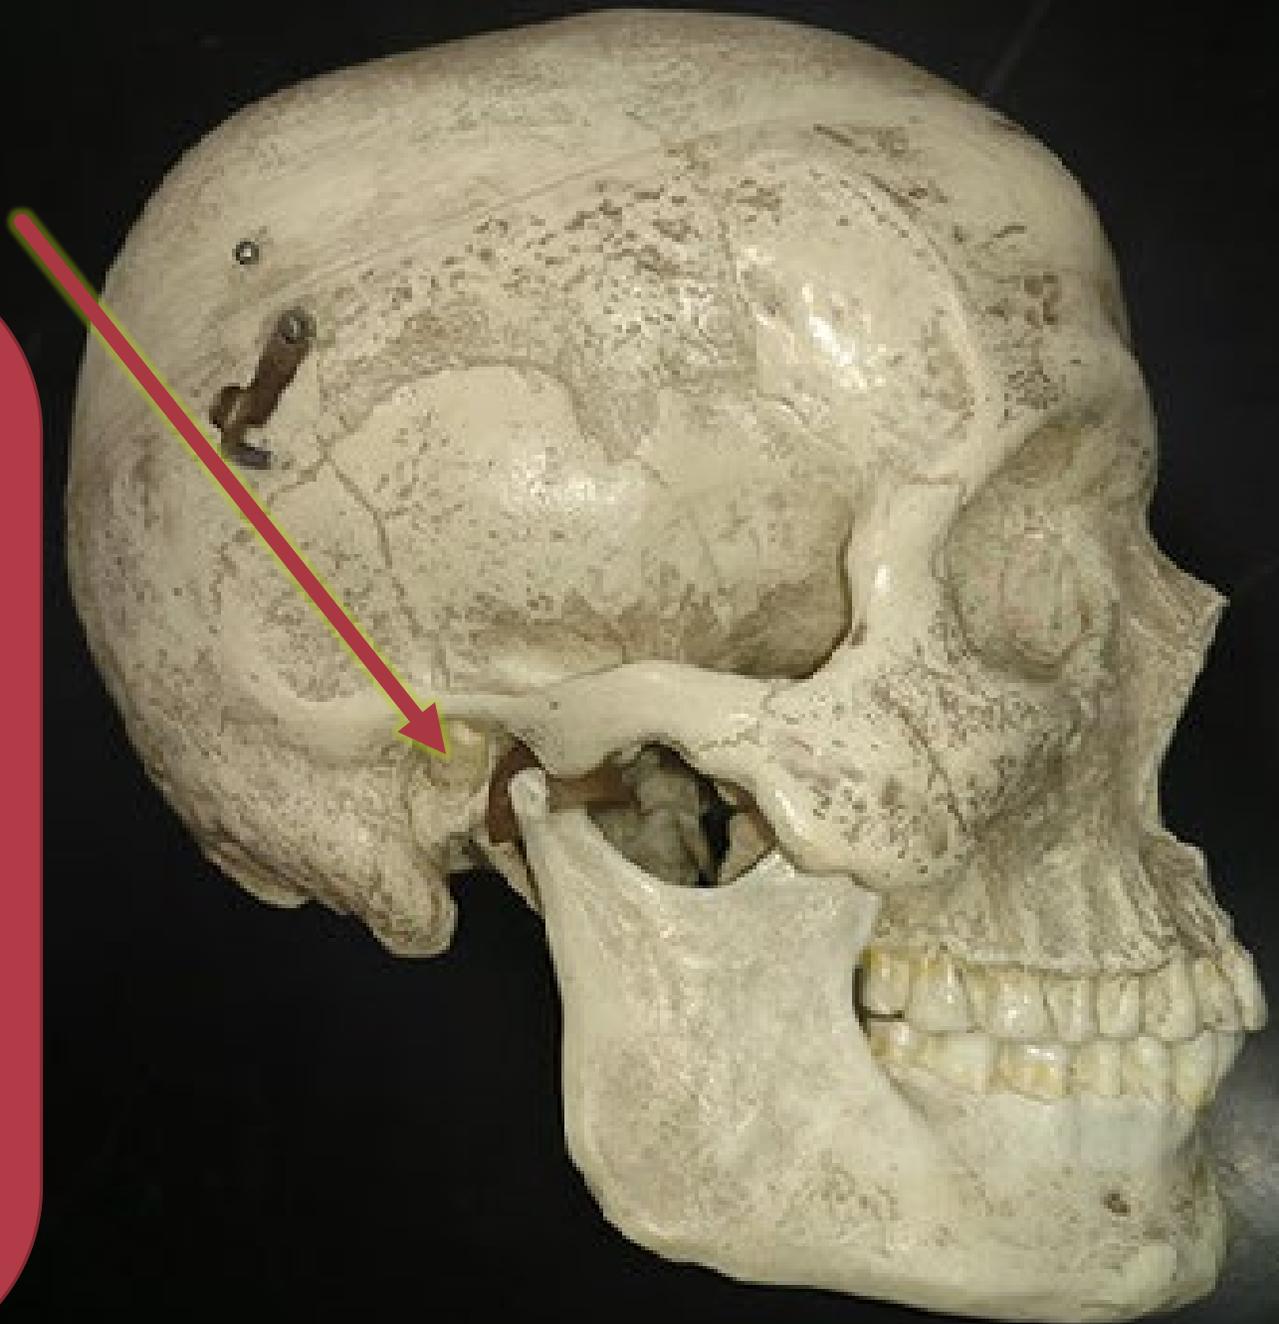

Zygoma

Zygomatic process

Temporal process

External auditory canal

Mandibular fossa

Question

4

What is **STRUCTURE**?

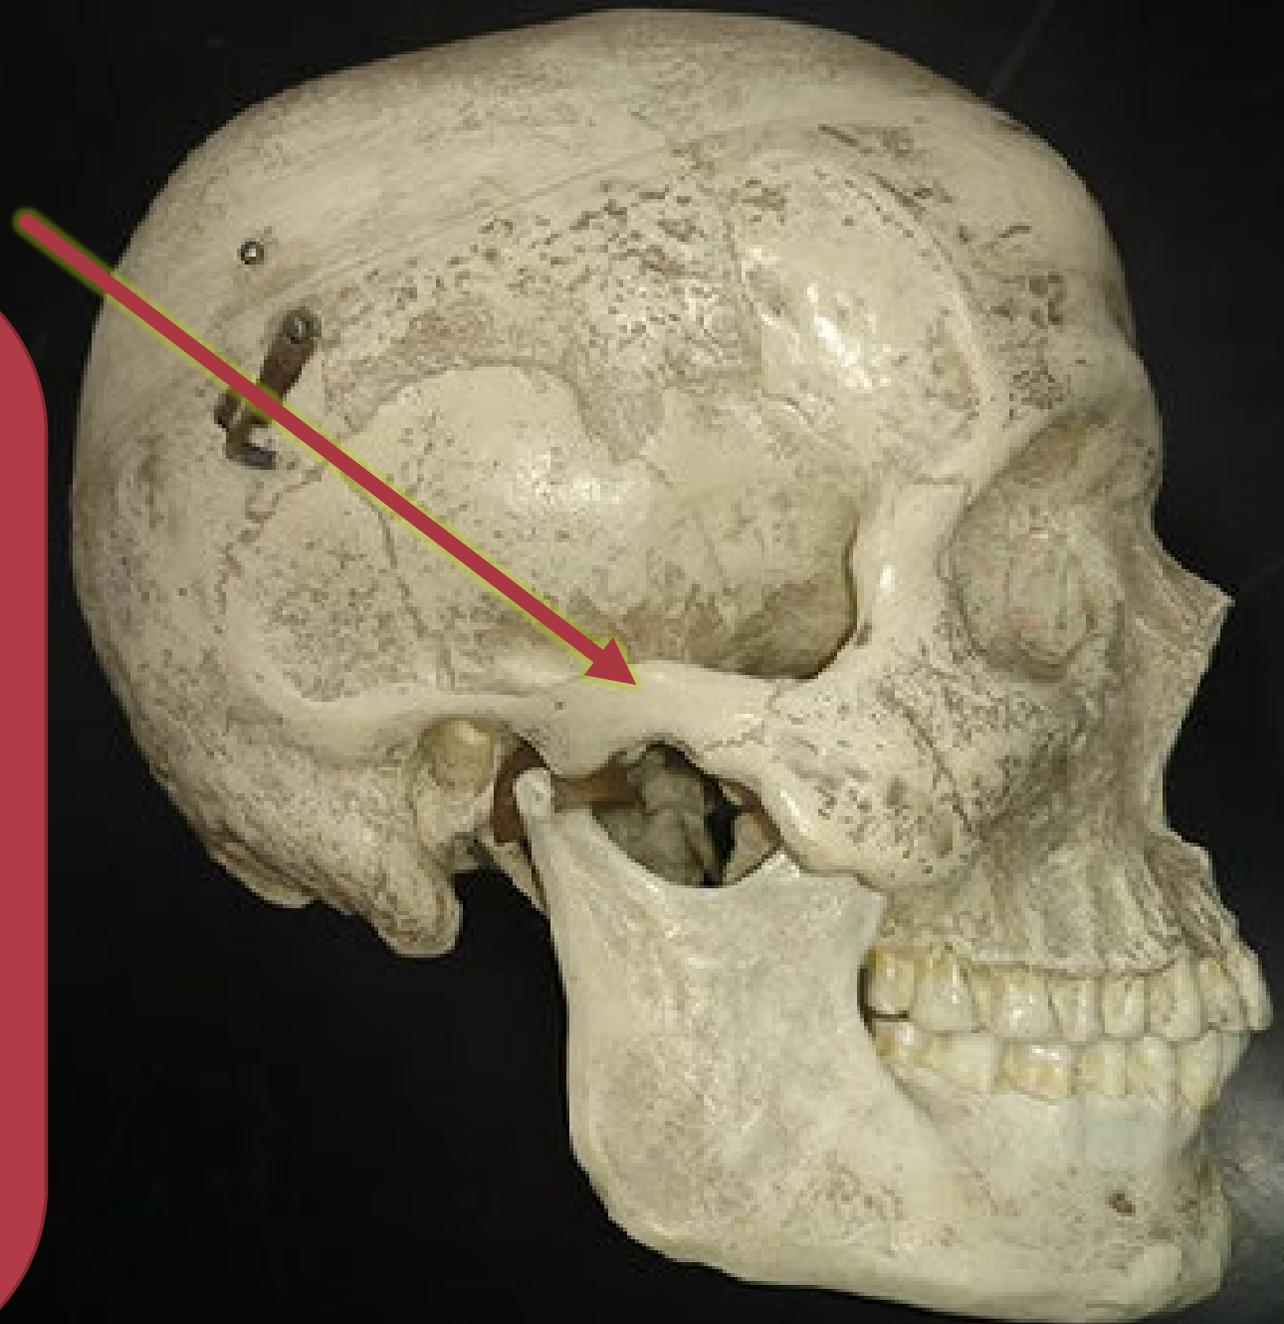

Zygoma

Zygomatic process

Temporal process

External auditory canal

Mandibular fossa

Question

5

What is **STRUCTURE**?

Zygoma

Zygomatic process

Temporal process

External auditory canal

Mandibular fossa

Question

6

What is the BONE?

Zygoma

Maxilla

Vomer

Palatine Bone

Ethmoid

Question

7

Identify the  
STRUCTURES?

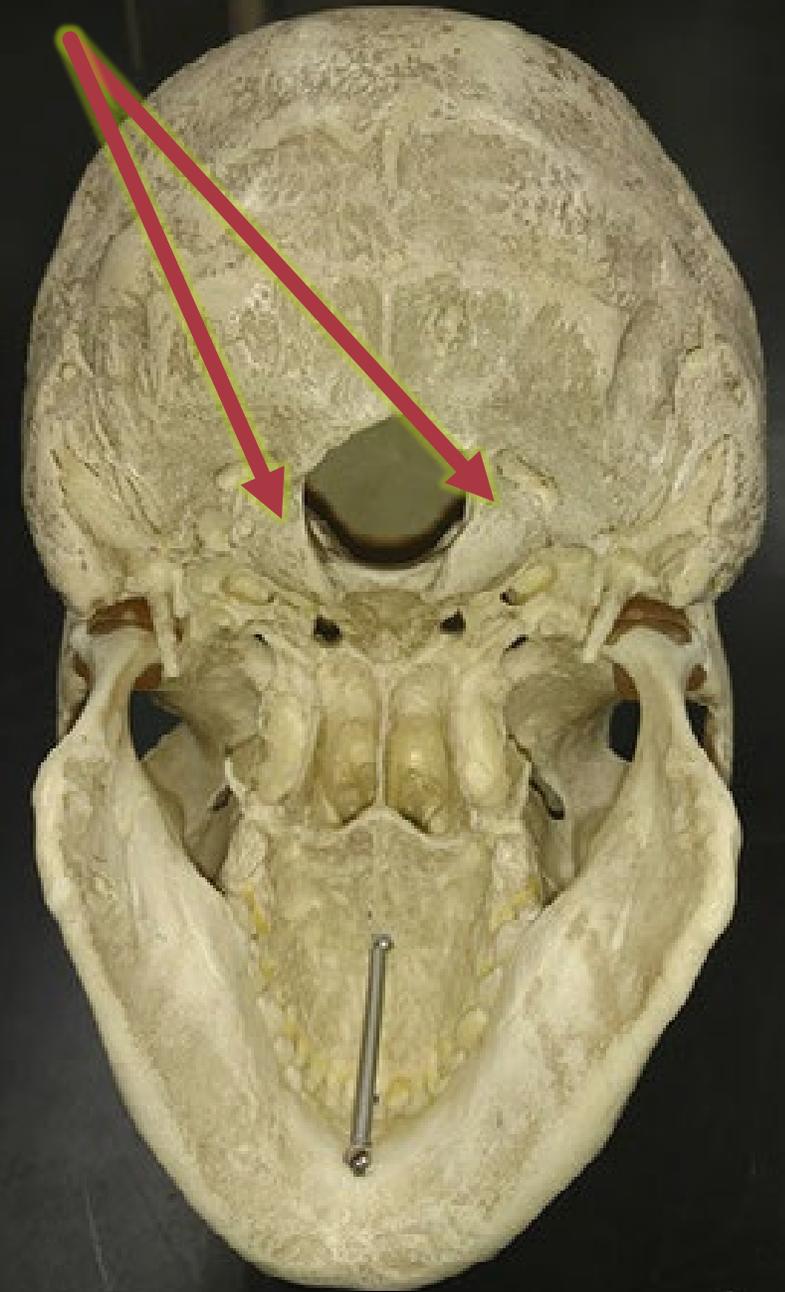

Foramen Magnum

Optic Foramina

Occipital Foramina

Occipital Condyles

Palatine Condyles

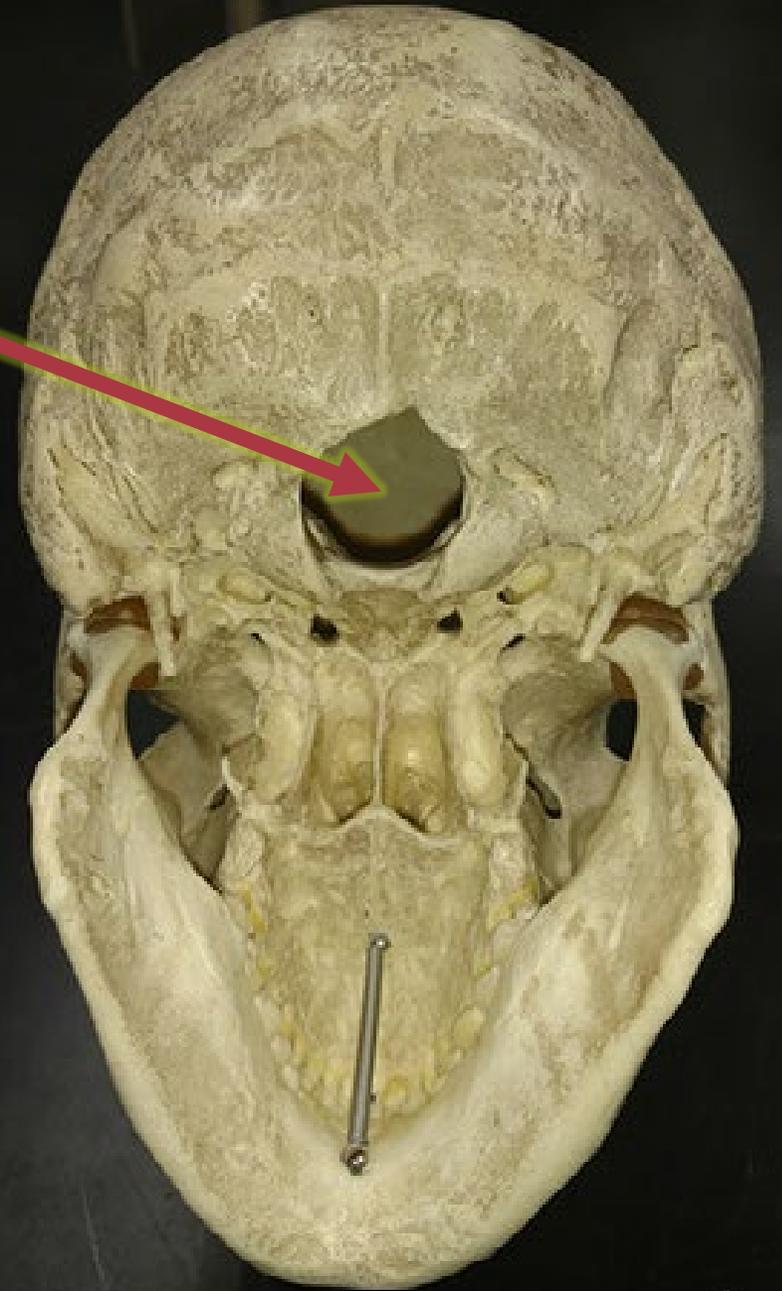

What is the HOLE?

- Foramen Magnum
- Intervertebral Foramen
- Occipital Foramen
- Occipital Condyle
- Transverse Foramen

Question

8

Identify the **STRUCTURE**.

Vomer

Nasal Bone

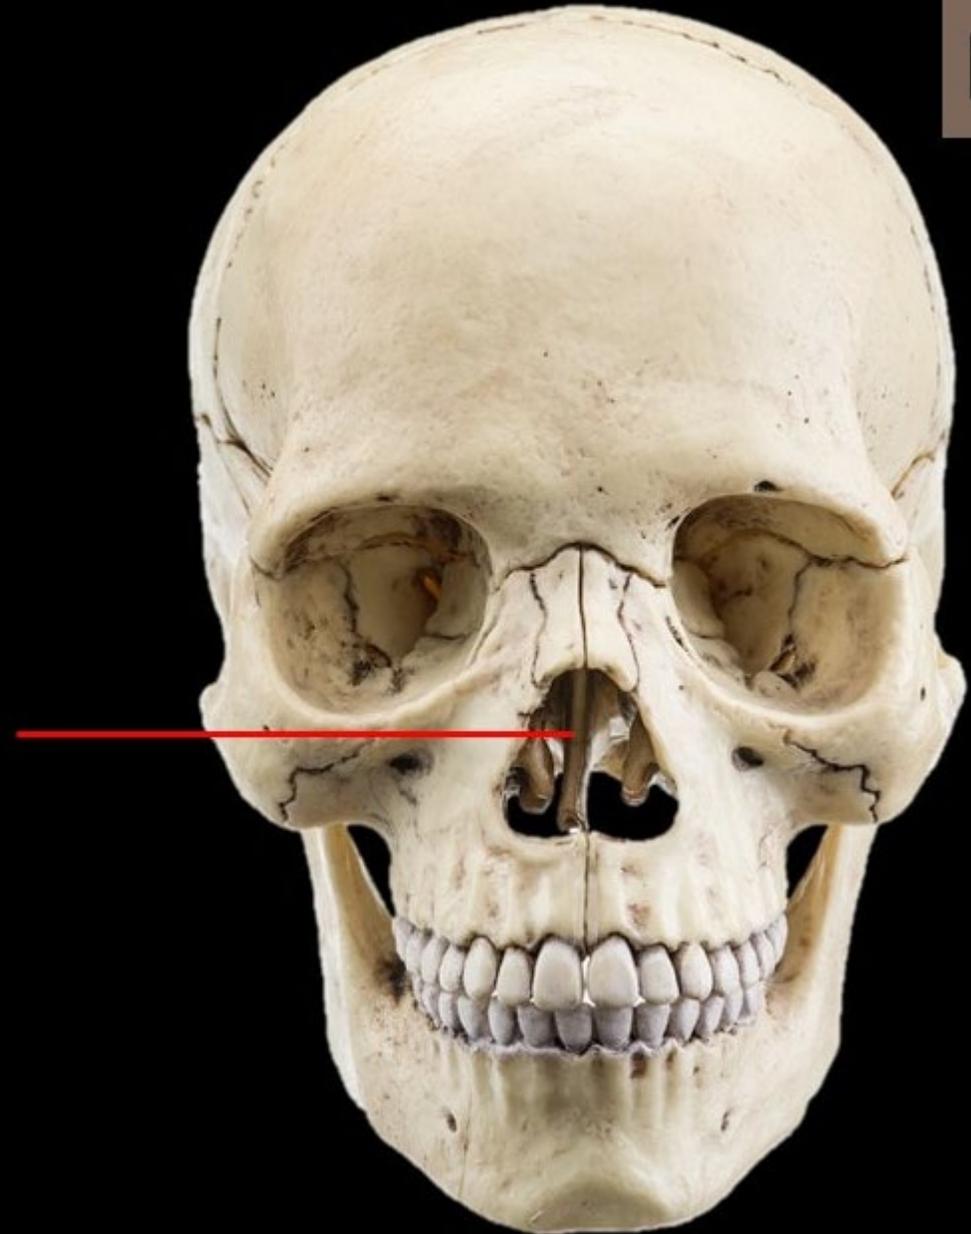

Nasal Conchae

Ethmoid Sinuses

Perpendicular Plate

Question

9

Question

10

Identify the **STRUCTURE**.

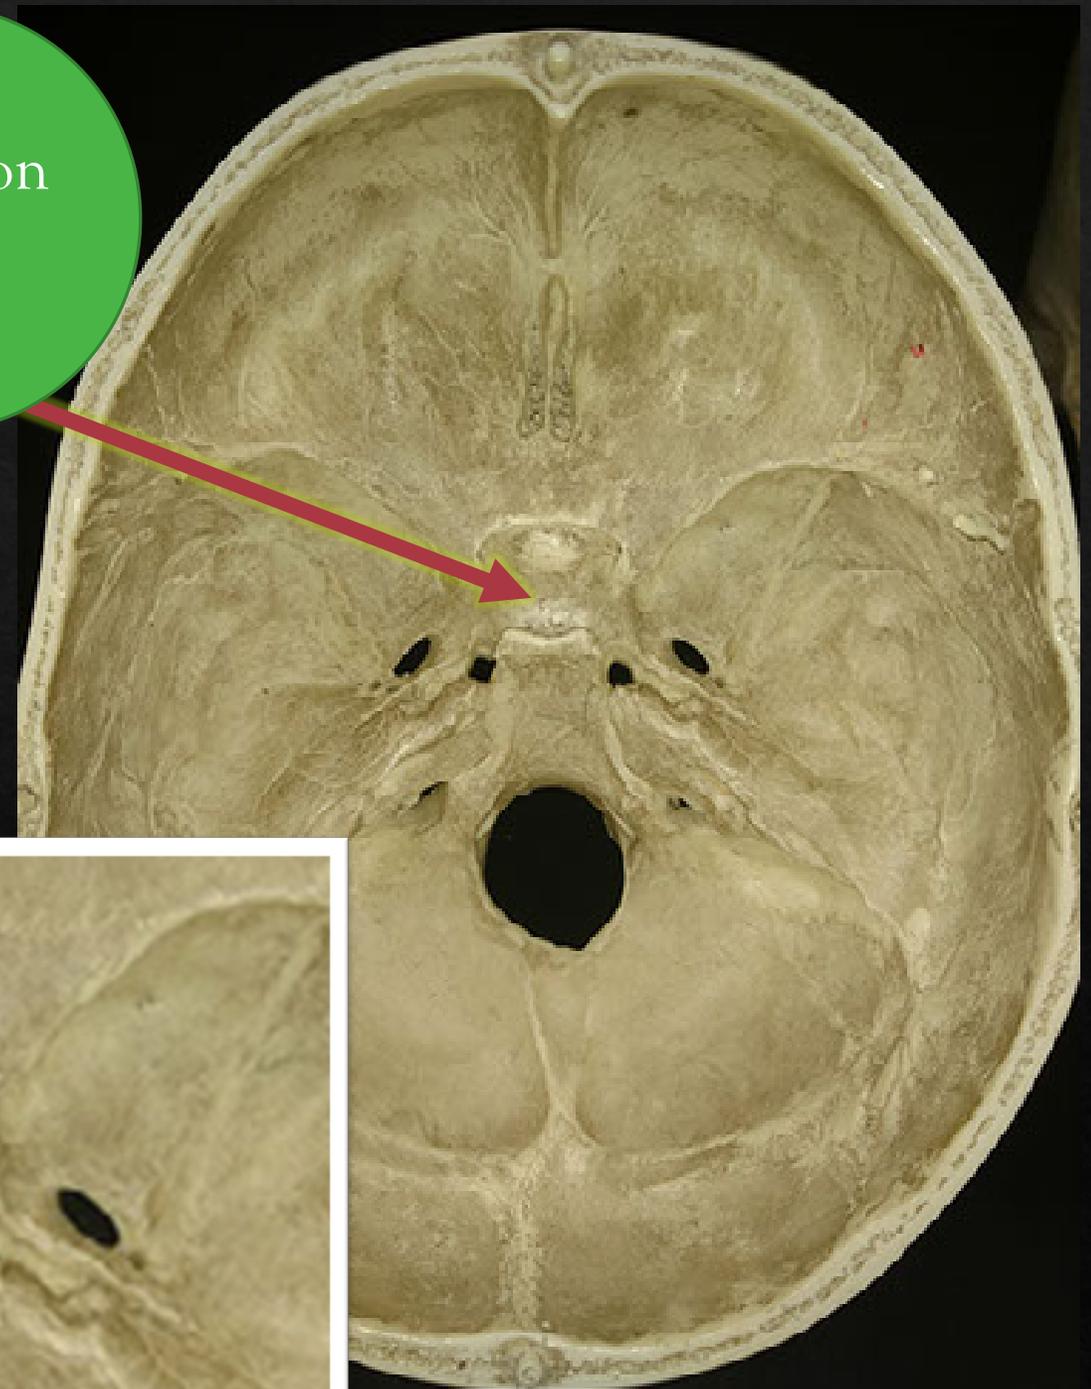

Crista Galli

Sella Turcica

Optic Foramina

Cribriform Plate

Perpendicular Plate

Identify the **STRUCTURE**.

Crista Galli

Sphenoid

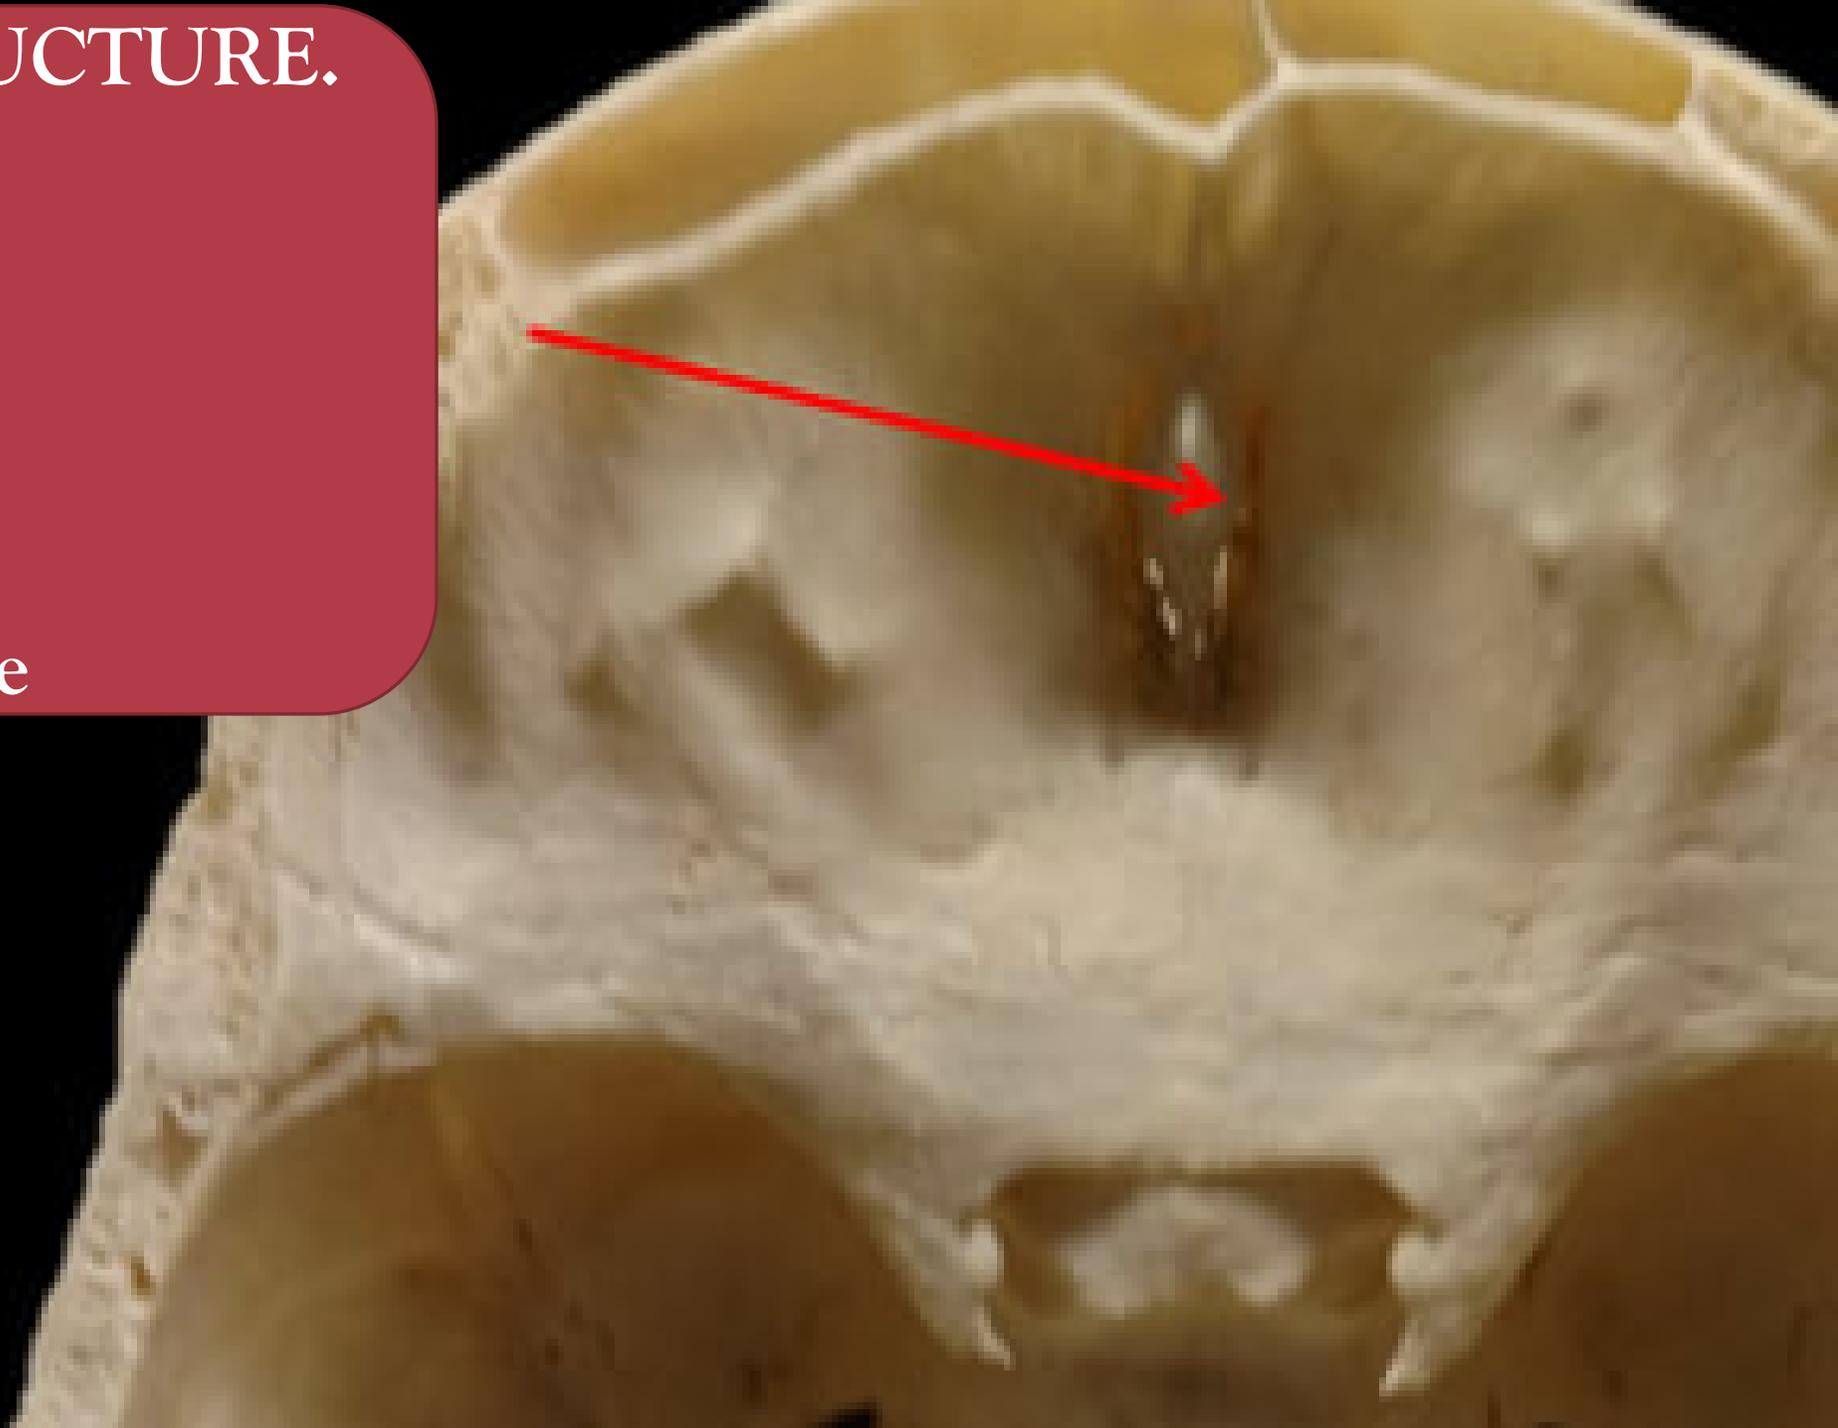

Optic Foramina

Cribriform Plate

Perpendicular Plate

Question

11

Identify the **STRUCTURE**.

Crista Galli

Sphenoid

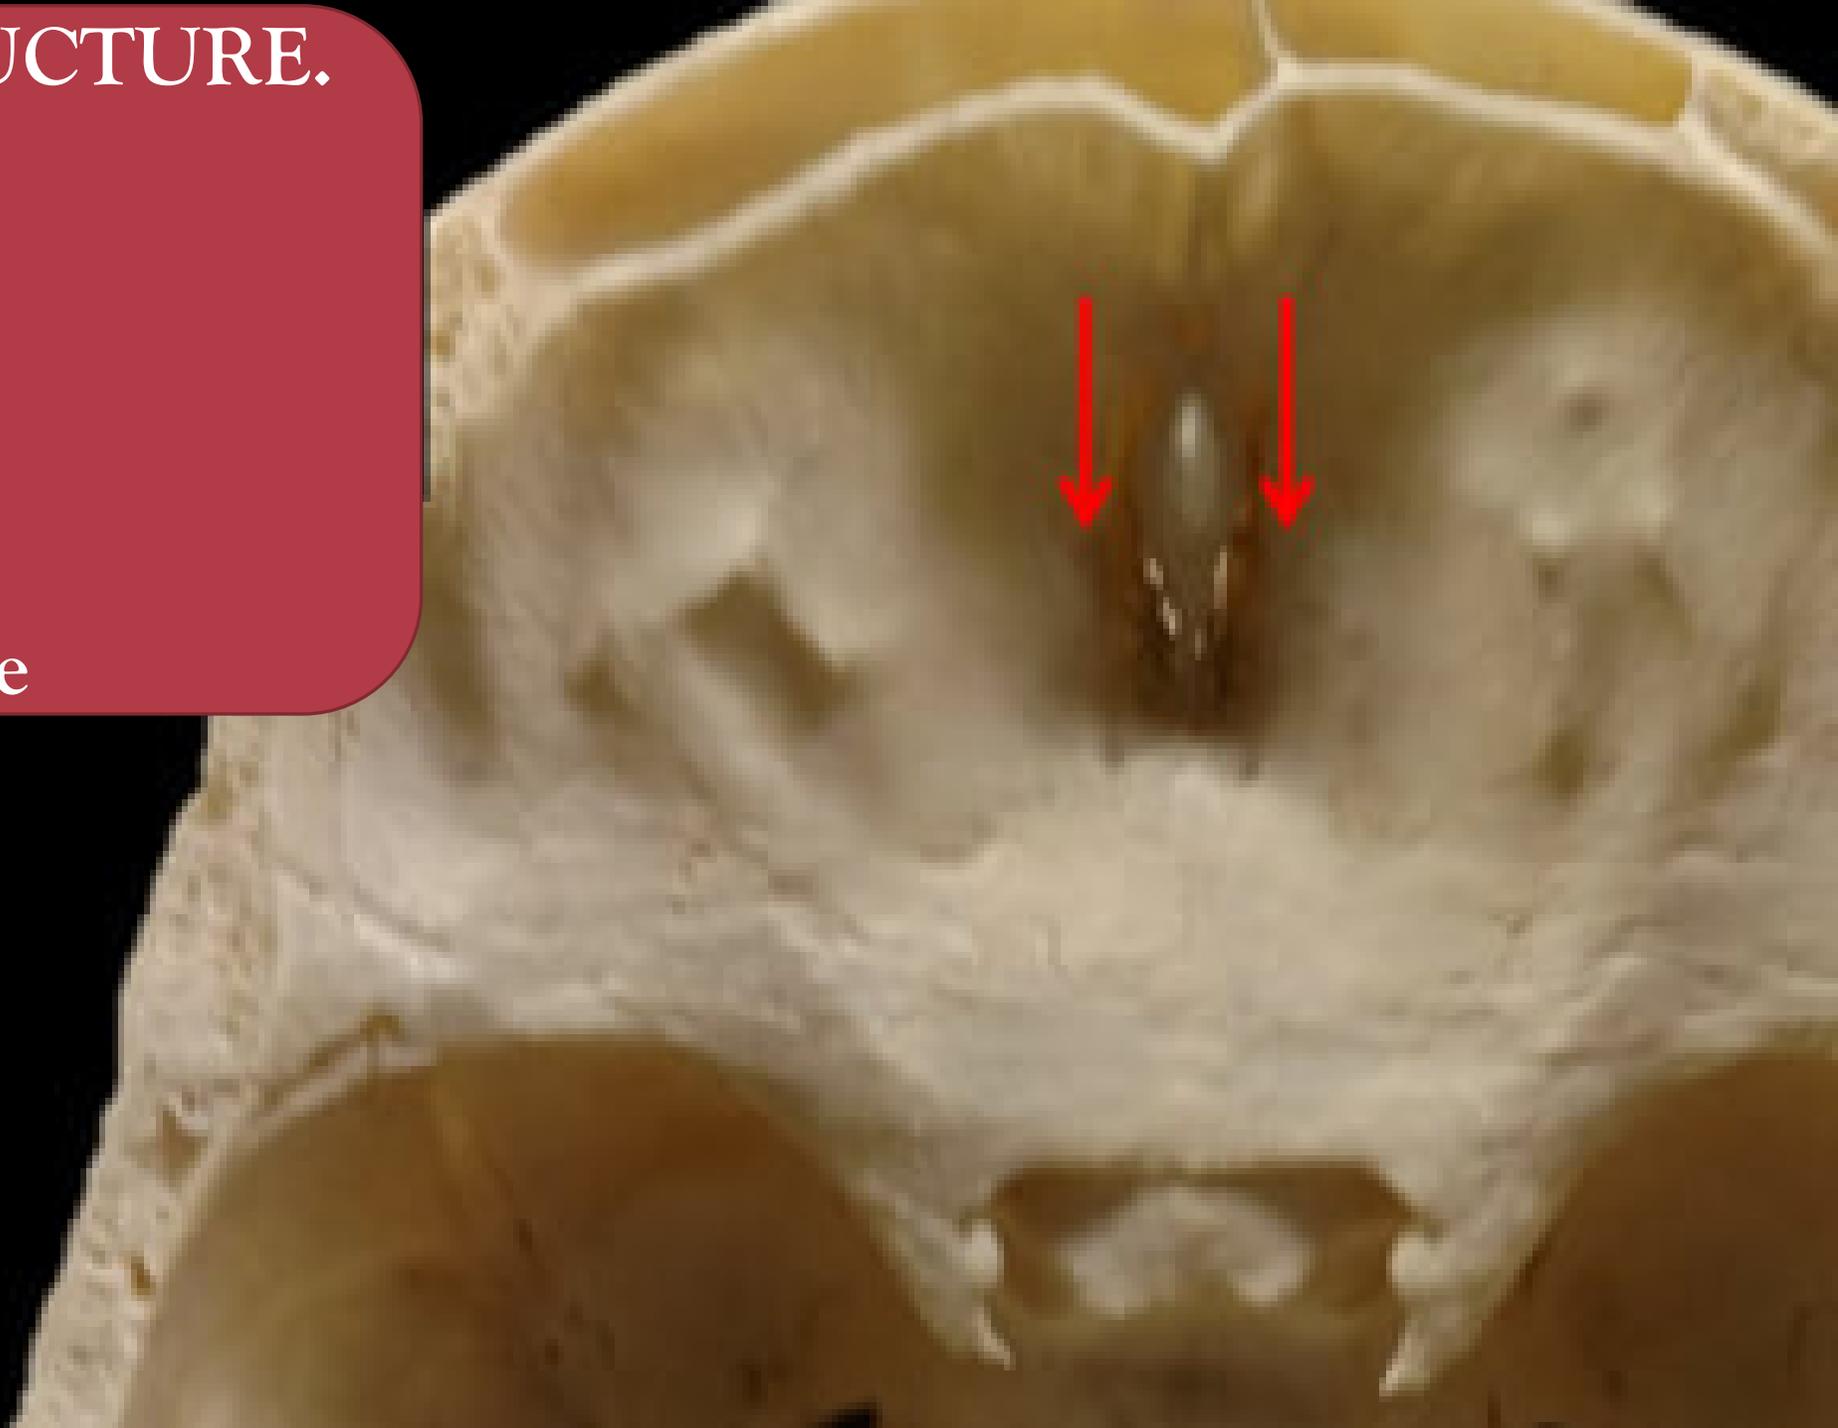

Optic Foramina

Cribriform Plate

Perpendicular Plate

Question

12

Identify the **STRUCTURE**.

Mandibular fossa

Mandibular condyle

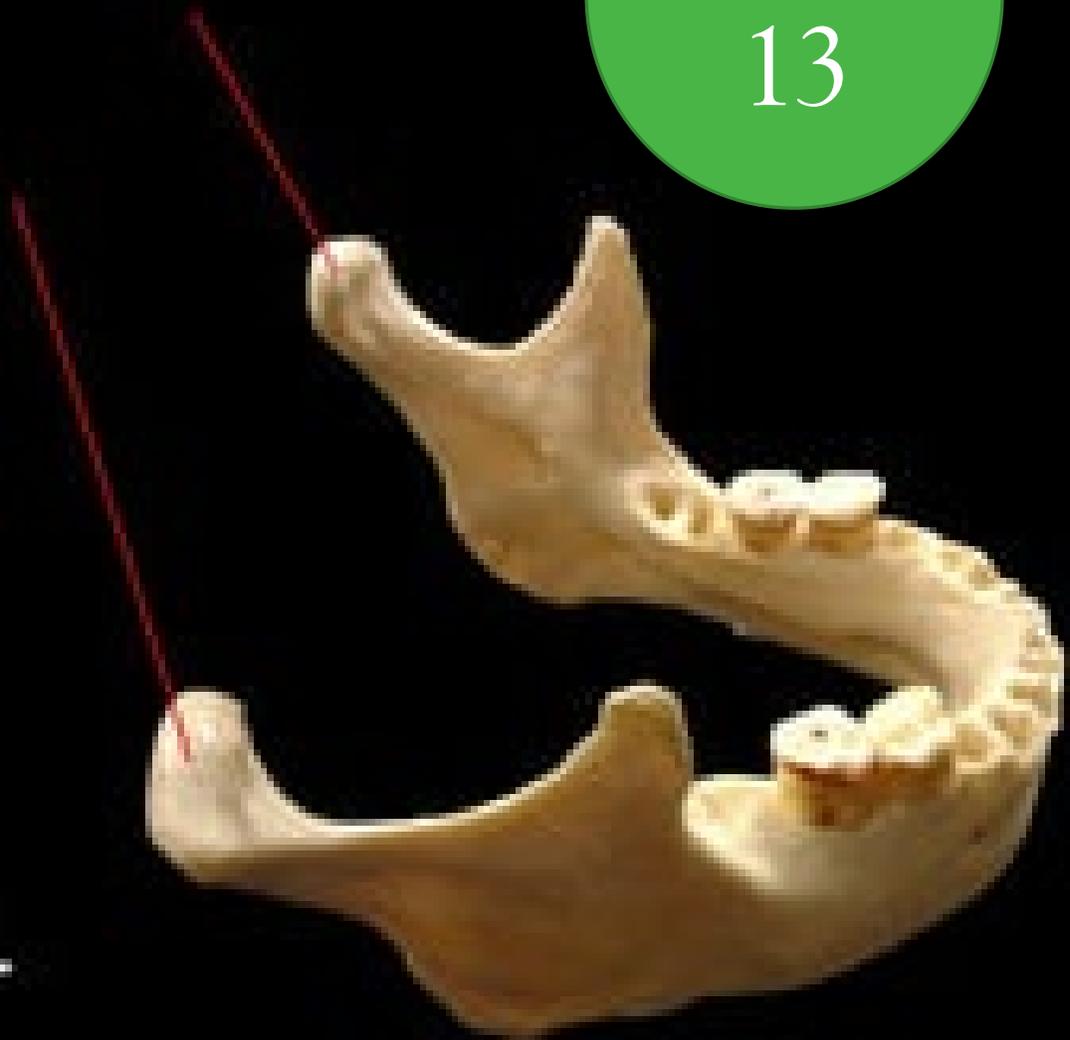

Mandibular fossa

Optic Foramina

Cribriform Plate

Question

13

Question

14

Identify the SUTURE.

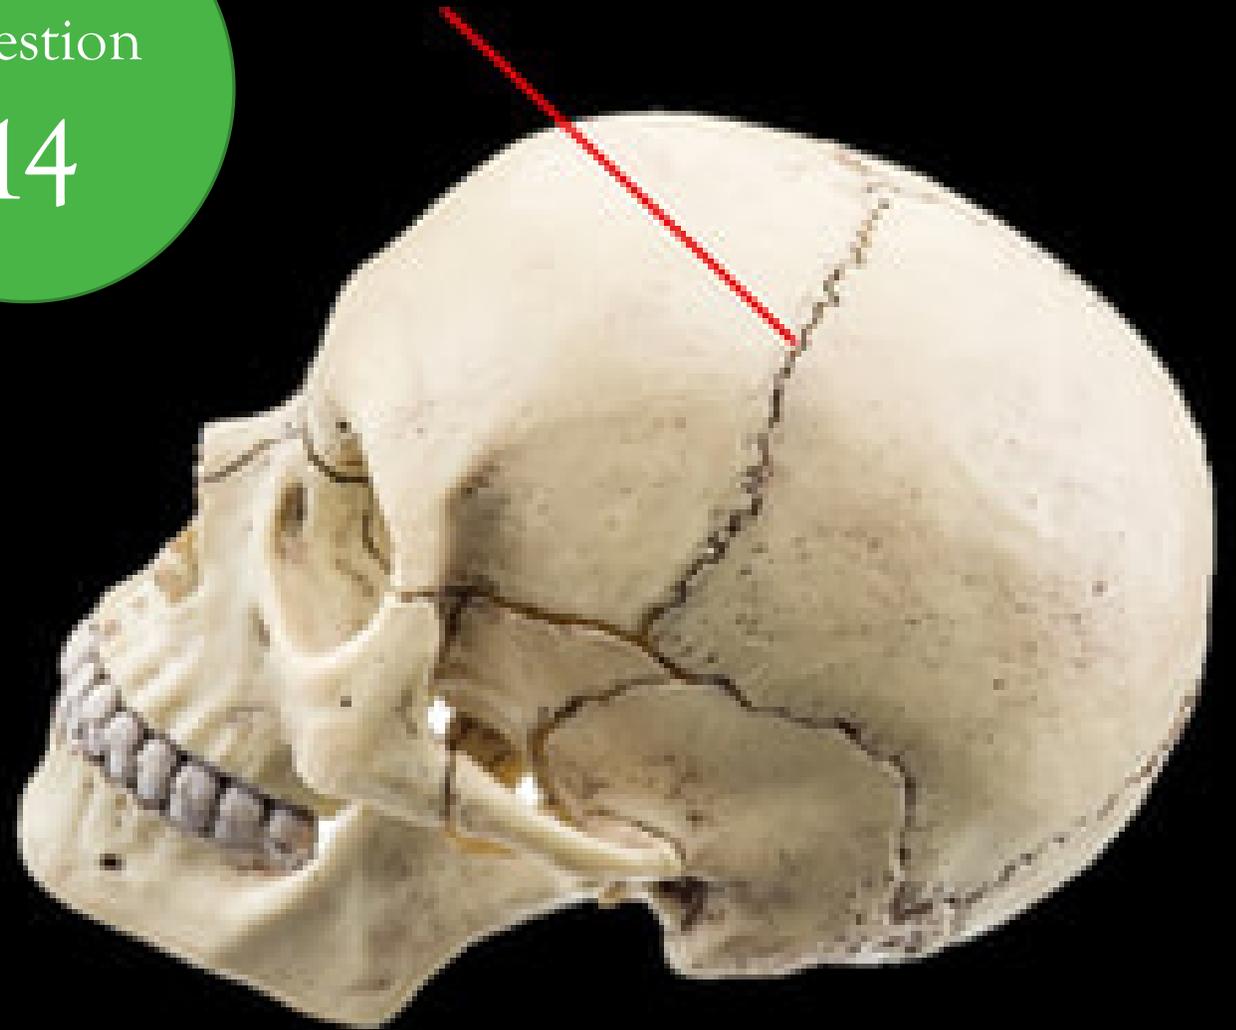

Coronal Suture

Squamosal Suture

Lambdoidal Suture

Sagittal Suture

Transverse Suture

Question

15

Identify the SUTURE.

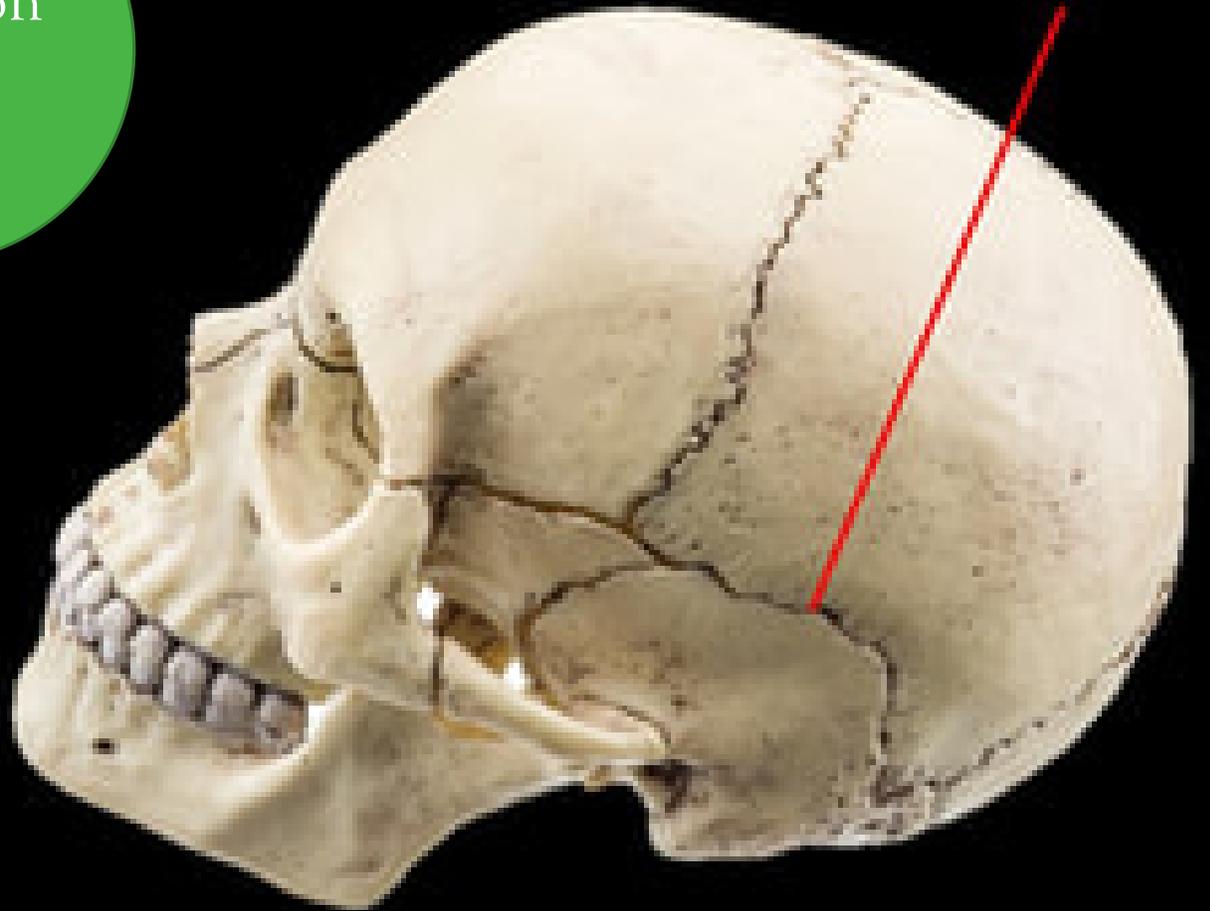

Coronal Suture

Squamosal Suture

Lambdoidal Suture

Sagittal Suture

Transverse Suture

What is the BONE?

Zygoma

Maxilla

Vomer

Palatine Bone

Ethmoid

Question

16

NAME \_\_\_\_\_

What is the BONE?

Temporal Bone

Occipital Bone

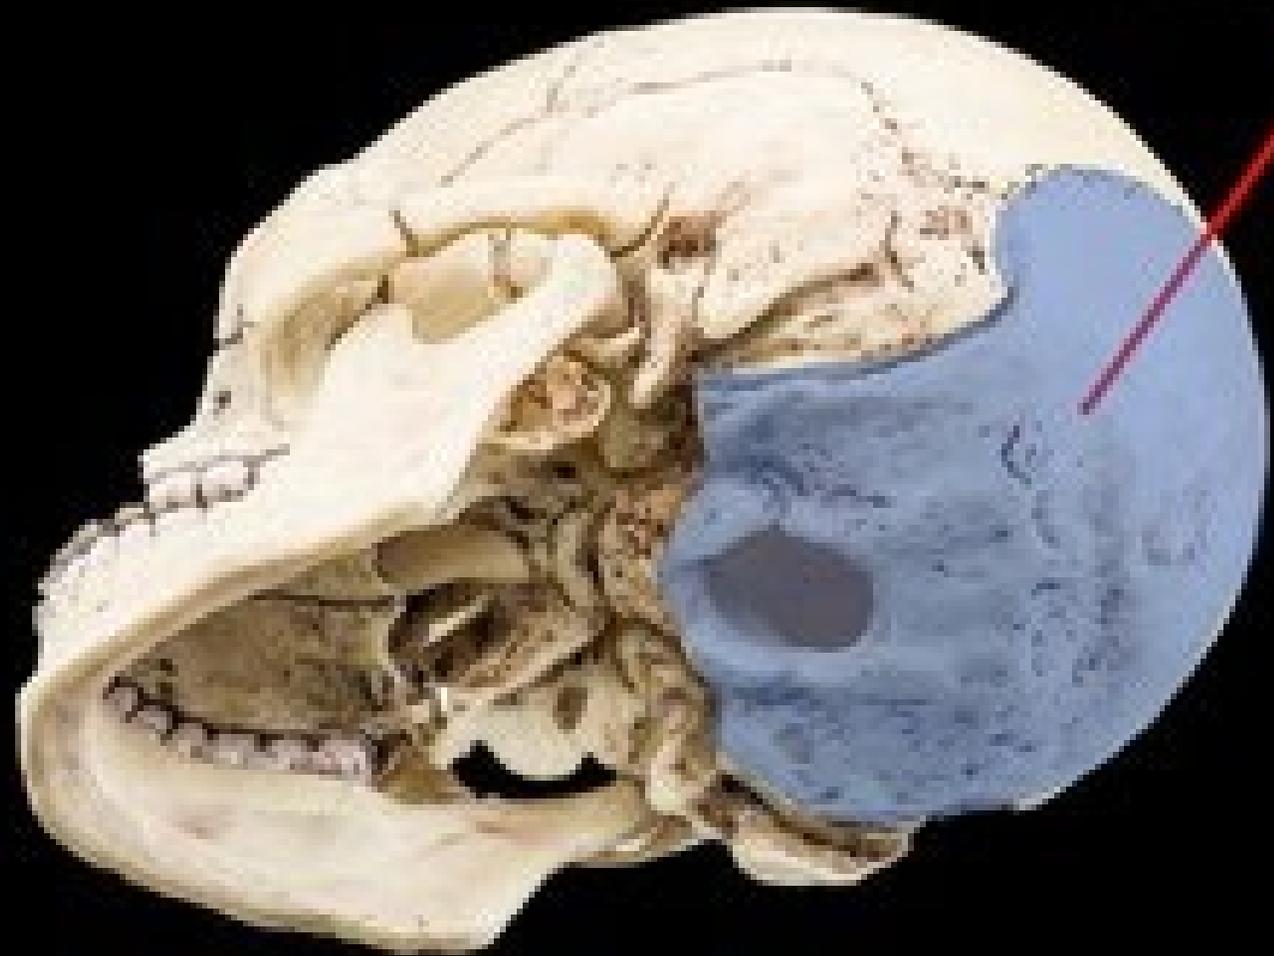

Sphenoid

Palatine Bone

Ethmoid

Question

17

Identify the SUTURE.

Coronal Suture

Squamosal Suture

Lambdoidal Suture

Sagittal Suture

Transverse Suture

Question

18

Identify the type of rib.

False Ribs

Pseudo-ribs

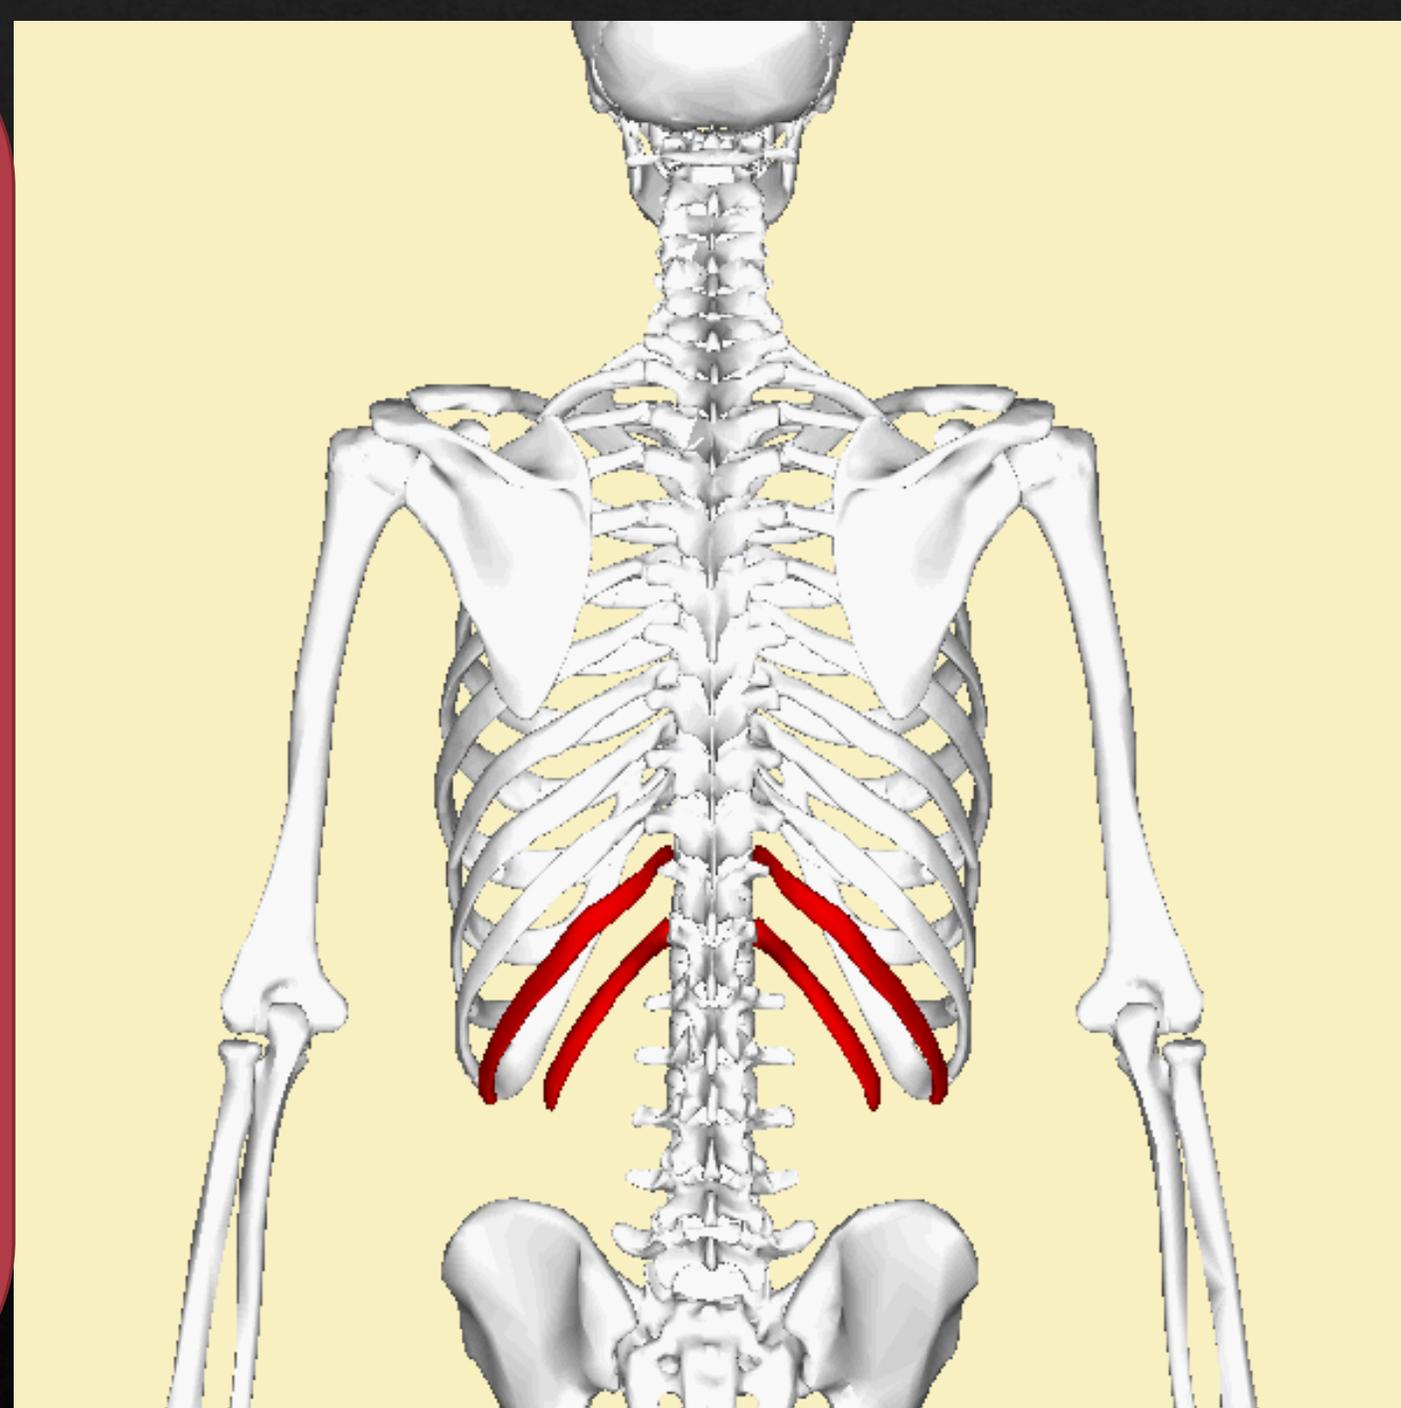

Floating Ribs

True Ribs

Fake Ribs

Question

19

Identify the structure.

Femoral Head

Head of the Humorous

Glenoid Fossa

Capitulum

Lesser Tubercle

Question

20

Question  
21

Identify the structure.

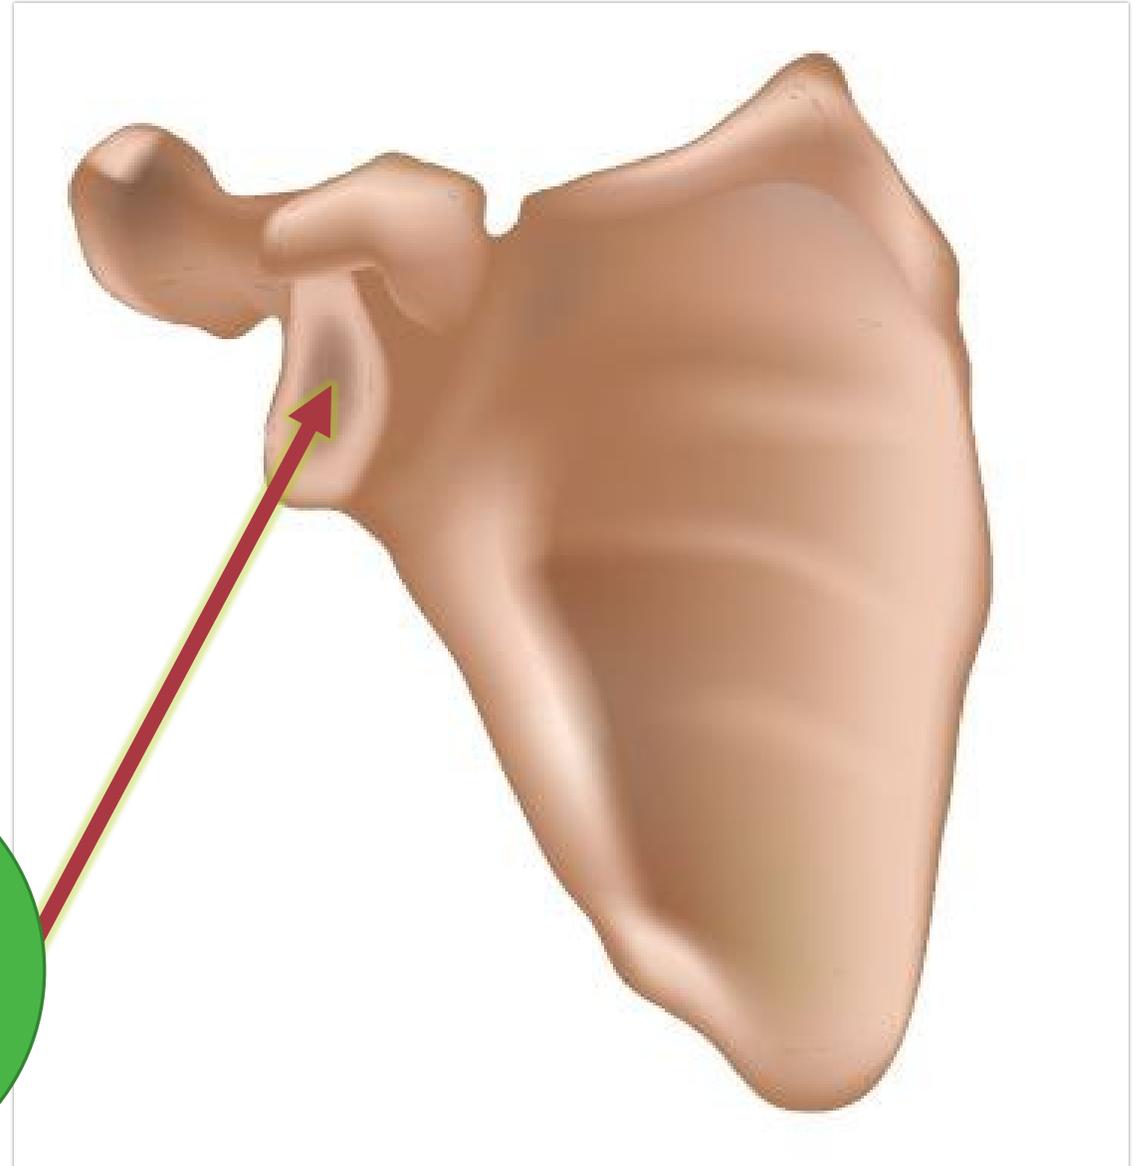

- Spine of the Scapula
- Coracoid Process
- Coronoid Process
- Acromion Process
- Glenoid Fossa

Identify the structure.

- Spine of the Scapula
- Coracoid Process
- Coronoid Process
- Acromion Process
- Glenoid Fossa

Question

22

Identify the structure.

- Spine of the Scapula
- Coracoid Process
- Coronoid Process
- Acromion Process
- Glenoid Fossa

Question

23

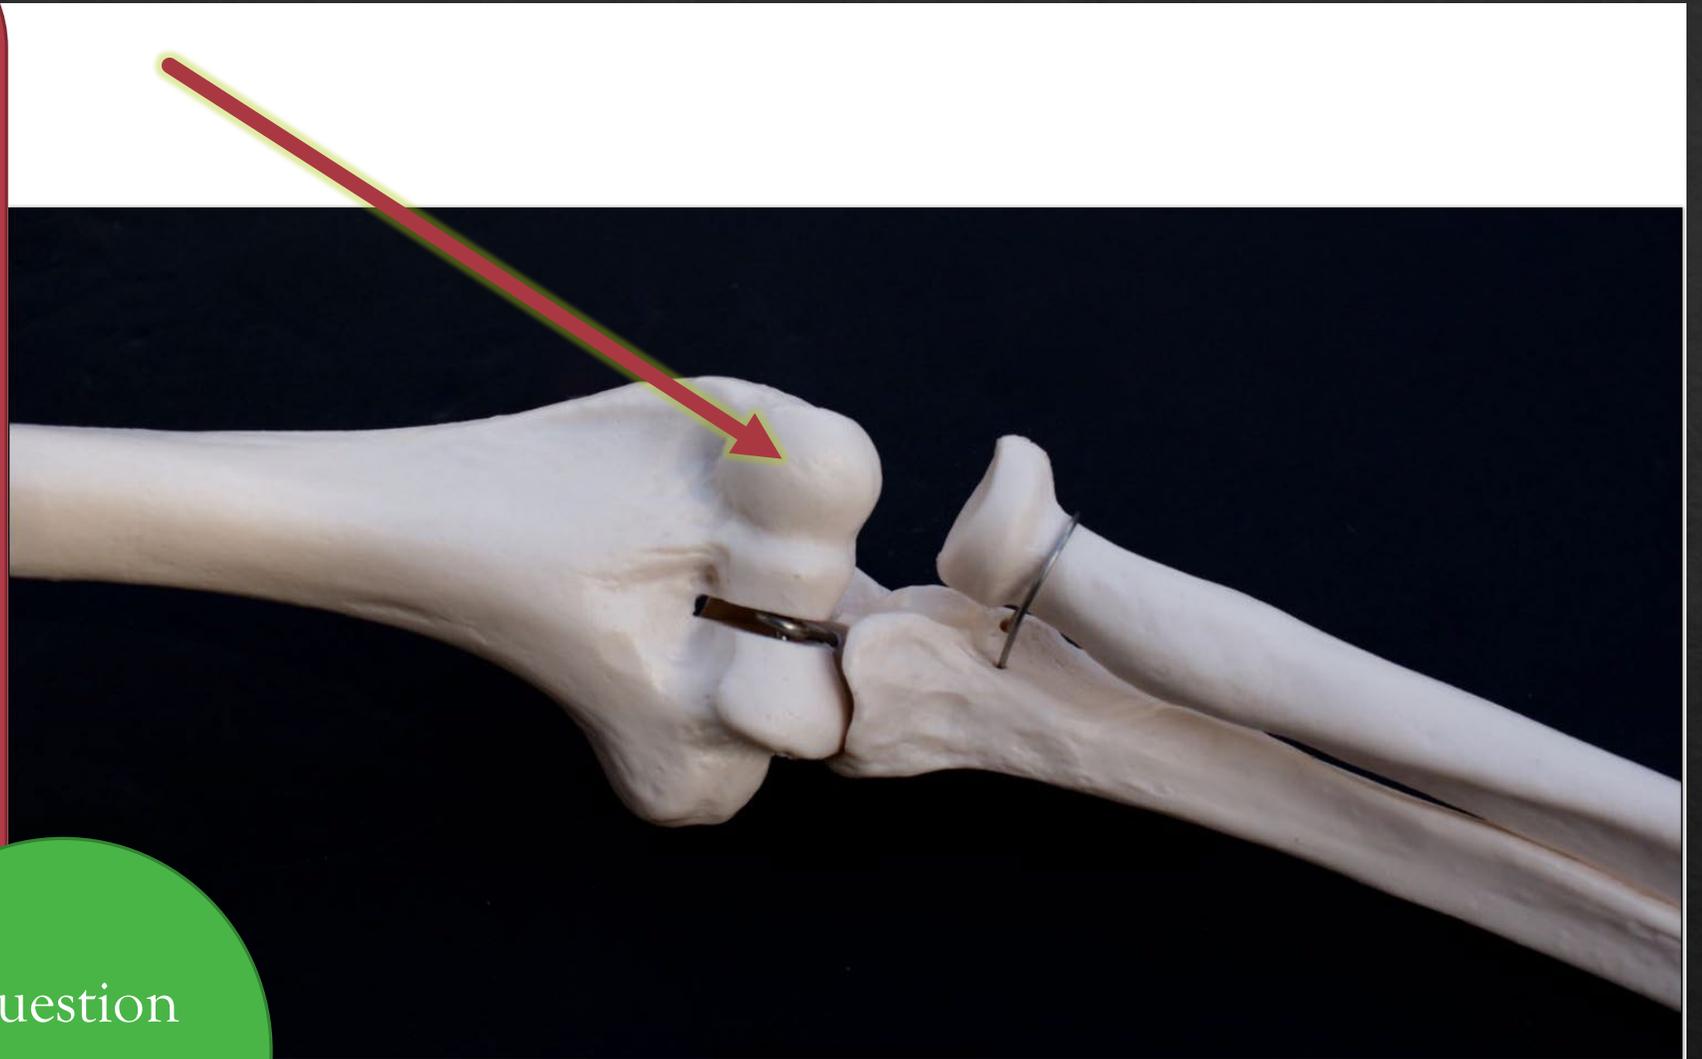

Identify the  
structure.

- Capitulum
- Olecranon
- Process
- Coronoid Process
- Trochlea
- Olecranon Fossa

Question

24

Identify the  
structure.

Capitulum

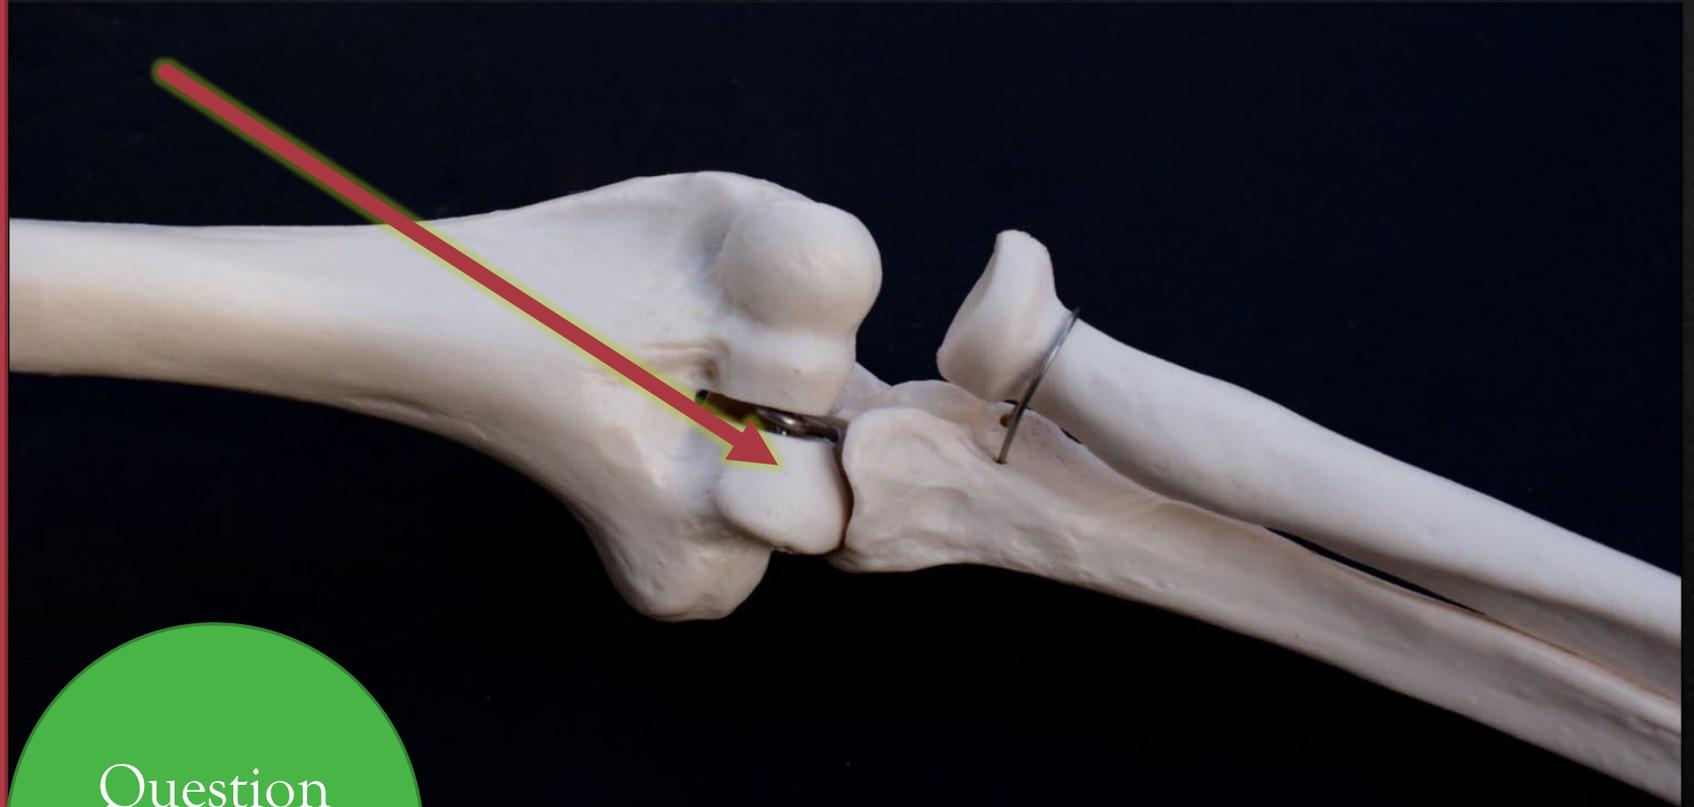

Olecranon

Process

Coronoid Process

Trochlea

Olecranon Fossa

Question

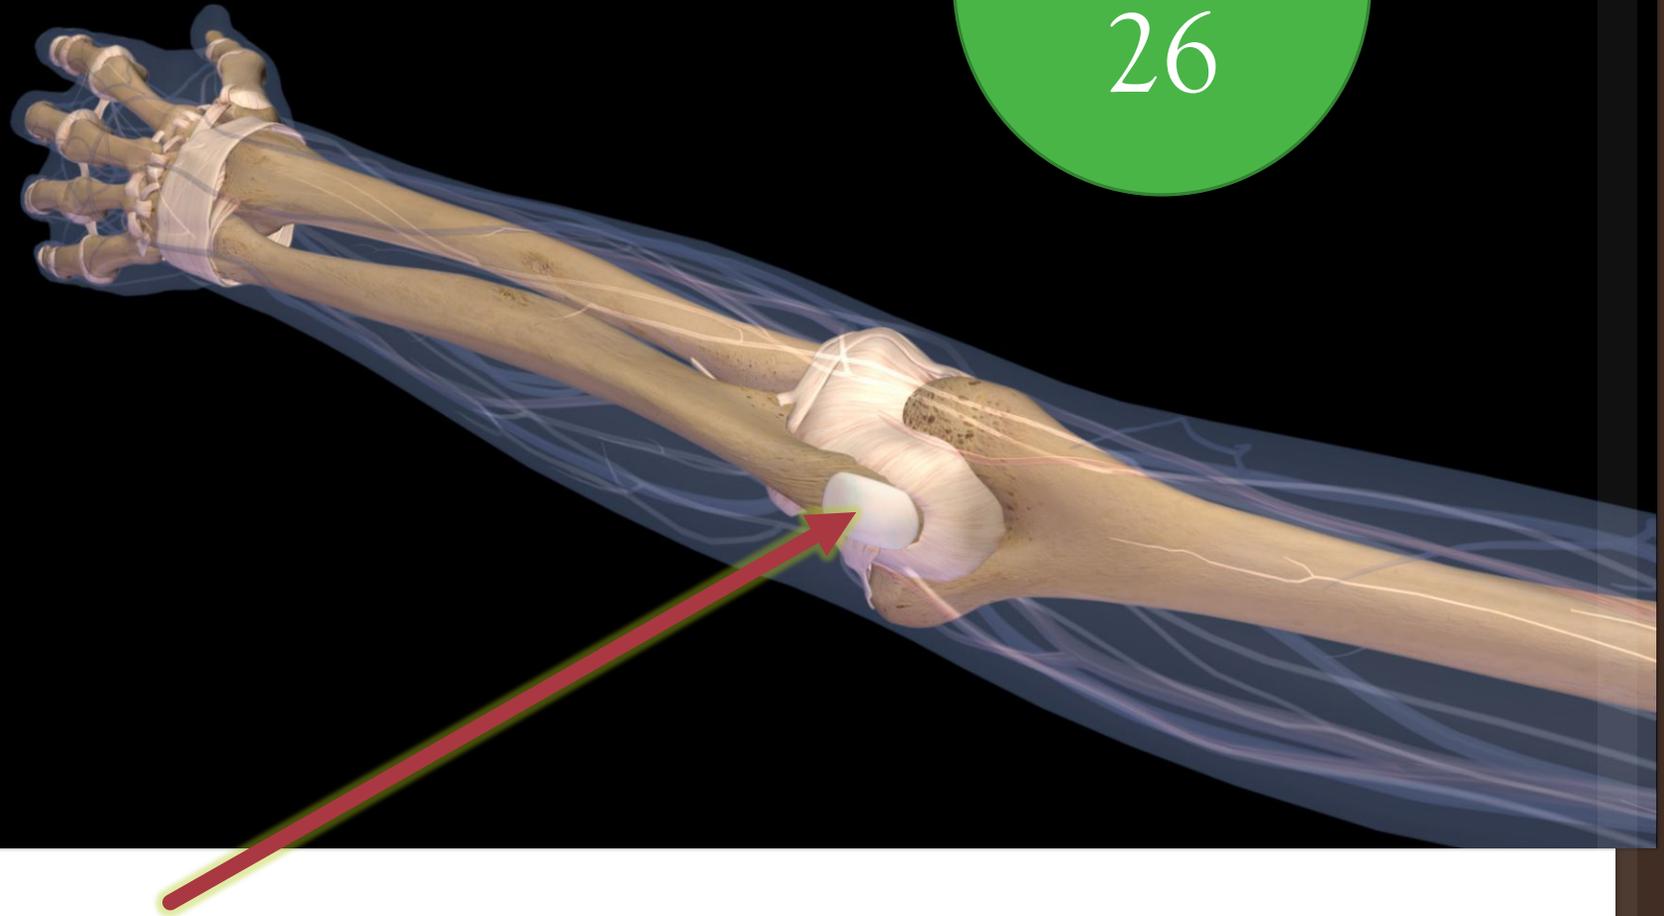

25

Identify the  
structure.

Capitulum  
Olecranon  
Process  
Coronoid  
Process  
Trochlea  
Olecranon Fossa

Question

26

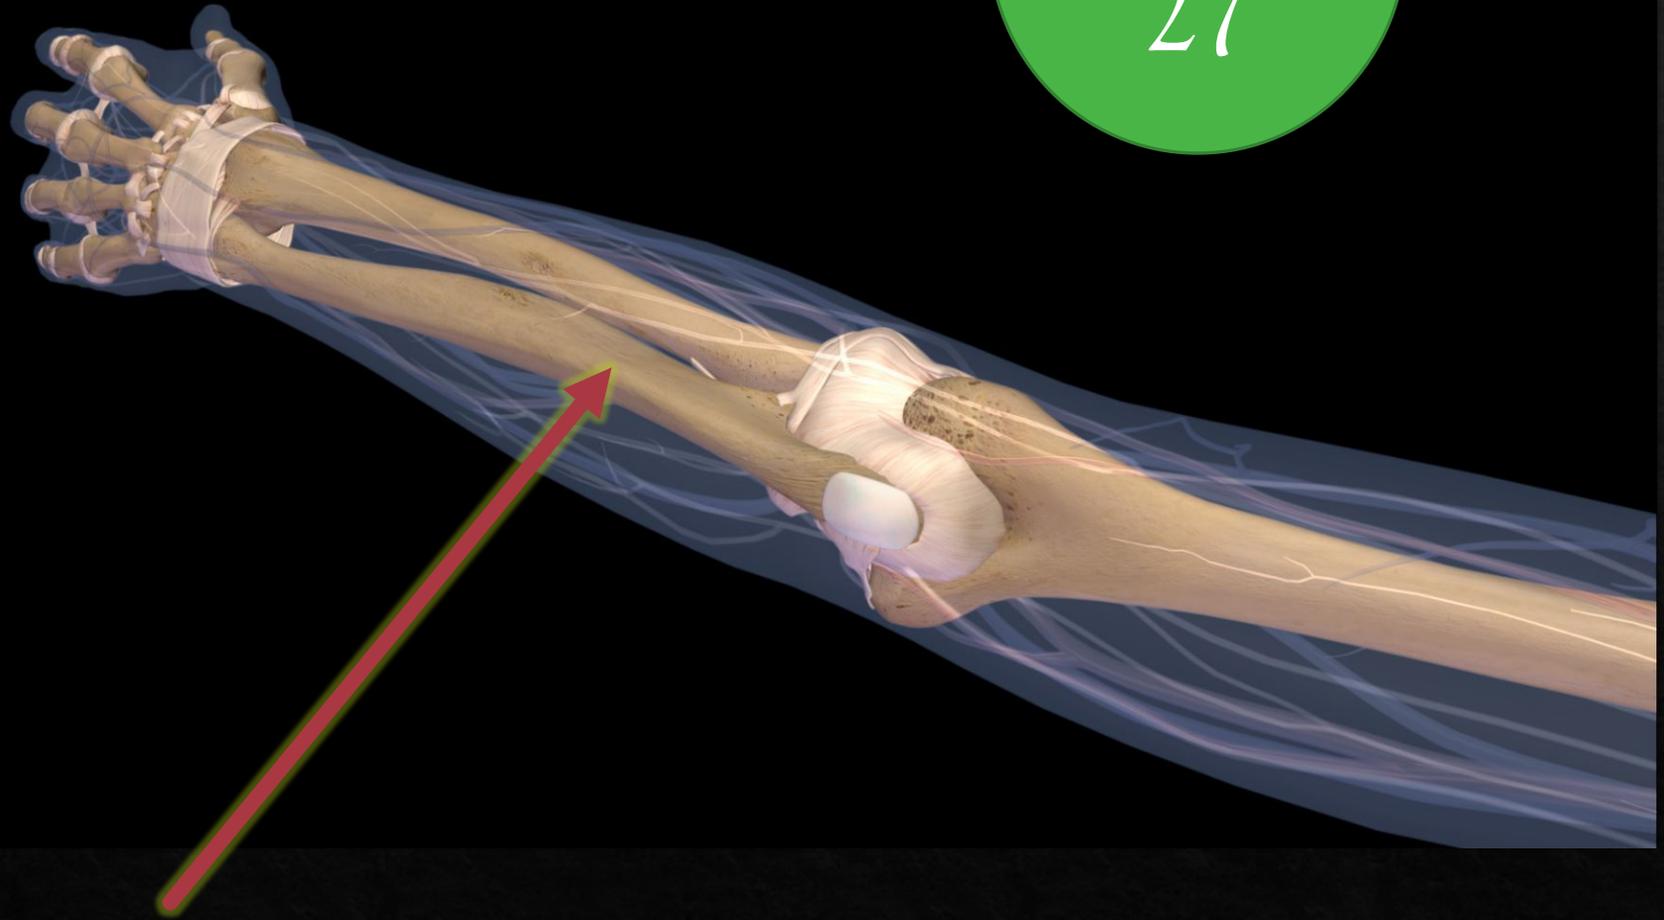

Question

27

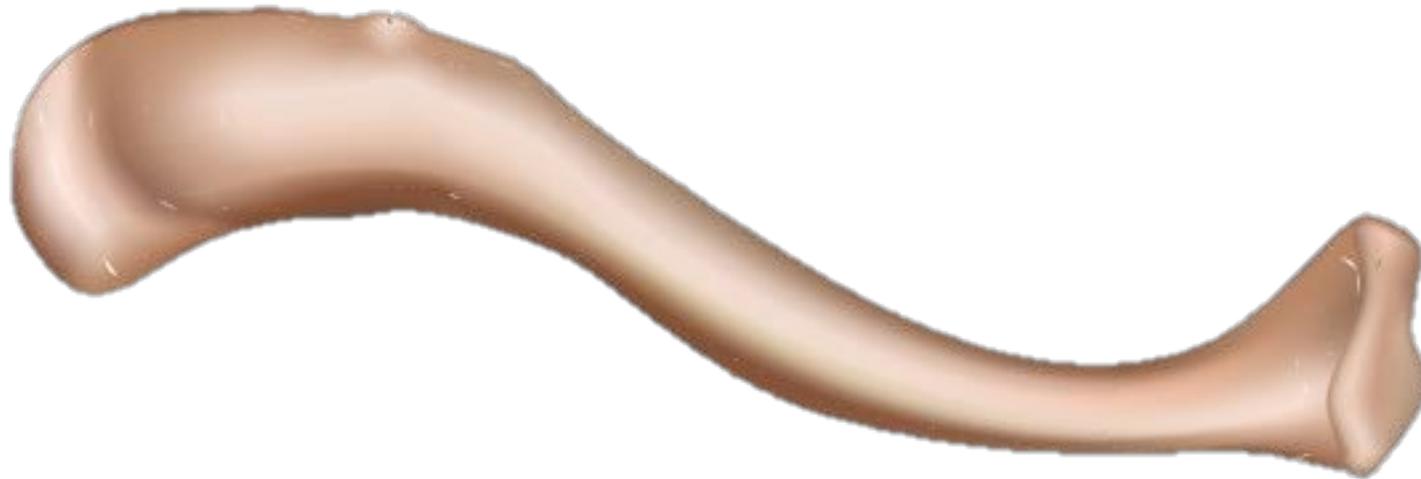

Identify the  
BONE.

Ulna  
Humerus  
Radius  
Fibula  
Clavicle

Identify the BONE.

Question  
28

Ulna  
Humerus  
Radius  
Fibula  
Clavicle

Identify the STRUCTURE.

Medial condyle

Medial malleolus

Lateral condyle

Fibular condyle

Greater Trochanter

Question

29

Identify the LEVEL.

Cervical

Lumbar

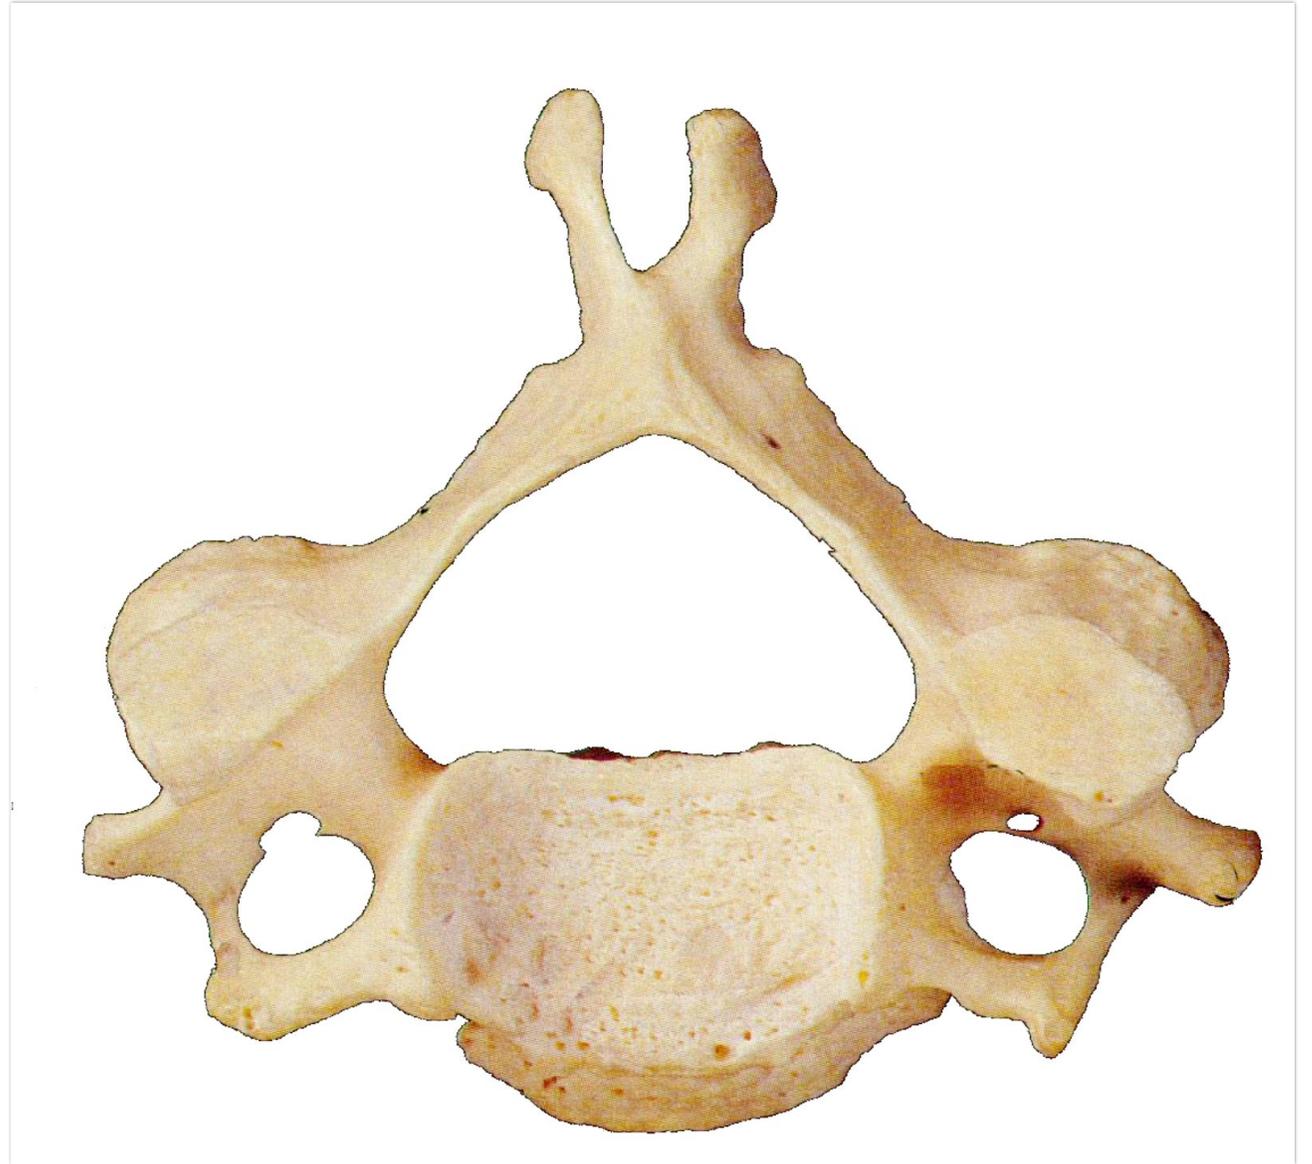

Thoracic

Axis

Atlas

Question

30

Identify the  
**STRUCTURE.**

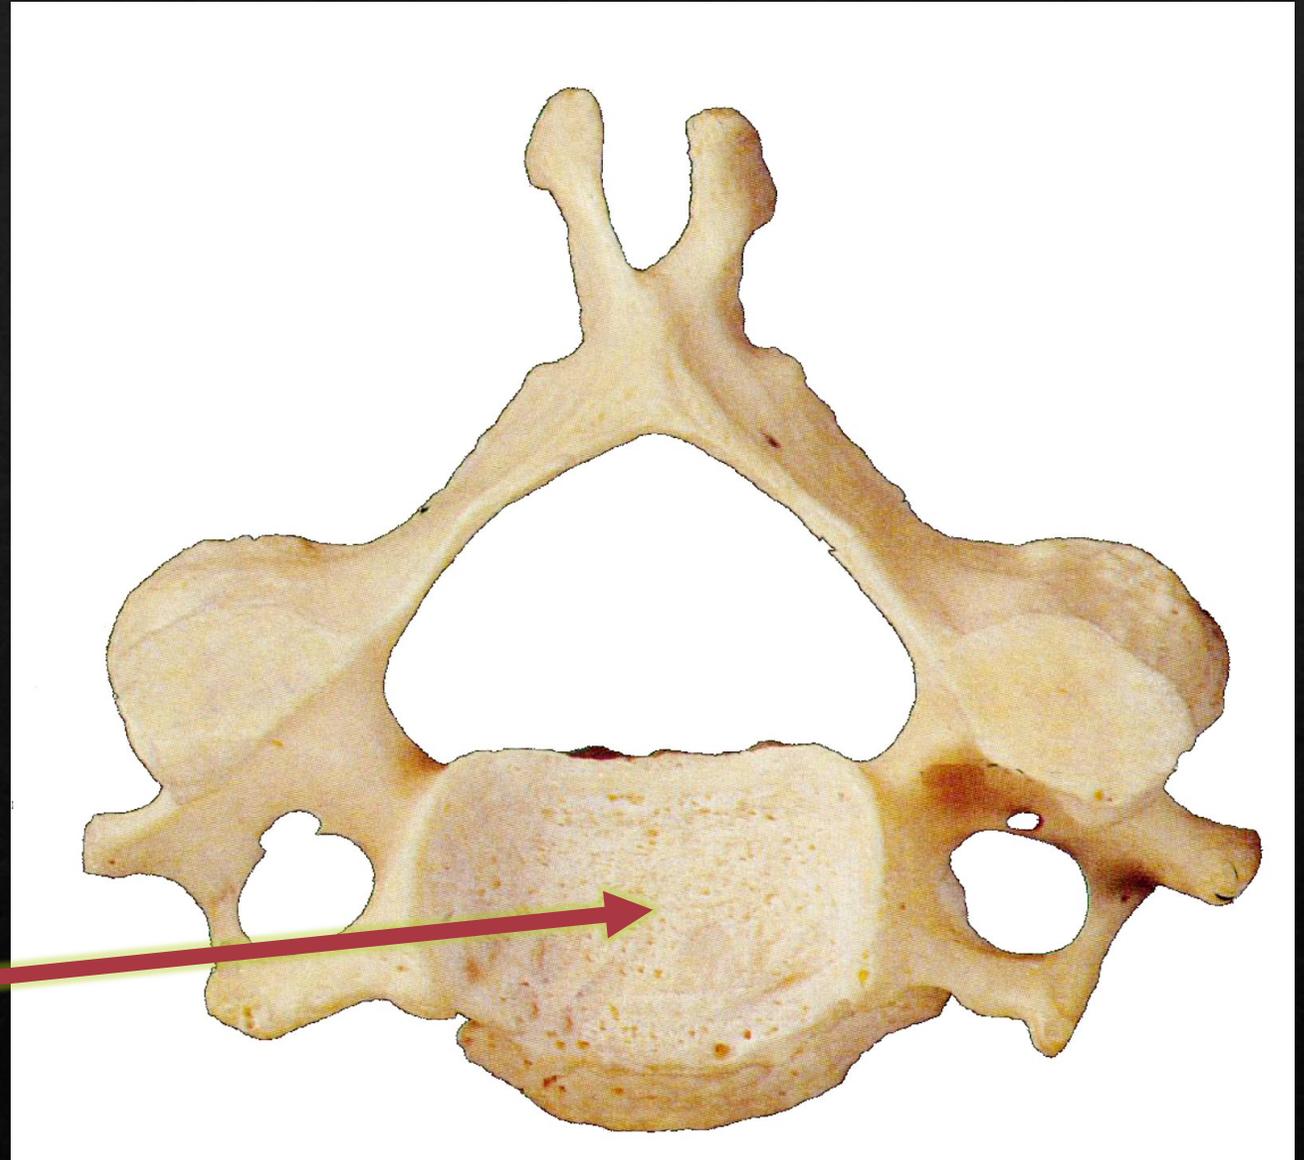

Dens

Transverse process

Spinous process

Body

Transverse foramen

Question

31

Identify the  
**STRUCTURE.**

Dens

Transverse process

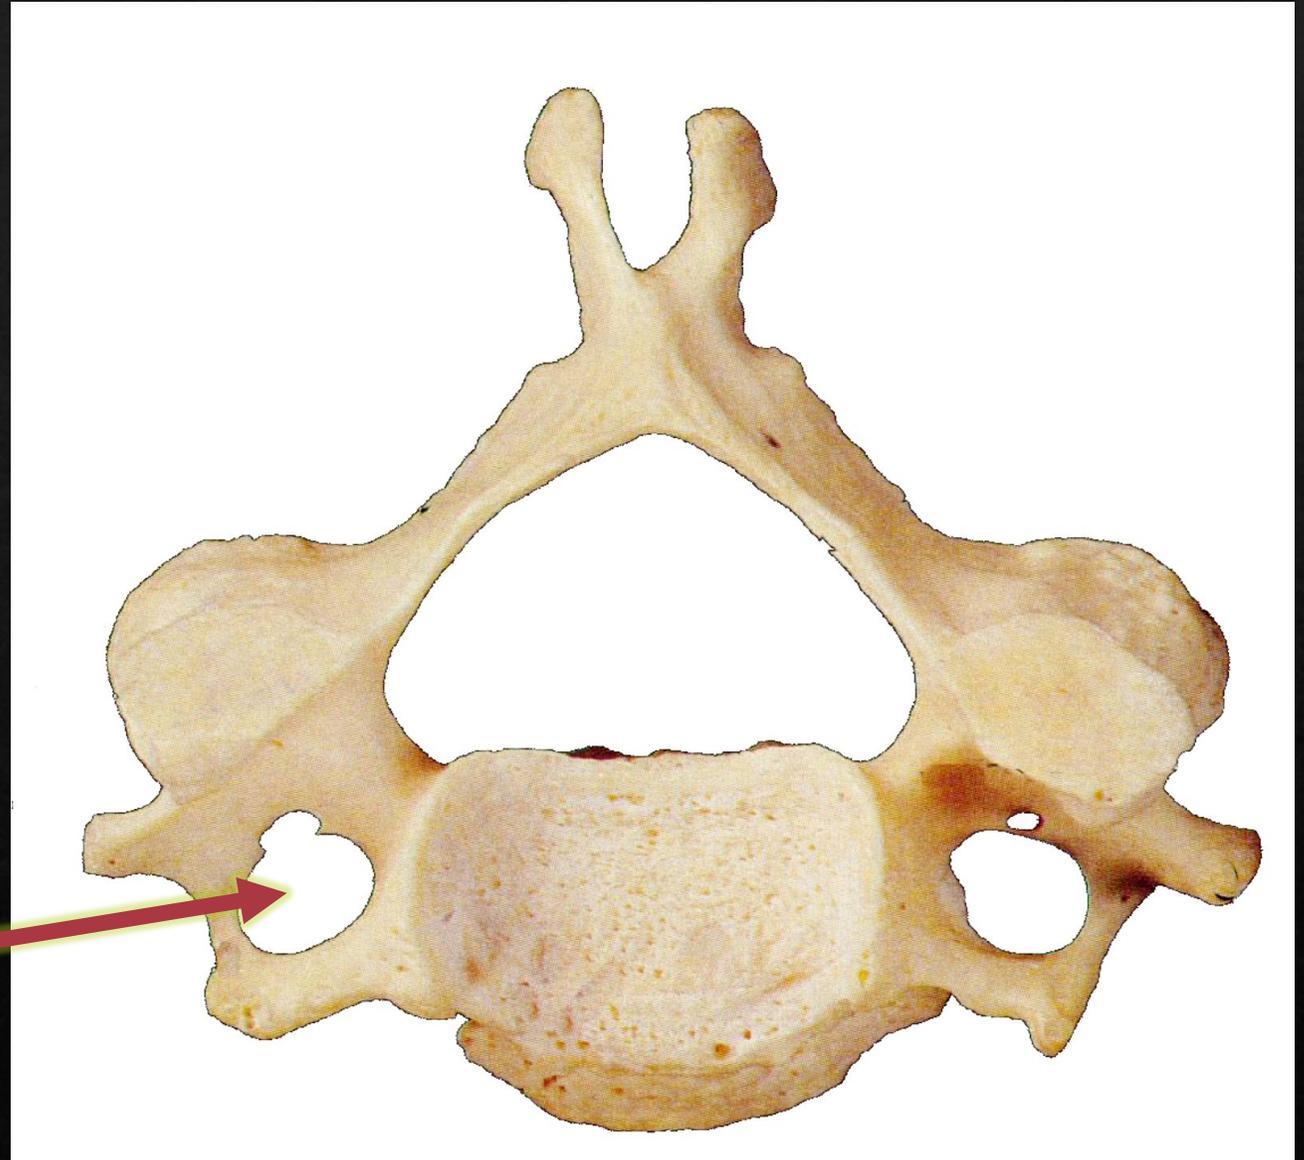

Spinous process

Body

Transverse foramen

Question

32

Identify the  
**STRUCTURE.**

Dens

Transverse process

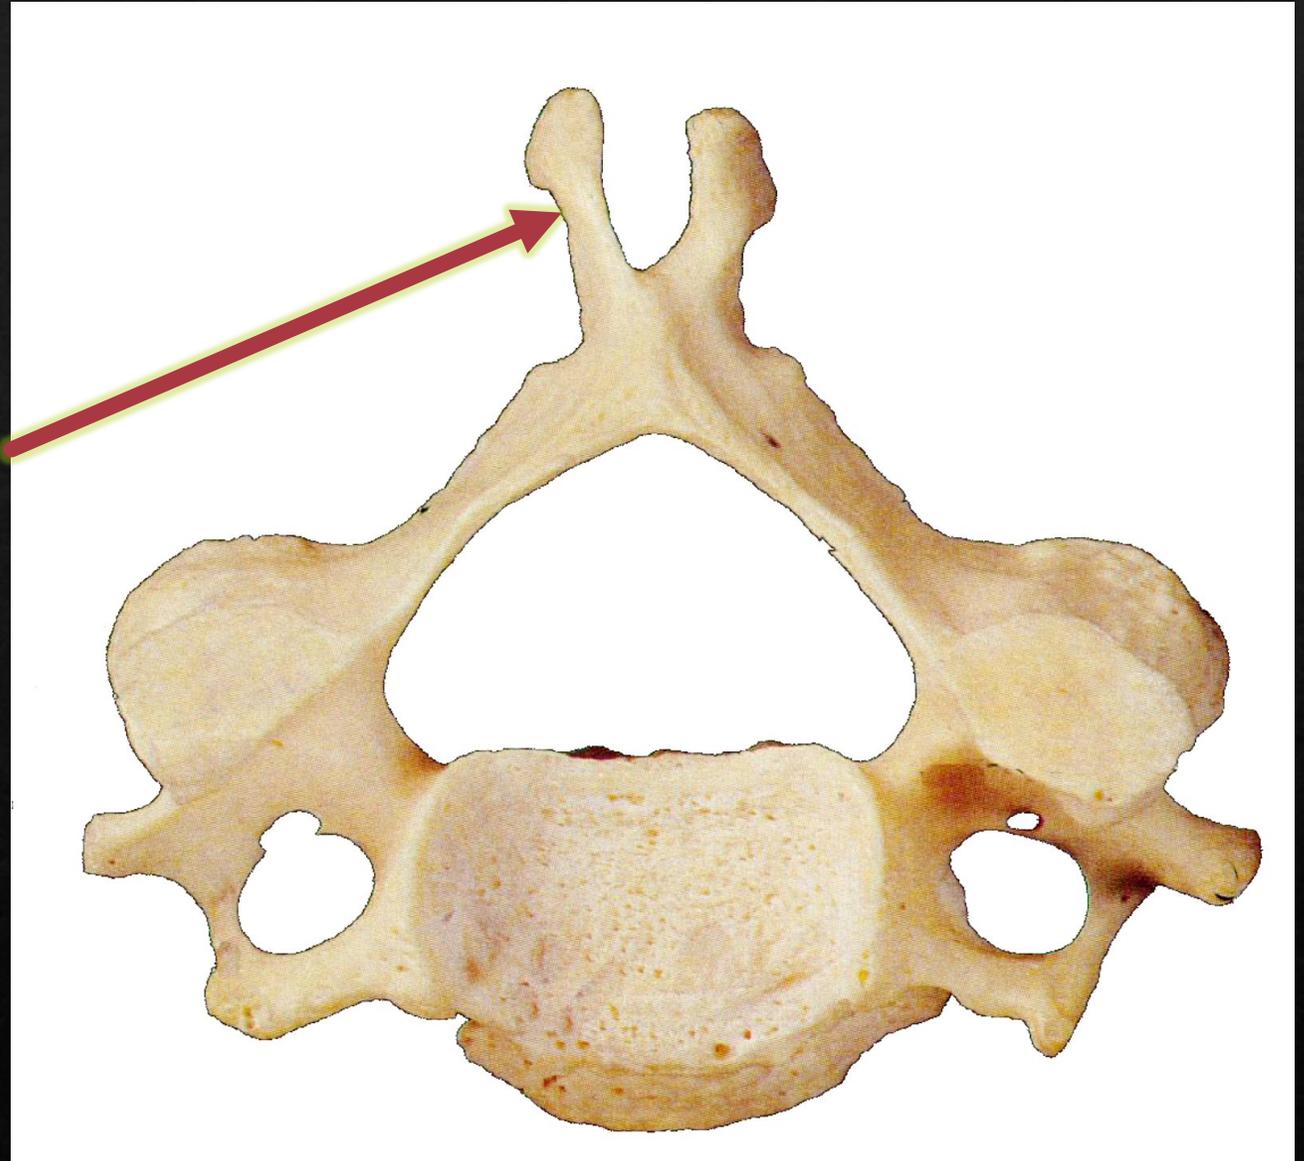

Spinous process

Body

Transverse foramen

Question

33

Identify the  
STRUCTURE.

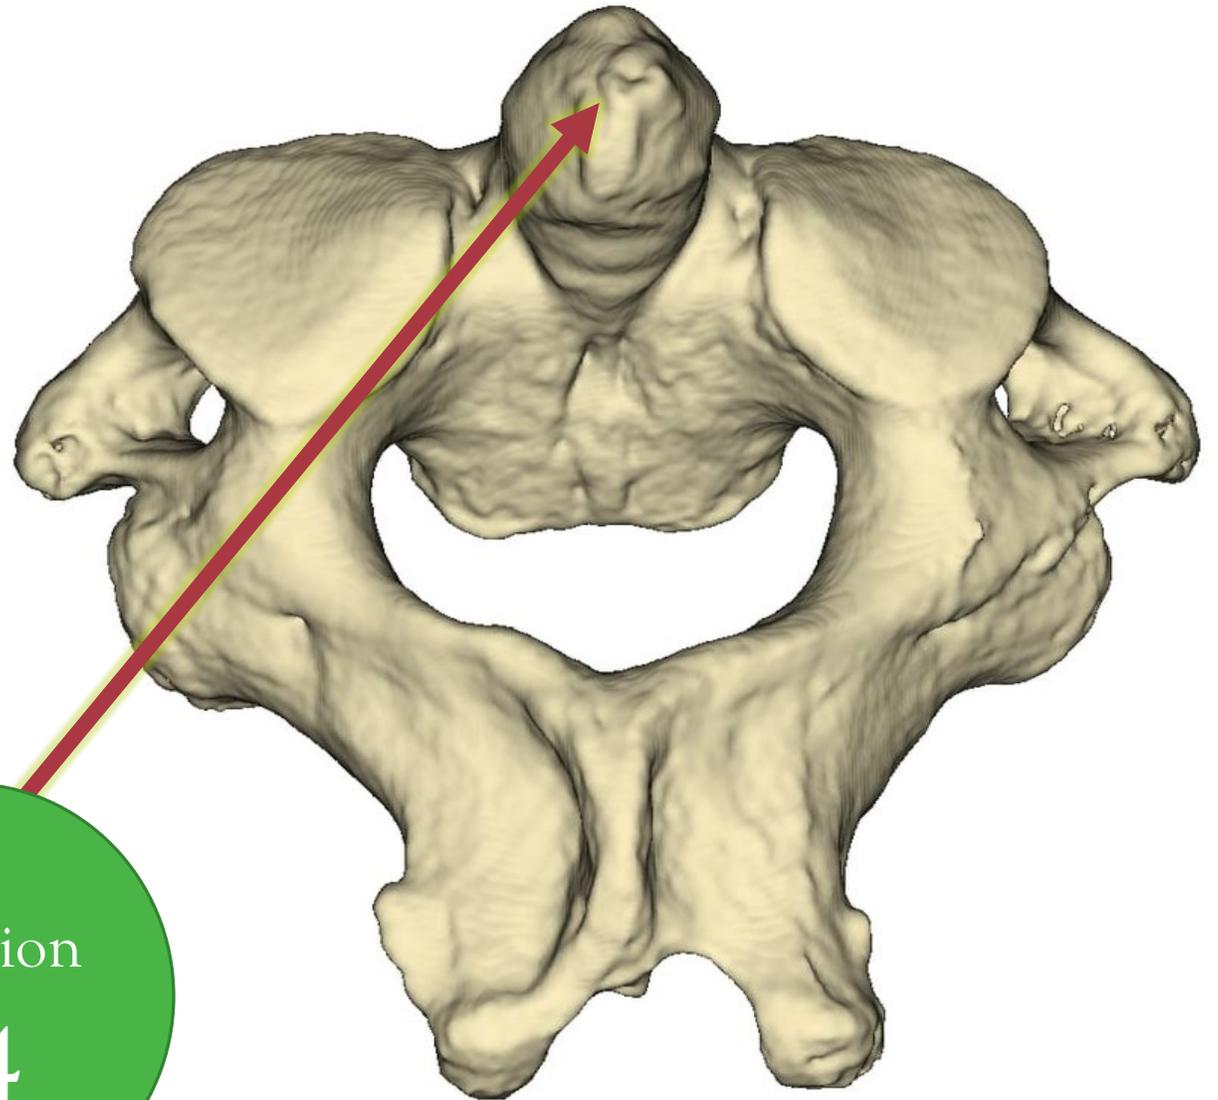

Dens

Transverse process

Spinous process

Body

Transverse process

Question

34

Identify the BONE.

Ulna

Humerus

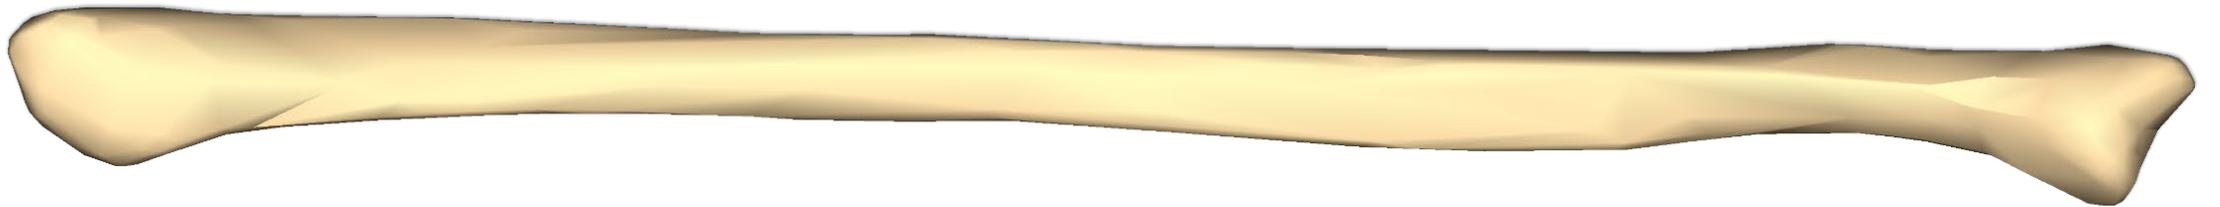

Radius

Fibula

Clavicle

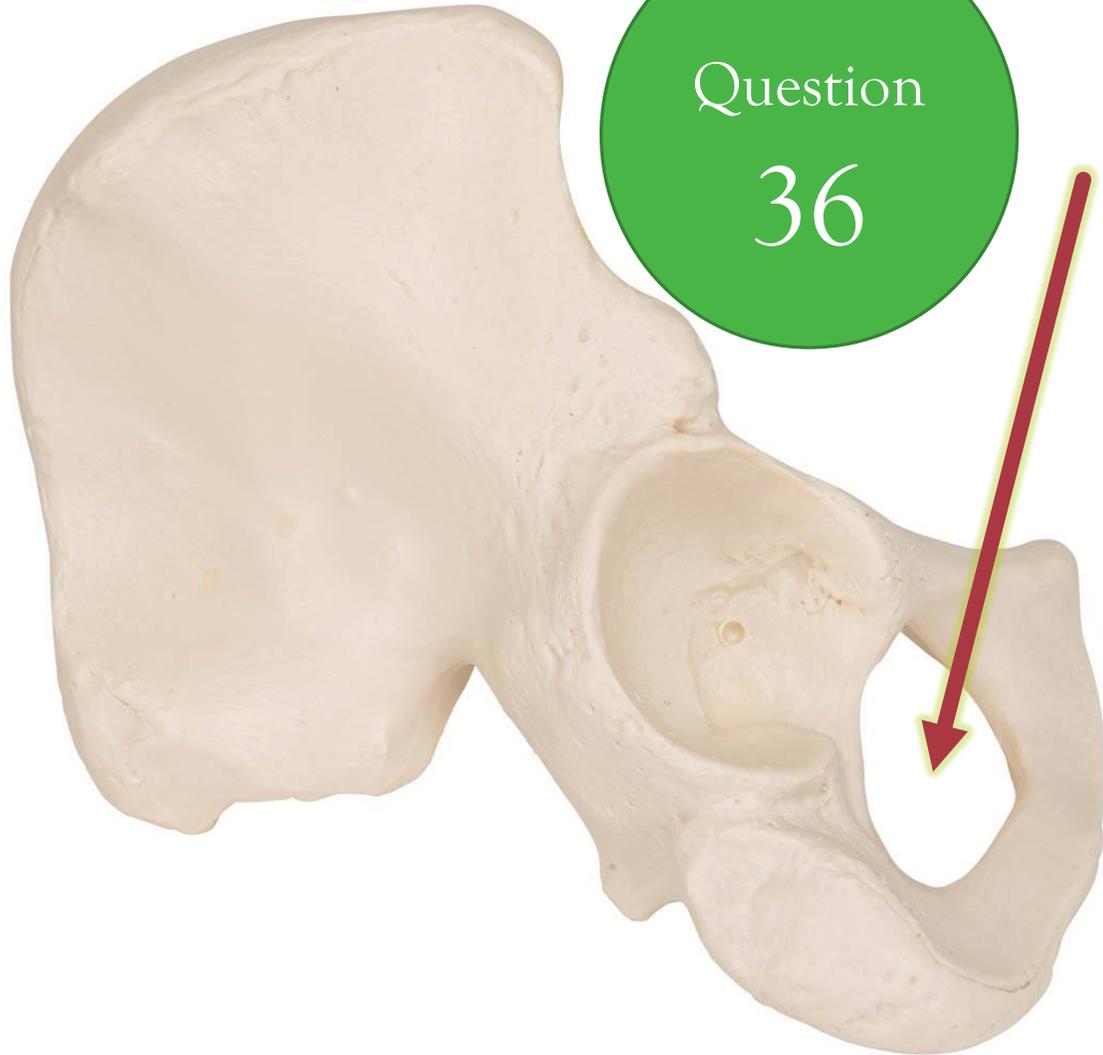

Question

35

Question

36

Identify the **STRUCTURE**.

Foramen magnum

Transverse foramen

Obturator Foramen

Os Coxae

Acetabulum

Question

37

Identify the **STRUCTURE**.

Foramen magnum

Transverse foramen

Obturator Foramen

Os Coxae

Acetabulum

Question

38

Identify the **STRUCTURE**.

Iliac crest

Spinous process

Ischial spine

Coxa Fossa

Acetabulum

Identify the STRUCTURE.

Question

39

Femoral Head

Humeral Head

Head of the Radius

Head of the Tibia

Head of the fibula

Question

40

Identify the STRUCTURE.

Lesser trochanter

Greater tubercle

Greater trochanter

Lesser tubercle

Trochlea

Question

41

Identify the STRUCTURE.

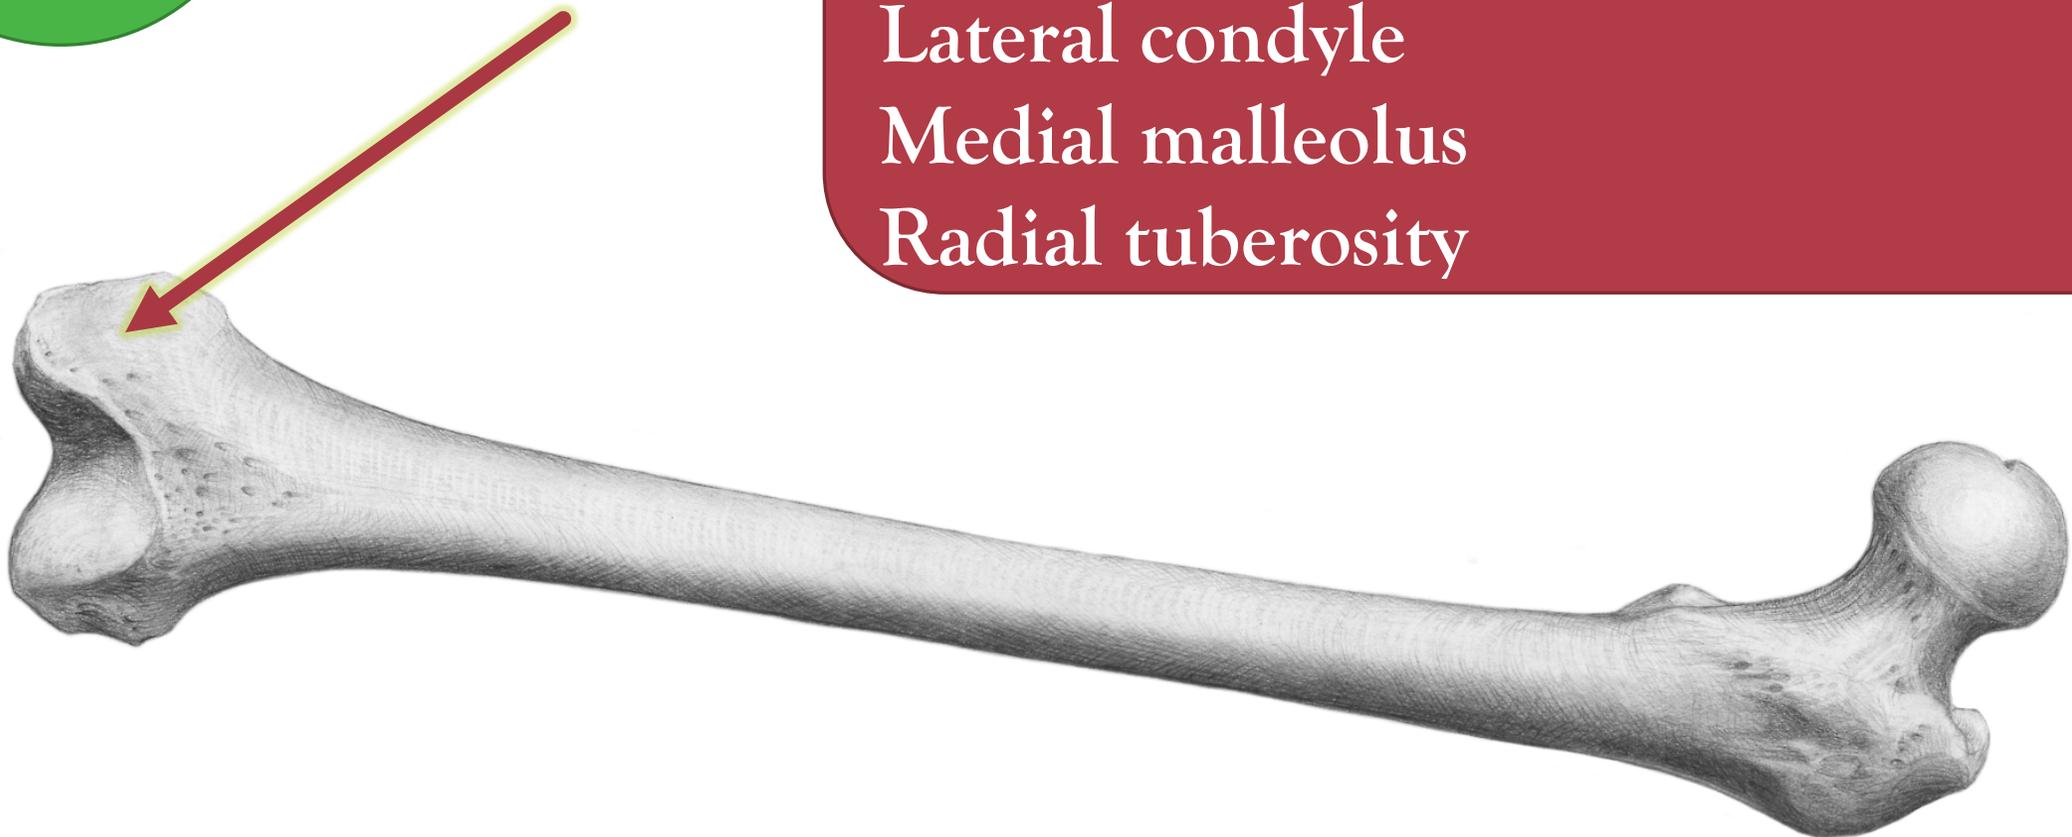

Medial condyle

Lateral fossa

Lateral condyle

Medial malleolus

Radial tuberosity

Question

42

Identify the STRUCTURE.

Medial condyle

Lateral fossa

Lateral condyle

Medial malleolus

Radial tuberosity

Identify the **STRUCTURE**.

Medial condyle

Lateral fossa

Lateral condyle

Medial malleolus

Radial tuberosity

Question

43

Identify the **STRUCTURE**.

Femoral Head

Humeral Head

Head of the Radius

Head of the Tibia

Head of the fibula

Question

44

Identify the STRUCTURE.

- Medial condyle
- Lateral fossa
- Lateral condyle
- Medial malleolus
- Radial tuberosity

Question

45

Identify the  
**STRUCTURE.**

Question

46

Olecranon process

Coracoid process

Coronoid process

Trochlear notch

Radial tuberosity

Identify the  
**STRUCTURE.**

Olecranon process

Coracoid process

Coronoid process

Trochlear notch

Radial tuberosity

Question

47

Identify the  
**STRUCTURE.**

Olecranon process

Coracoid process

Coronoid process

Trochlear notch

Radial tuberosity

Question

48

## What is the BONE?

Temporal Bone

Occipital Bone

Sphenoid

Palatine Bone

Parietal Bone

Question

49

## What is the BONE?

Temporal Bone  
Occipital Bone  
Frontal Bone  
Palatine Bone  
Ethmoid

Question

50
