

Practical Exam #3 The Muscles

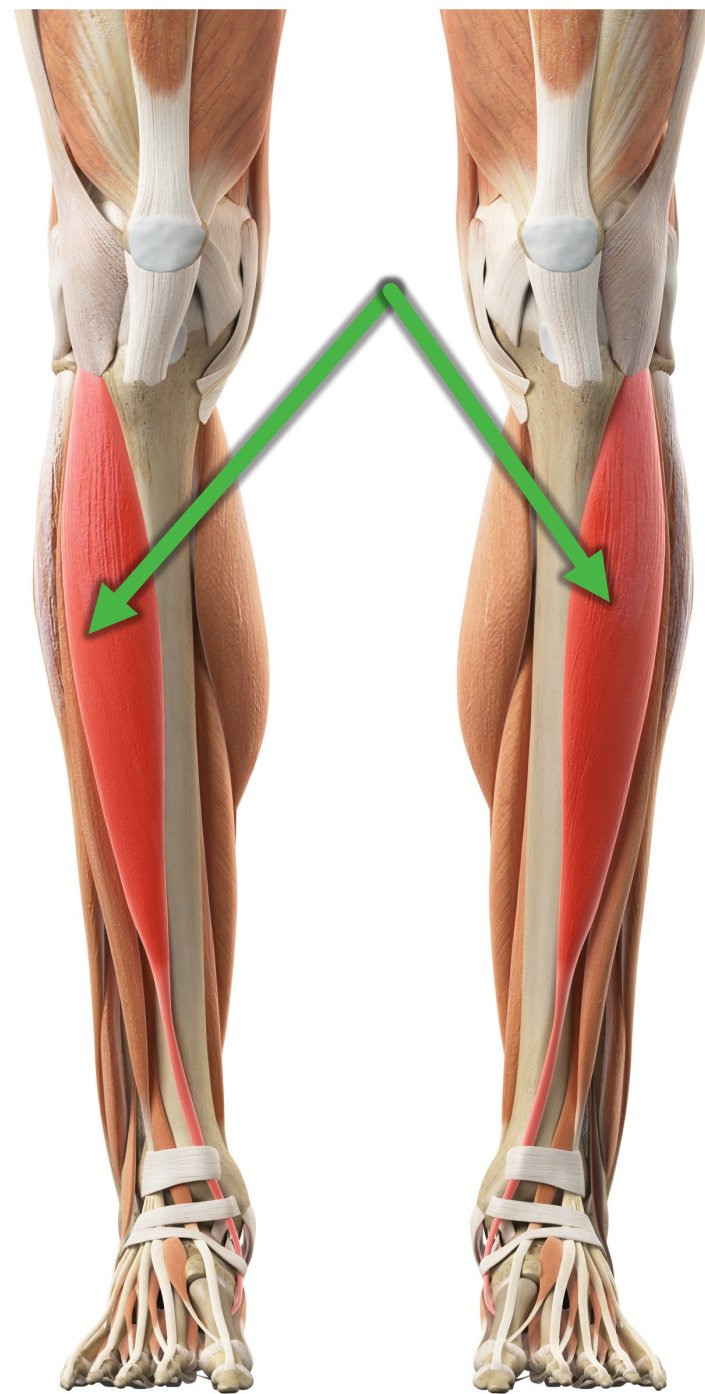

GOOD LUCK!

Identify the muscle.

Semitendinosus
Tibialis Anterior
Vastus Medialis
Soleus
Semimembranosus
Fibularis longus
Biceps femoris

Question

1

What is the muscle?

Semitendinosus

Gracilis

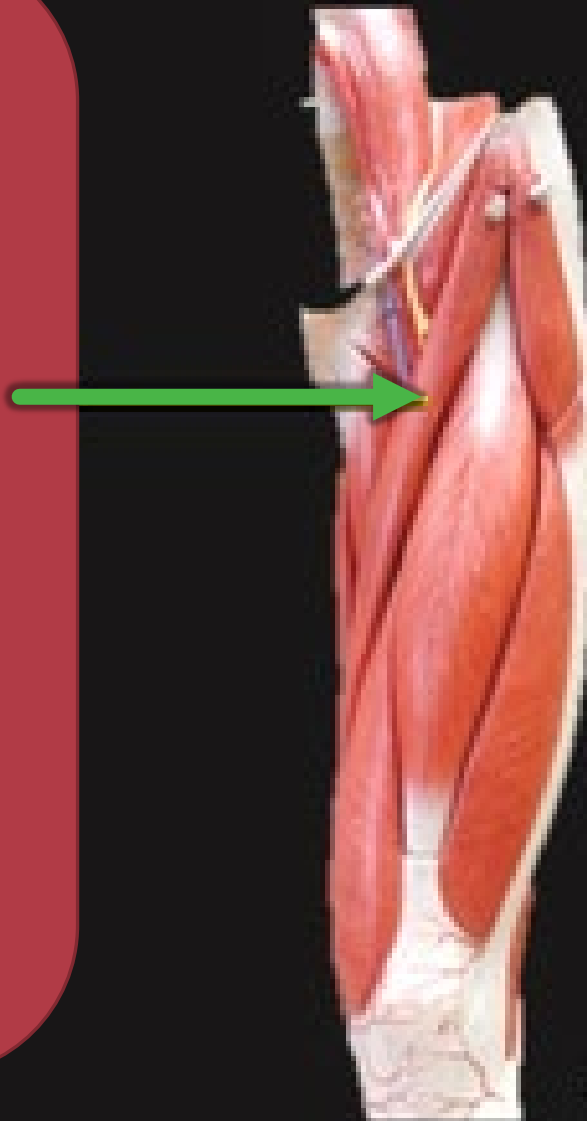

Vastus Medialis

Soleus

Semimembranosus

Sartorius

Biceps femoris

*Anterior
Upper Leg*

Question

2

Question

3

What is this muscle?

Pronator teres

Brachioradialis

Subscapularis

Triceps brachii

Biceps brachii

Deltoid

Trapezius

Question 4

◆ What is muscle?

◆ Buccinator

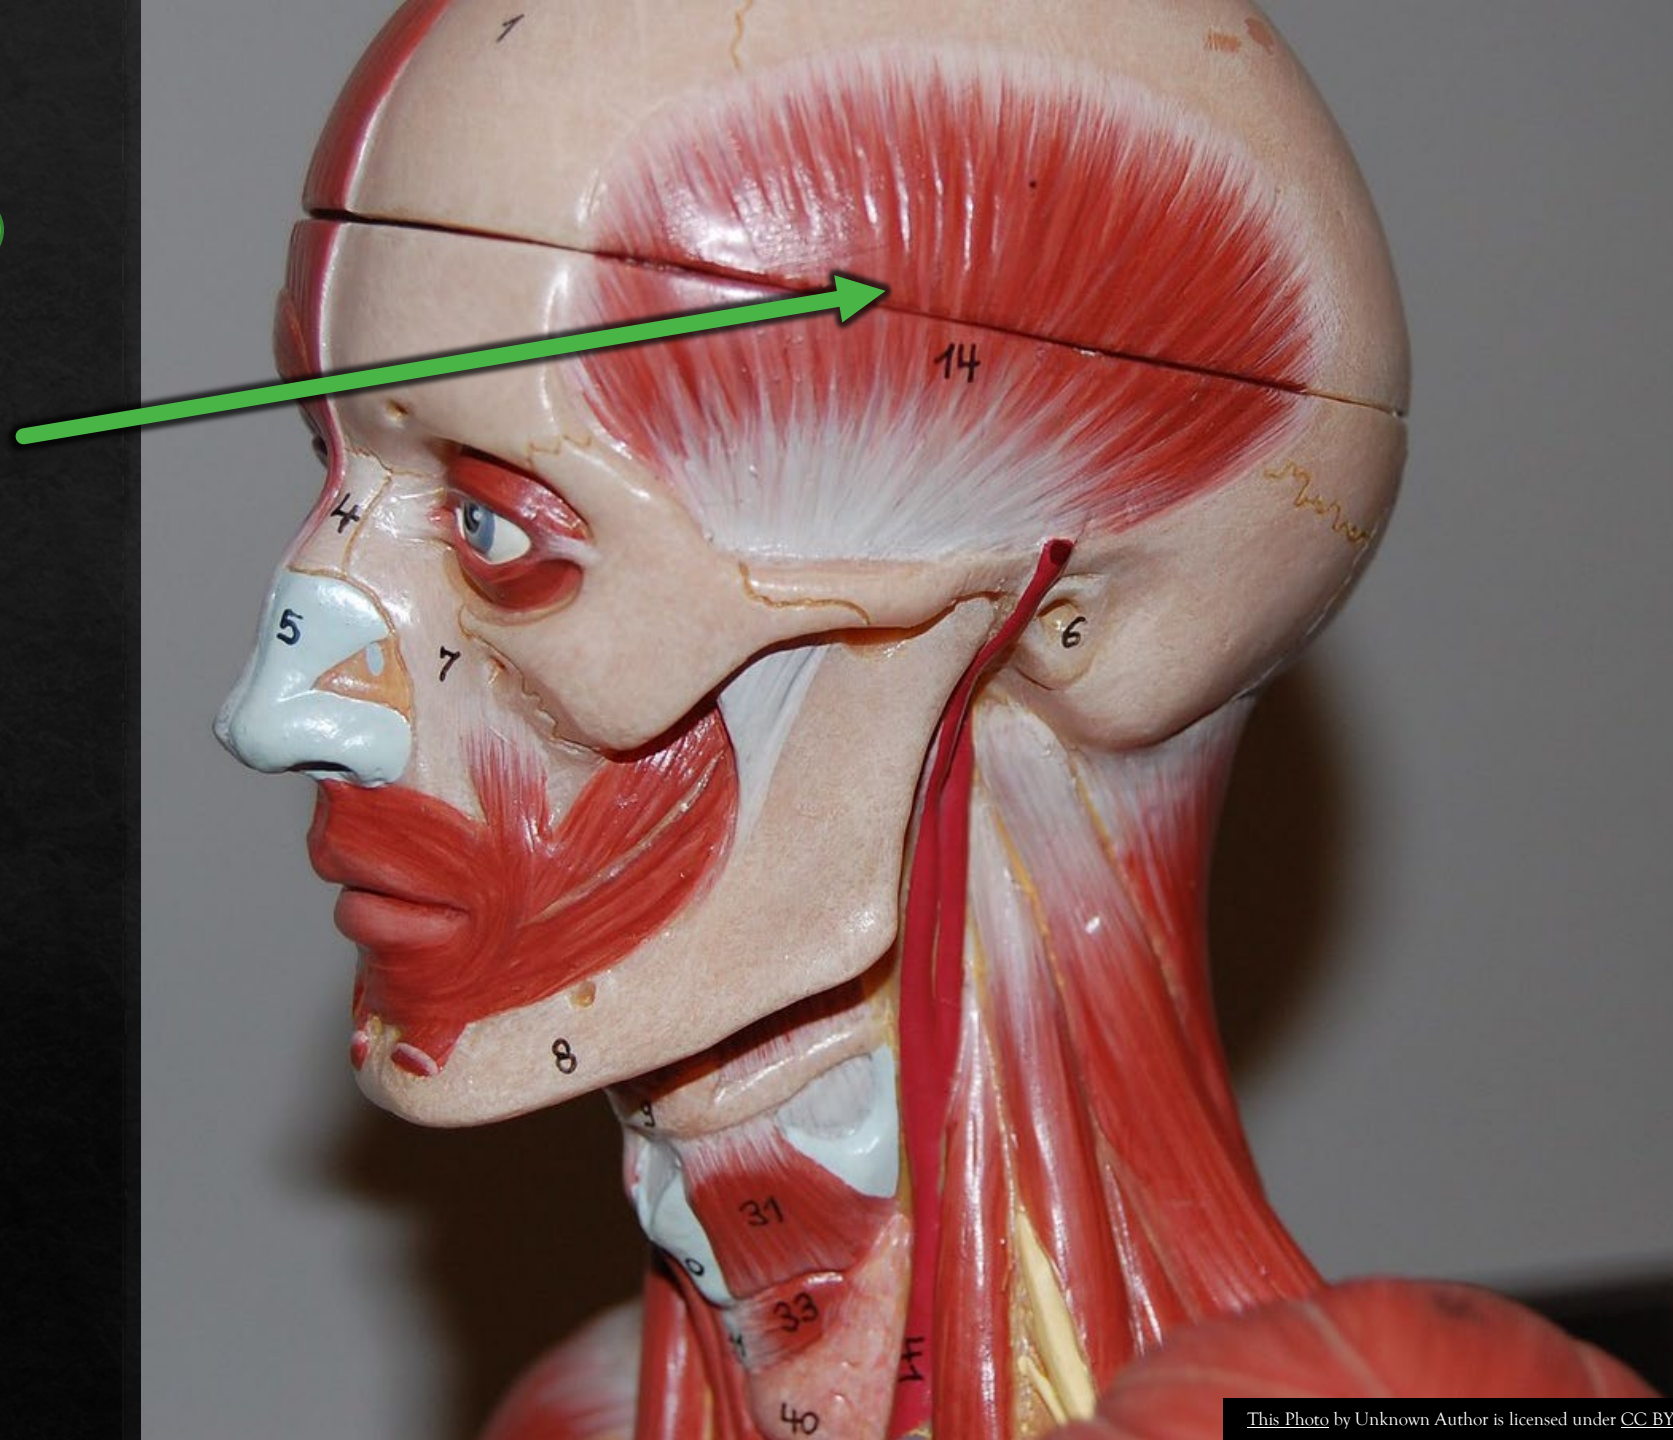

◆ Zygomaticus

◆ Temporalis

◆ Masseter

◆ Orbicularis oris

◆ Orbicularis oculi

Question 5

What is muscle?

Buccinator

Zygomaticus

Temporalis

Masseter

Orbicularis oris

Orbicularis oculi

Question

6

*Medial Lower
Leg*

What is the muscle?

Sartorius

Fibularis longus

Soleus

Gastrocnemius

Tibialis anterior

Vastus medialis

Semitendinosus

*Name the
Muscle.*

Identify the muscle?

Latissimus dorsi

Deltoid

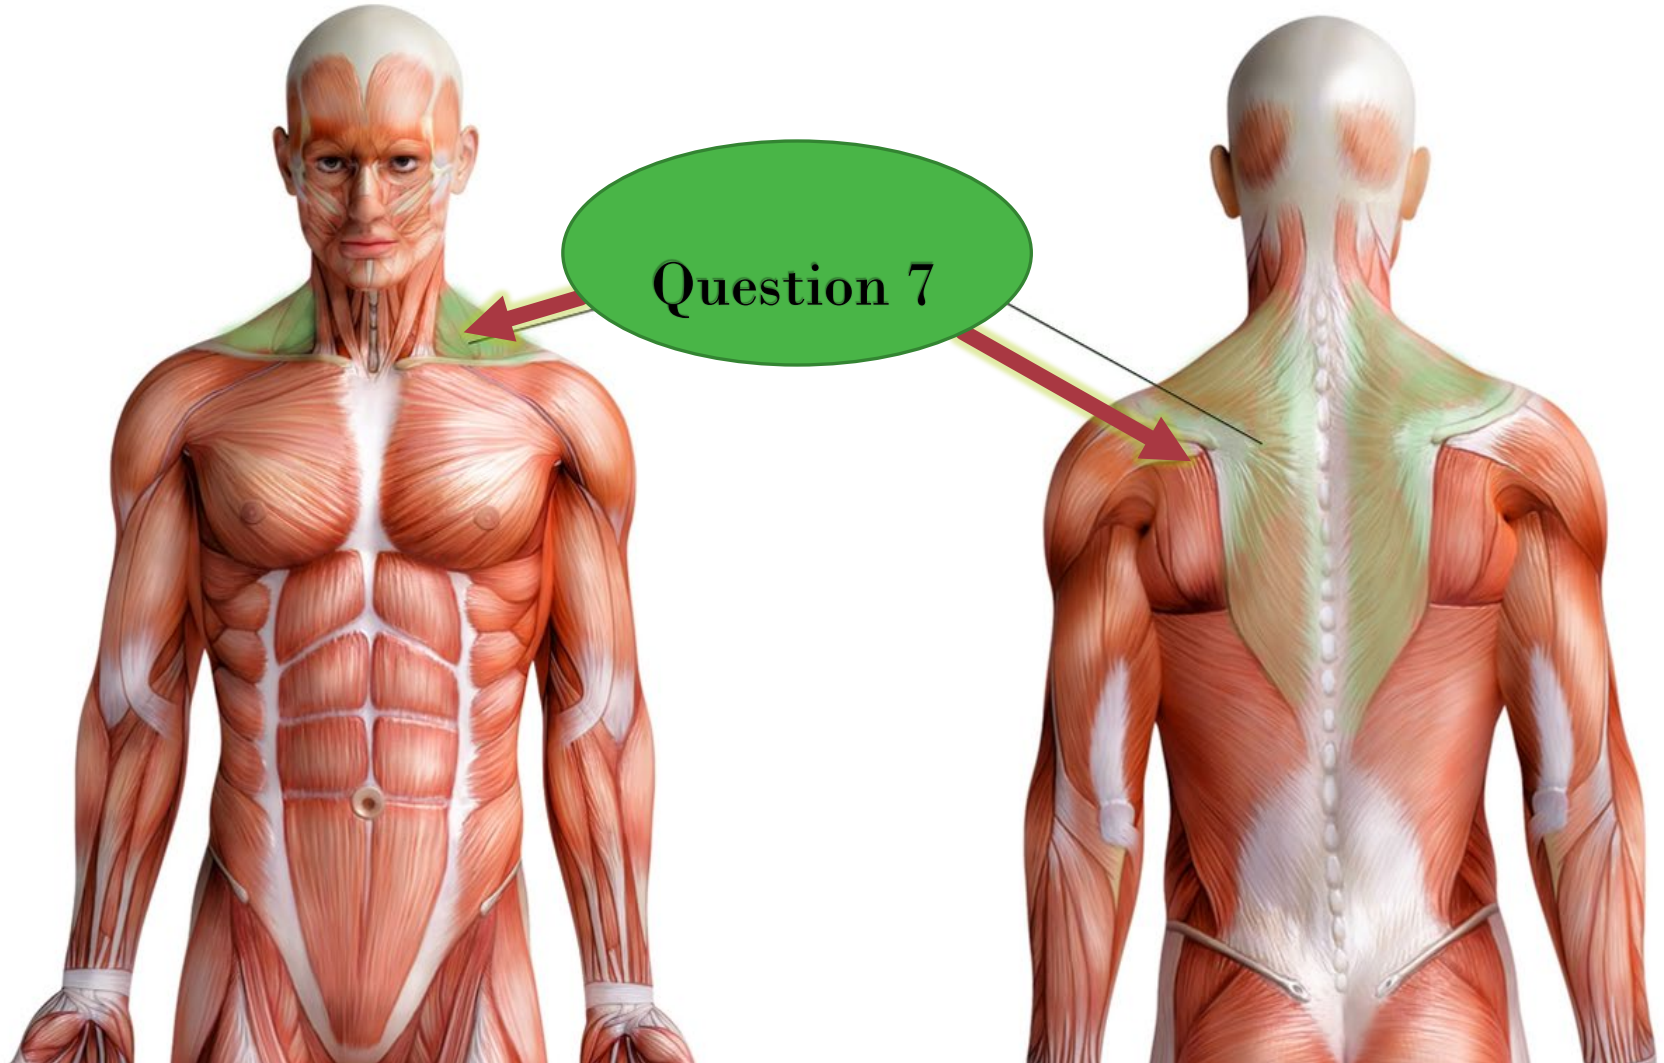

Trapezius

Sternocleidomastoid

Temporalis

Buccinator

Biceps brachii

What is the muscle?

Anterior tibialis

Fibularis longus

Biceps femoris

Sartorius

Vastus lateralis

Rectus femoris

Semimembranosus

Question

8

Question

9

Identify the muscle.

Deltoid

Trapezius

Latissimus dorsi

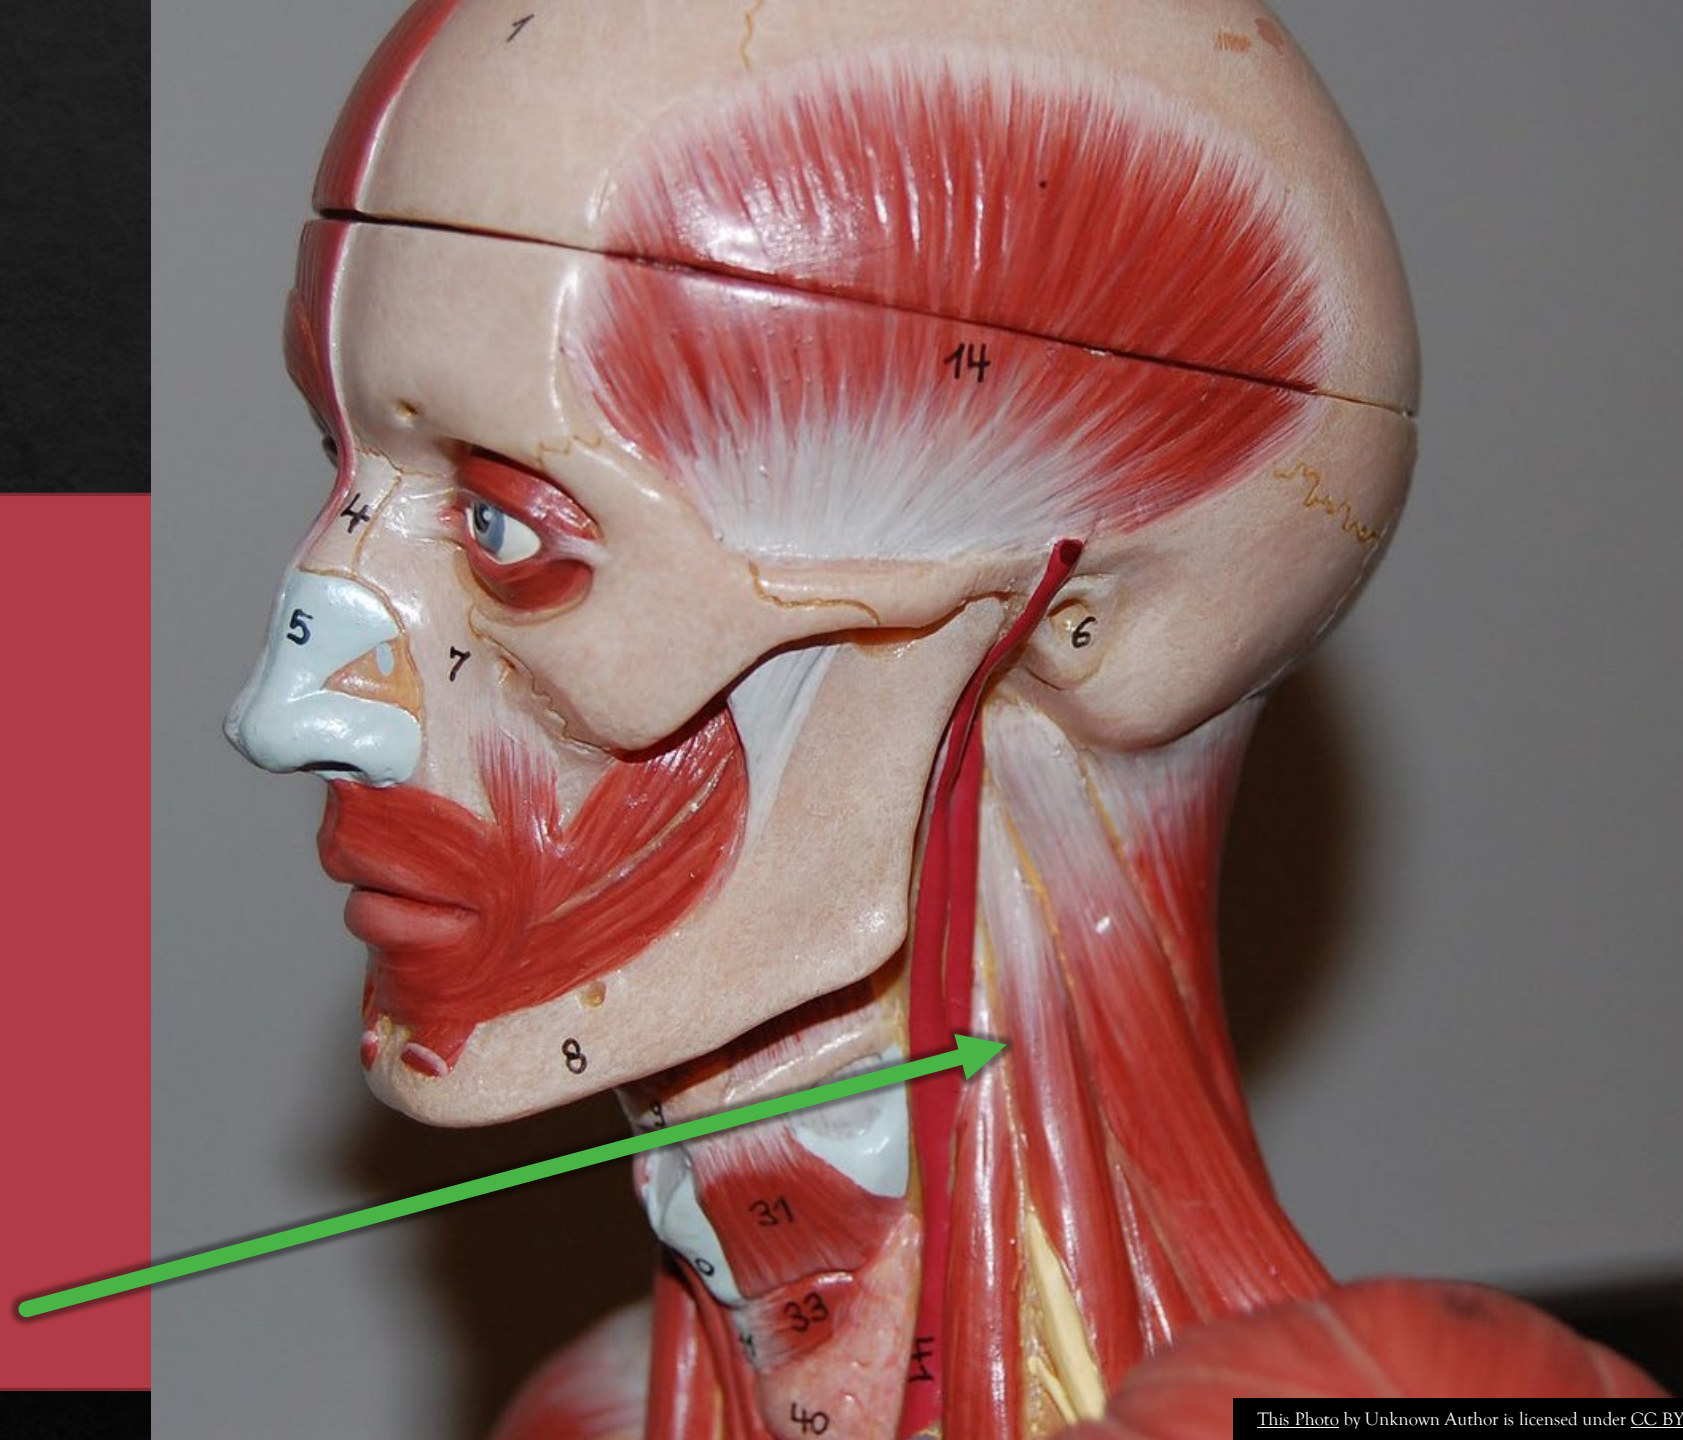

Sternocleidomastoid

Abdominus rectus

Pectoralis major

Pectoralis minor

Intercostal muscles

Identify the muscle.

Triceps brachii

Biceps brachii

Brachialis

Brachioradialis

Deltoid

Pronator teres

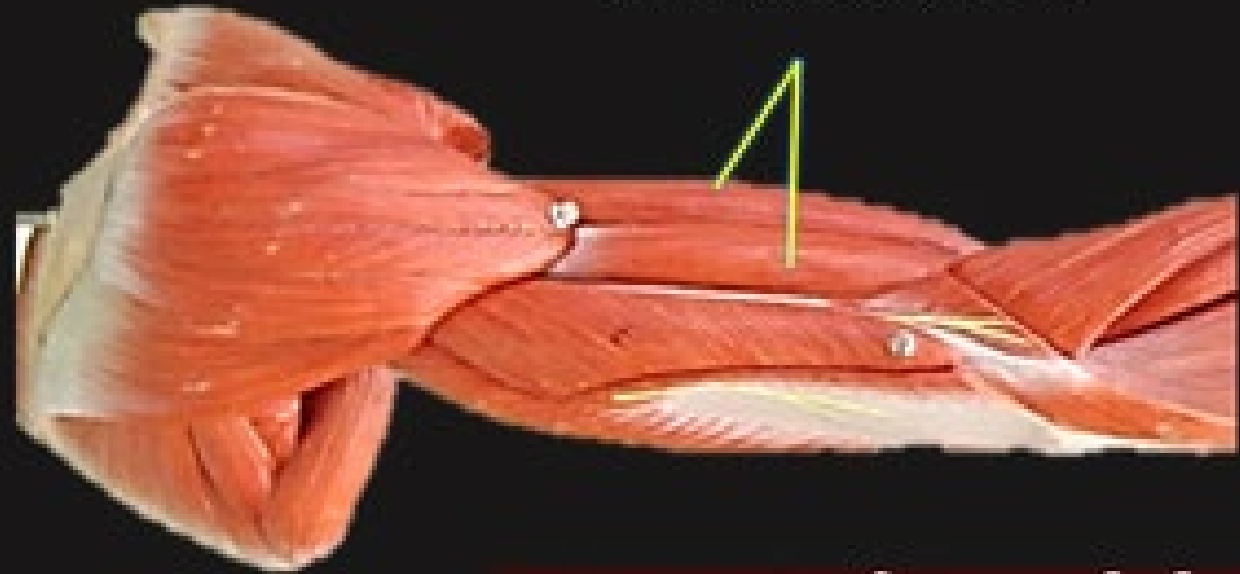

Teres major

Question

10

*Name the
Muscles.*

www.ScientistGindy.com

*Posterior View of the Upper
Arm Muscles*

Identify the muscle.

Sartorius

Gracilis

Soleus

Biceps femoris

Rectus femoris

Vastus medialis

Vastus lateralis

Question

11

Identify the muscle.

Transverse Abdominus

Trapezius

Latissimus dorsi

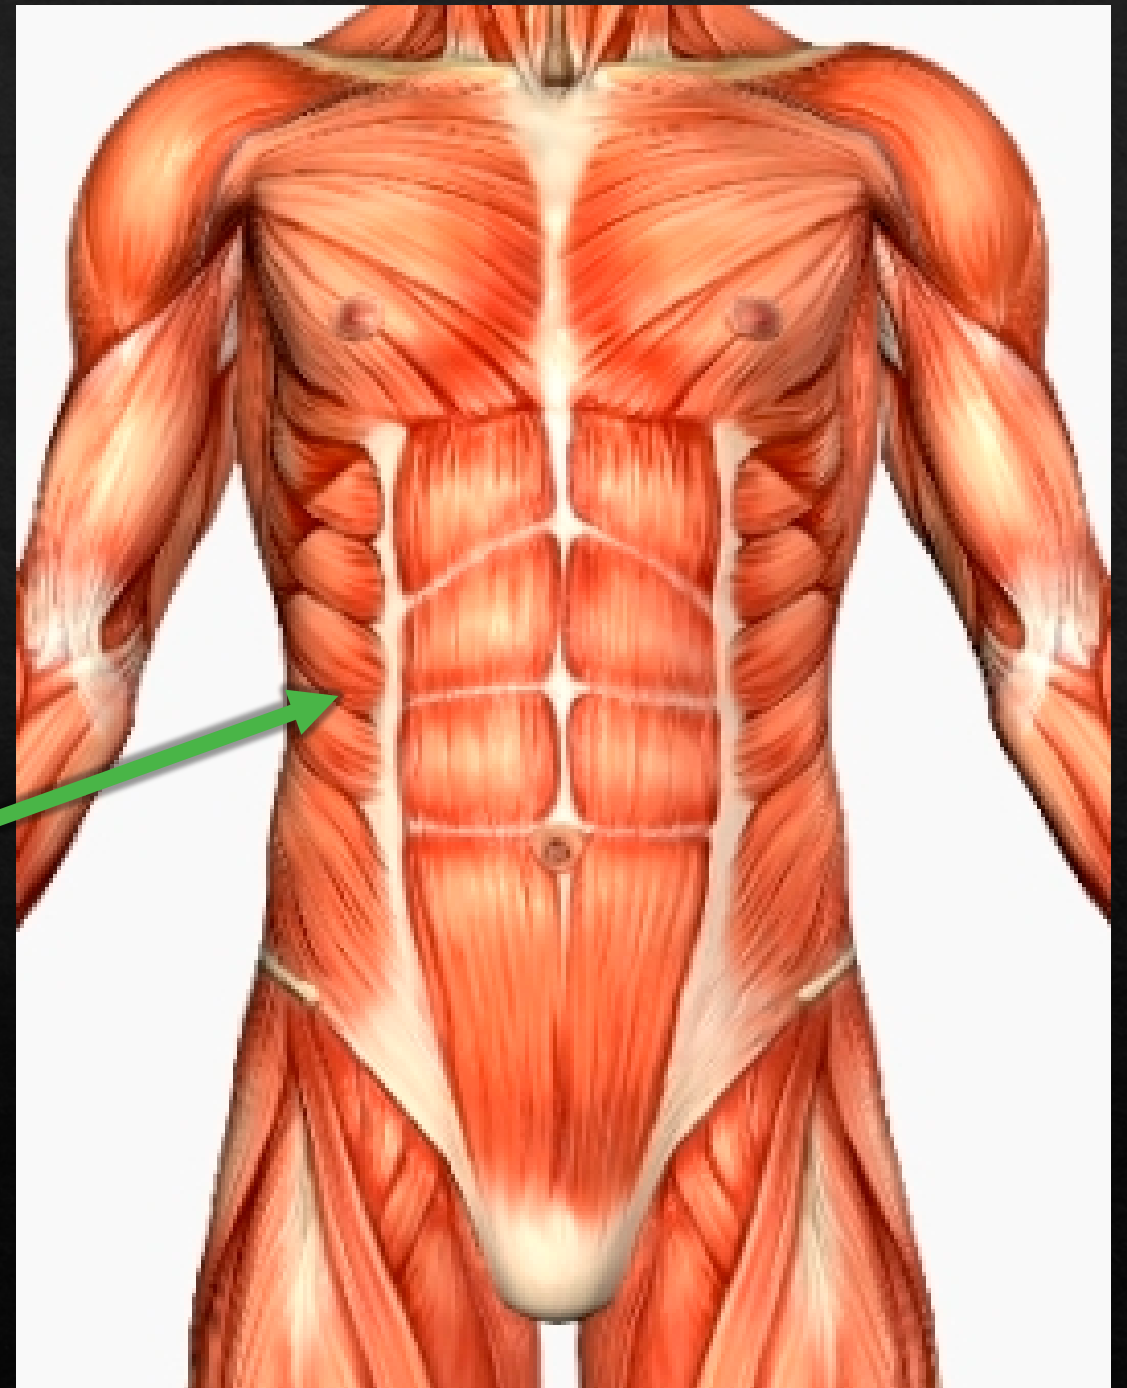

External abdominal obliques

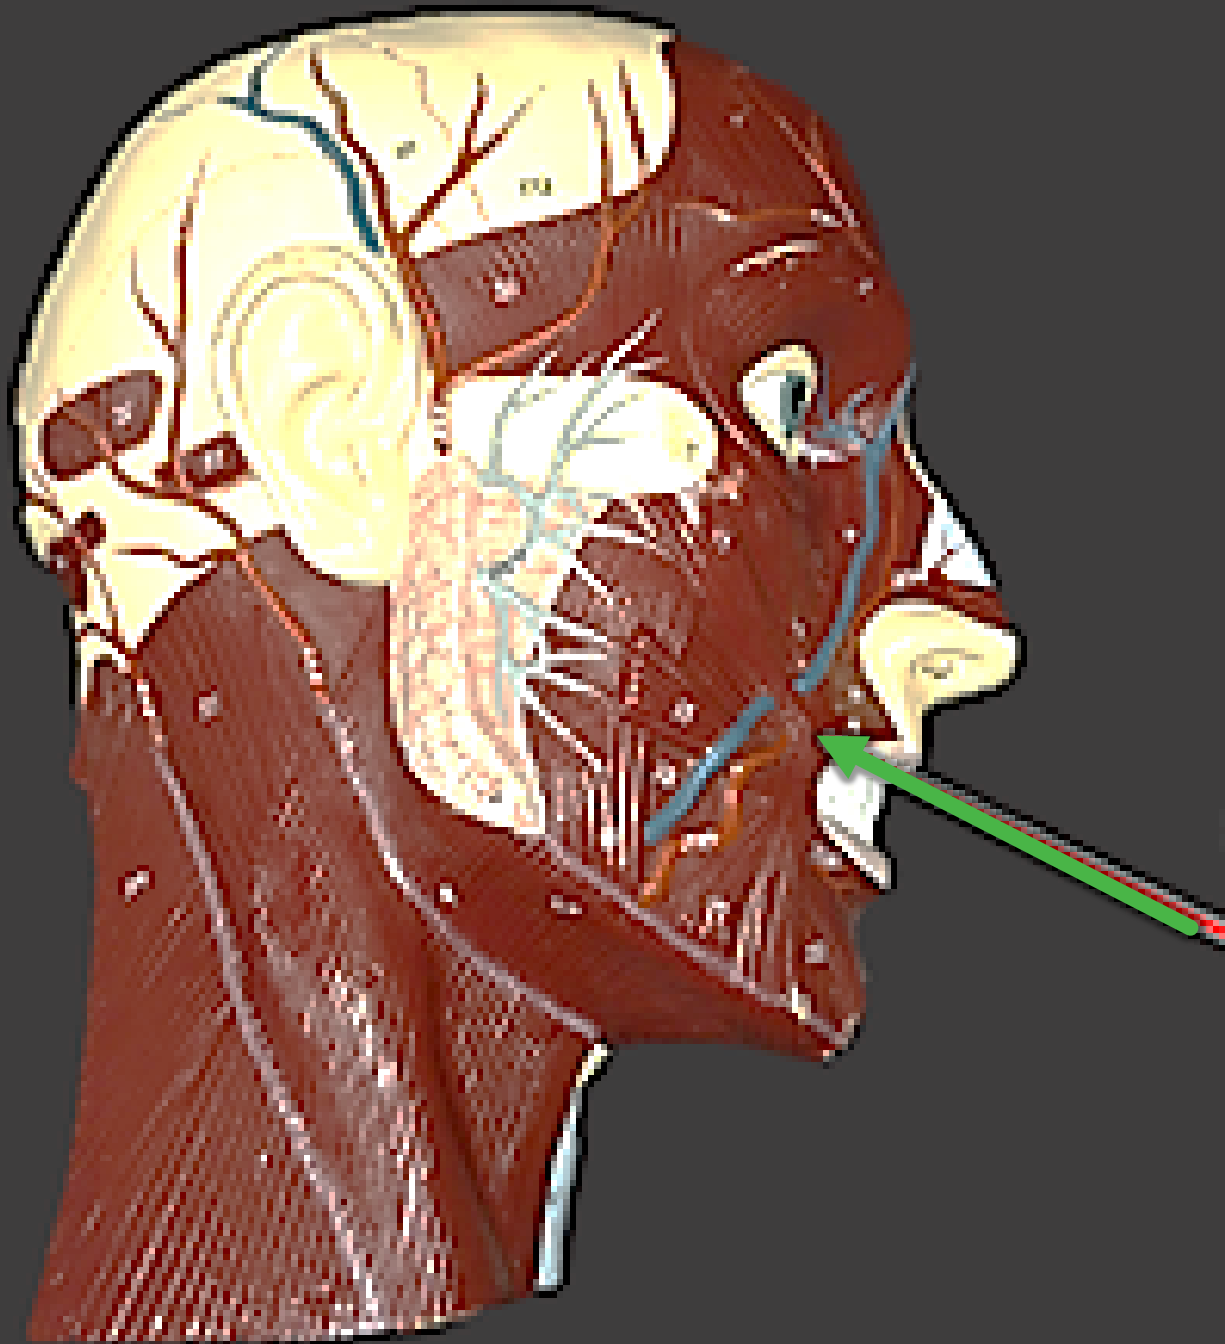

Abdominus rectus

Internal abdominal obliques

Question

12

Identify the
muscle.

Question

13

Temporalis
Buccinator
Orbicularis oris
Zygomaticus
Orbicularis oculi
Masseter

Identify the muscle.

Question

14

Triceps brachii

Biceps brachii

Brachialis

Brachioradialis

Deltoid

Pronator teres

Teres major

*Name the
Muscle.*

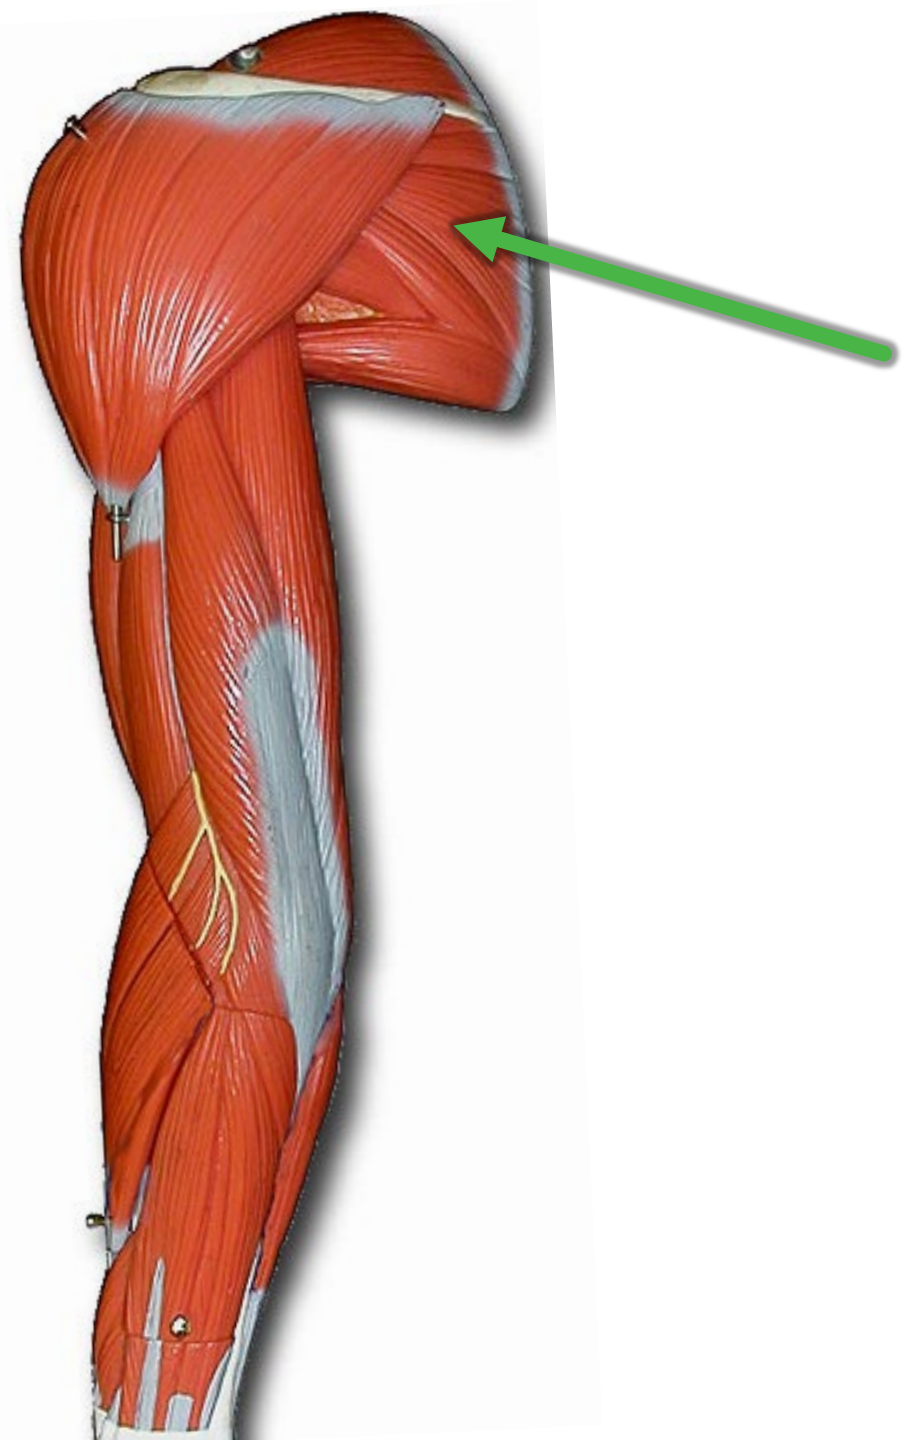

ANTERIOR ARM MUSCLES

◆ Identify the
MUSCLE.

- ◆ Teres major
- ◆ Teres minor
- ◆ Infraspinatus
- ◆ Supraspinatus
- ◆ Deltoid
- ◆ Trapezius
- ◆ Subscapularis

Question 15

What is the muscle?

Deltoid

Trapezius

Latissimus dorsi

Sternocleidomastoid

Abdominus rectus

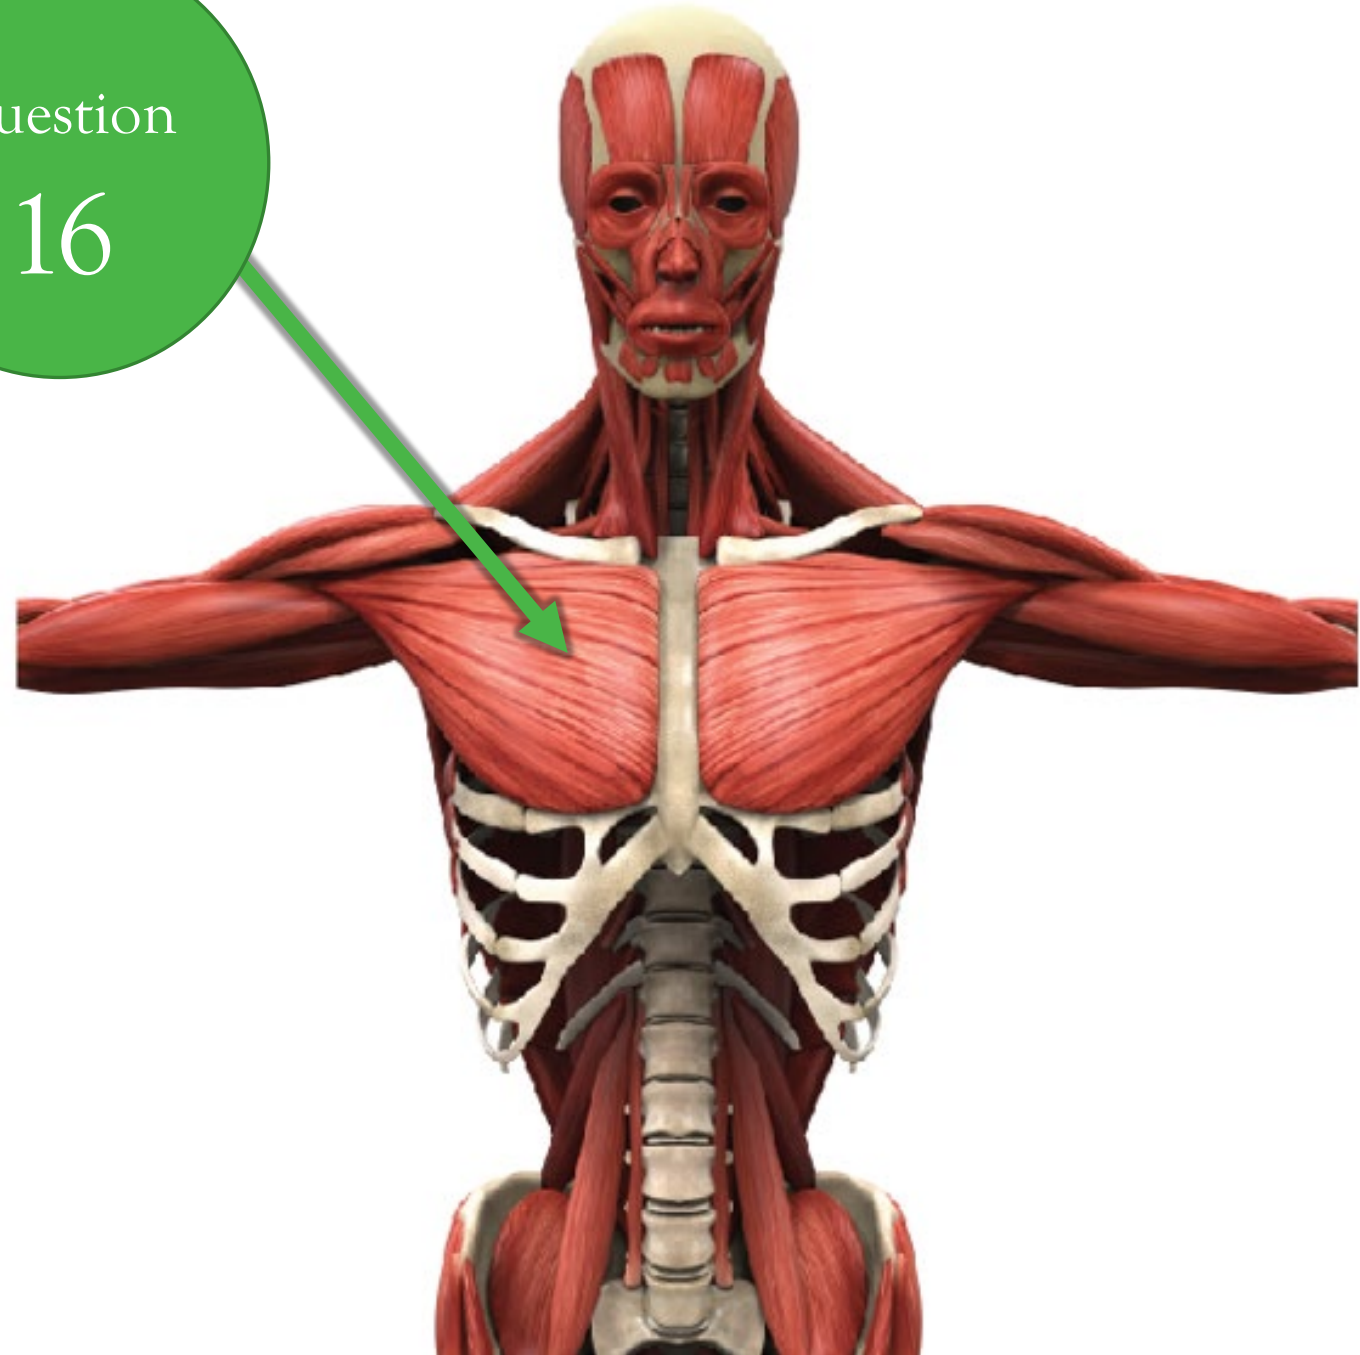

Pectoralis major

Pectoralis minor

Intercostal muscles

Question

16

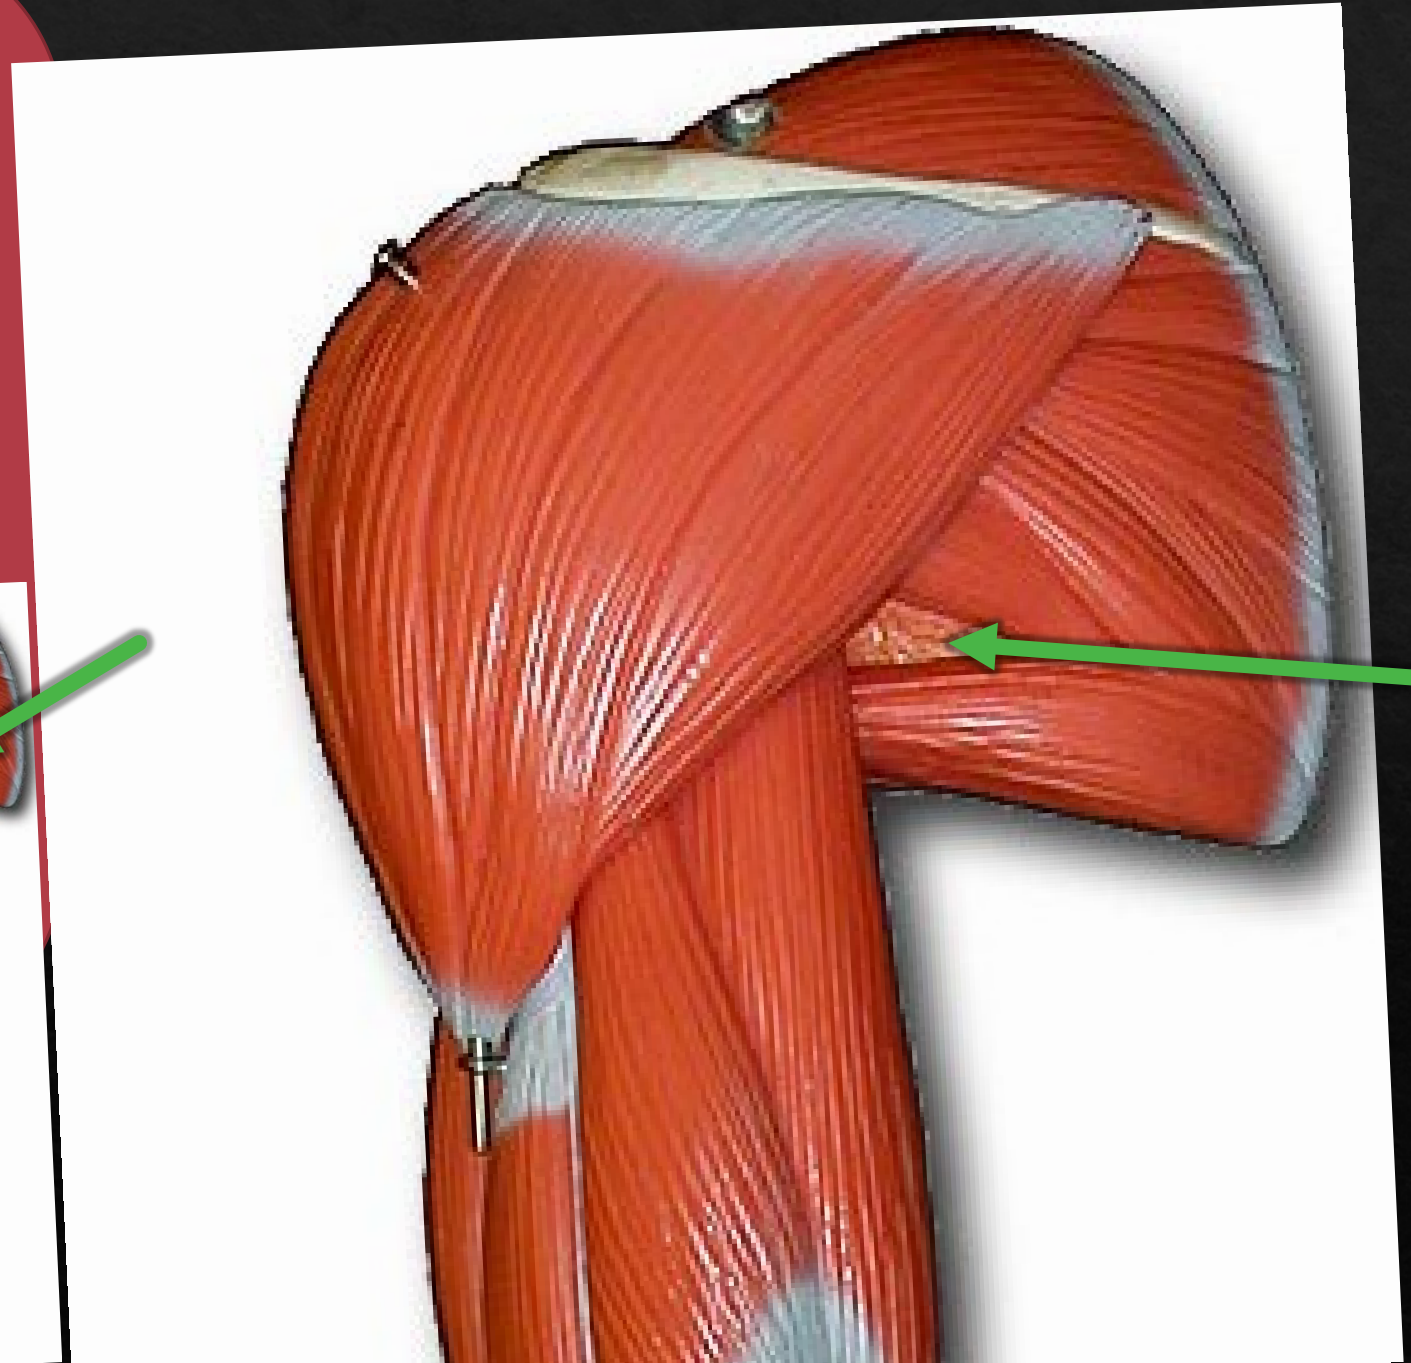

What is the muscle?

- Infraspinatus
- Subscapularis
- Supraspinatus
- Teres major
- Teres minor
- Pronator teres

Question

17

Identify the muscle.

Orbicularis oculi

Masseter

Orbicularis oris

Zygomaticus

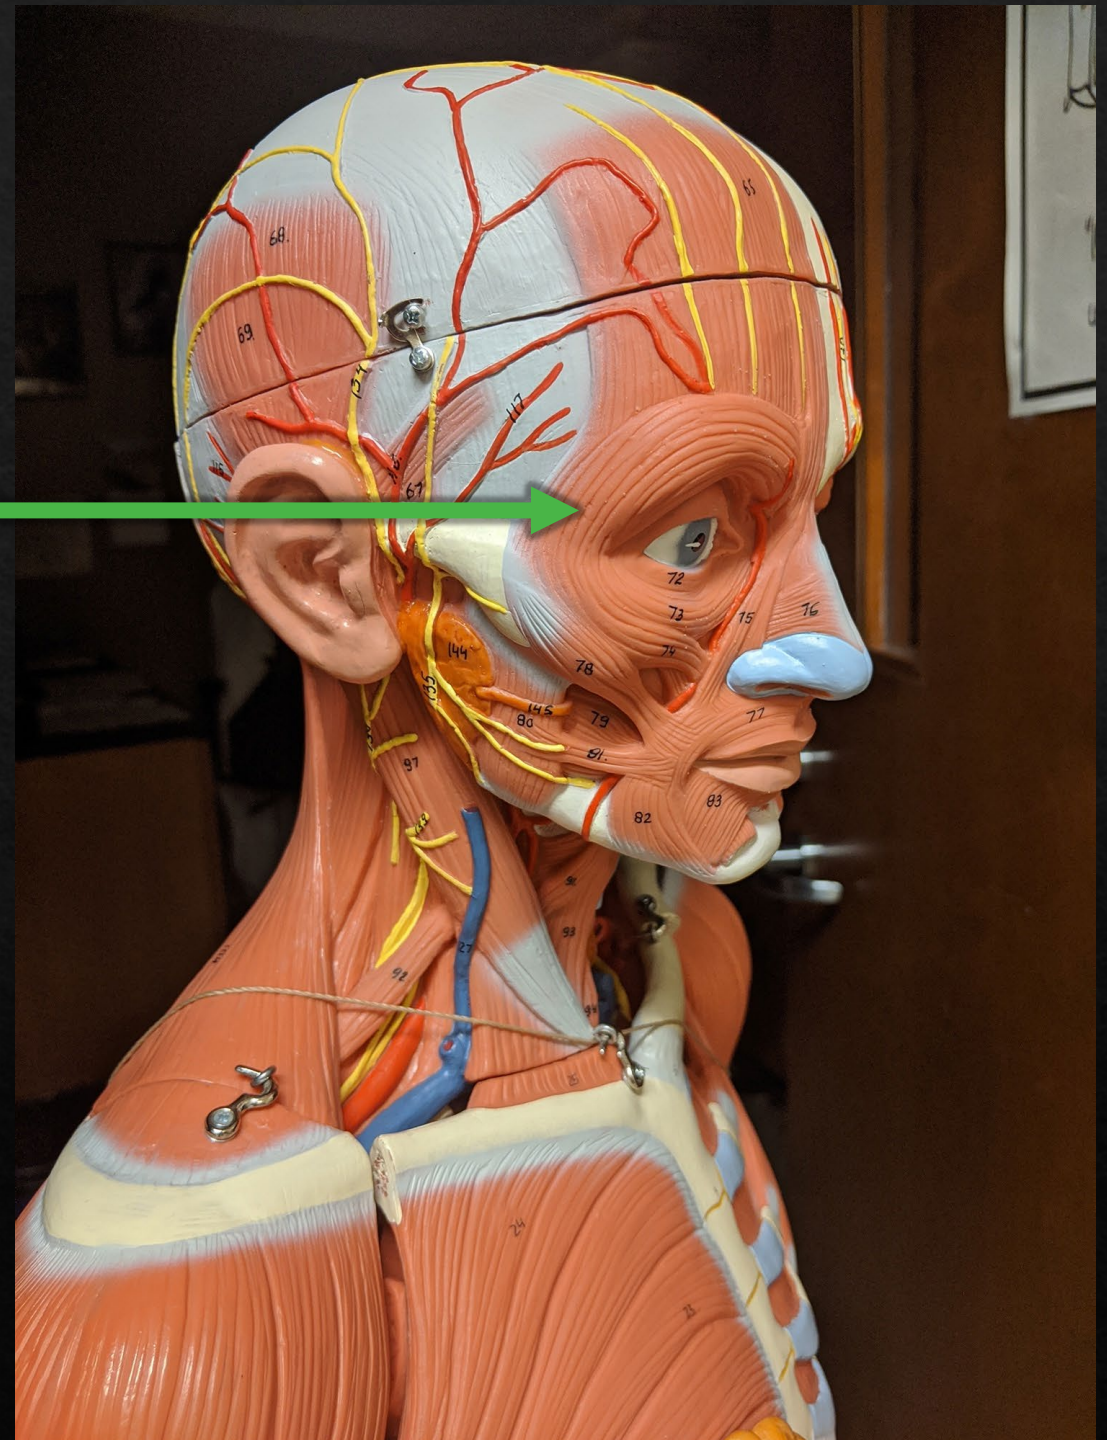

Temporalis

Buccinator

Sternocleidomastoid

Question

18

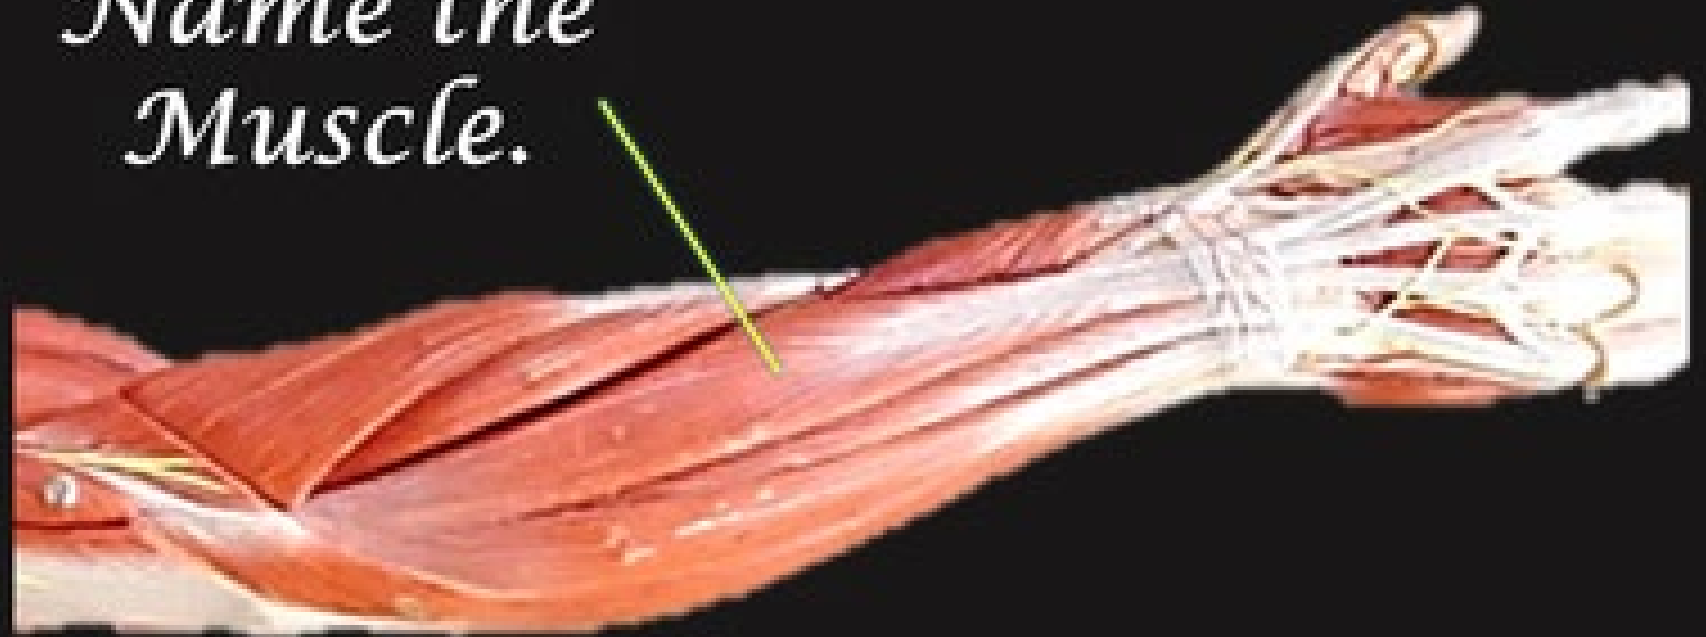

Identify the muscle.

- Extensor digitorum
- Flexor digitorum superficialis
- Pronator teres
- Extensor carpi ulnaris
- Flexor carpi ulnaris

Question

19

Name the Muscle.

www.ScientistGindy.com

POSTERIOR VIEW OF THE LOWER ARM MUSCLES

What is this Muscle?

Question

20

Identify the muscle.

Fibularis longus

Biceps femoris

Gastrocnemius

Gracilis

Sartorius

Semitendinosus

Vastus medialis

or View of Leg

www.ScientistCindy.com

What is this muscle?

Pronator teres
Brachioradialis
Subscapularis
Triceps brachii
Biceps brachii
Deltoid

Question

21

Question

22

*Lateral
Upper Leg*

*Name the
Muscle.*

Identify the muscle.

Fibularis longus

Biceps femoris

Gastrocnemius

Gracilis

Sartorius

Semitendinosus

Vastus medialis

www.kicpofbody.com

Identify the muscle.

Gluteus medius

Biceps femoris

Rectus femoris

Gracilis

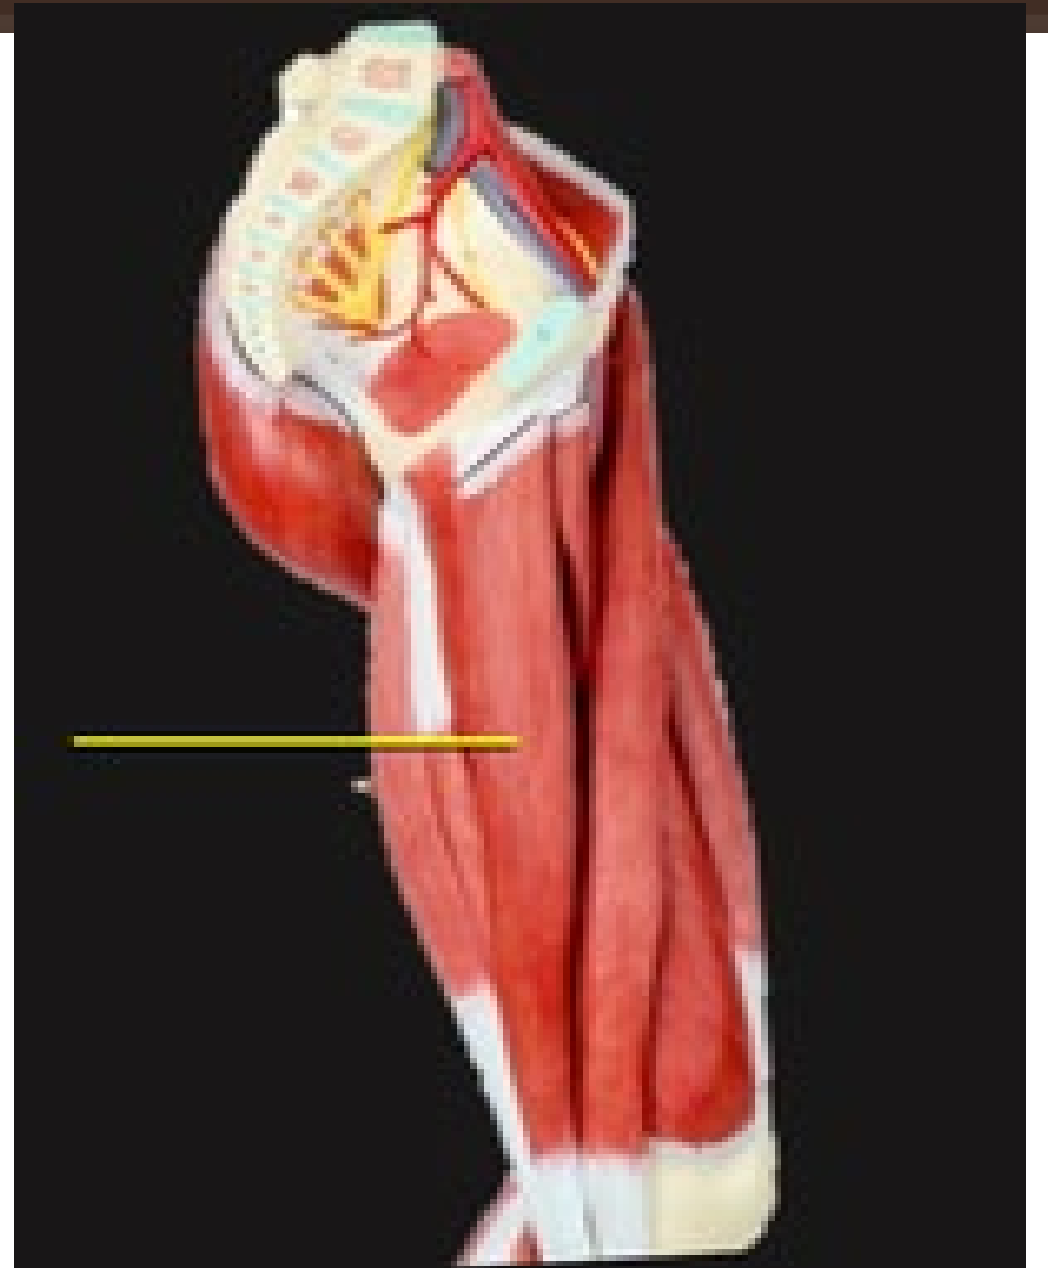

Sartorius

Semitendinosus

Vastus medialis

Question

23

*Medial Upper
Leg*

Identify the muscle.

Gluteus medius

Biceps femoris

Rectus femoris

Gracilis

Sartorius

Semitendinosus

Vastus medialis

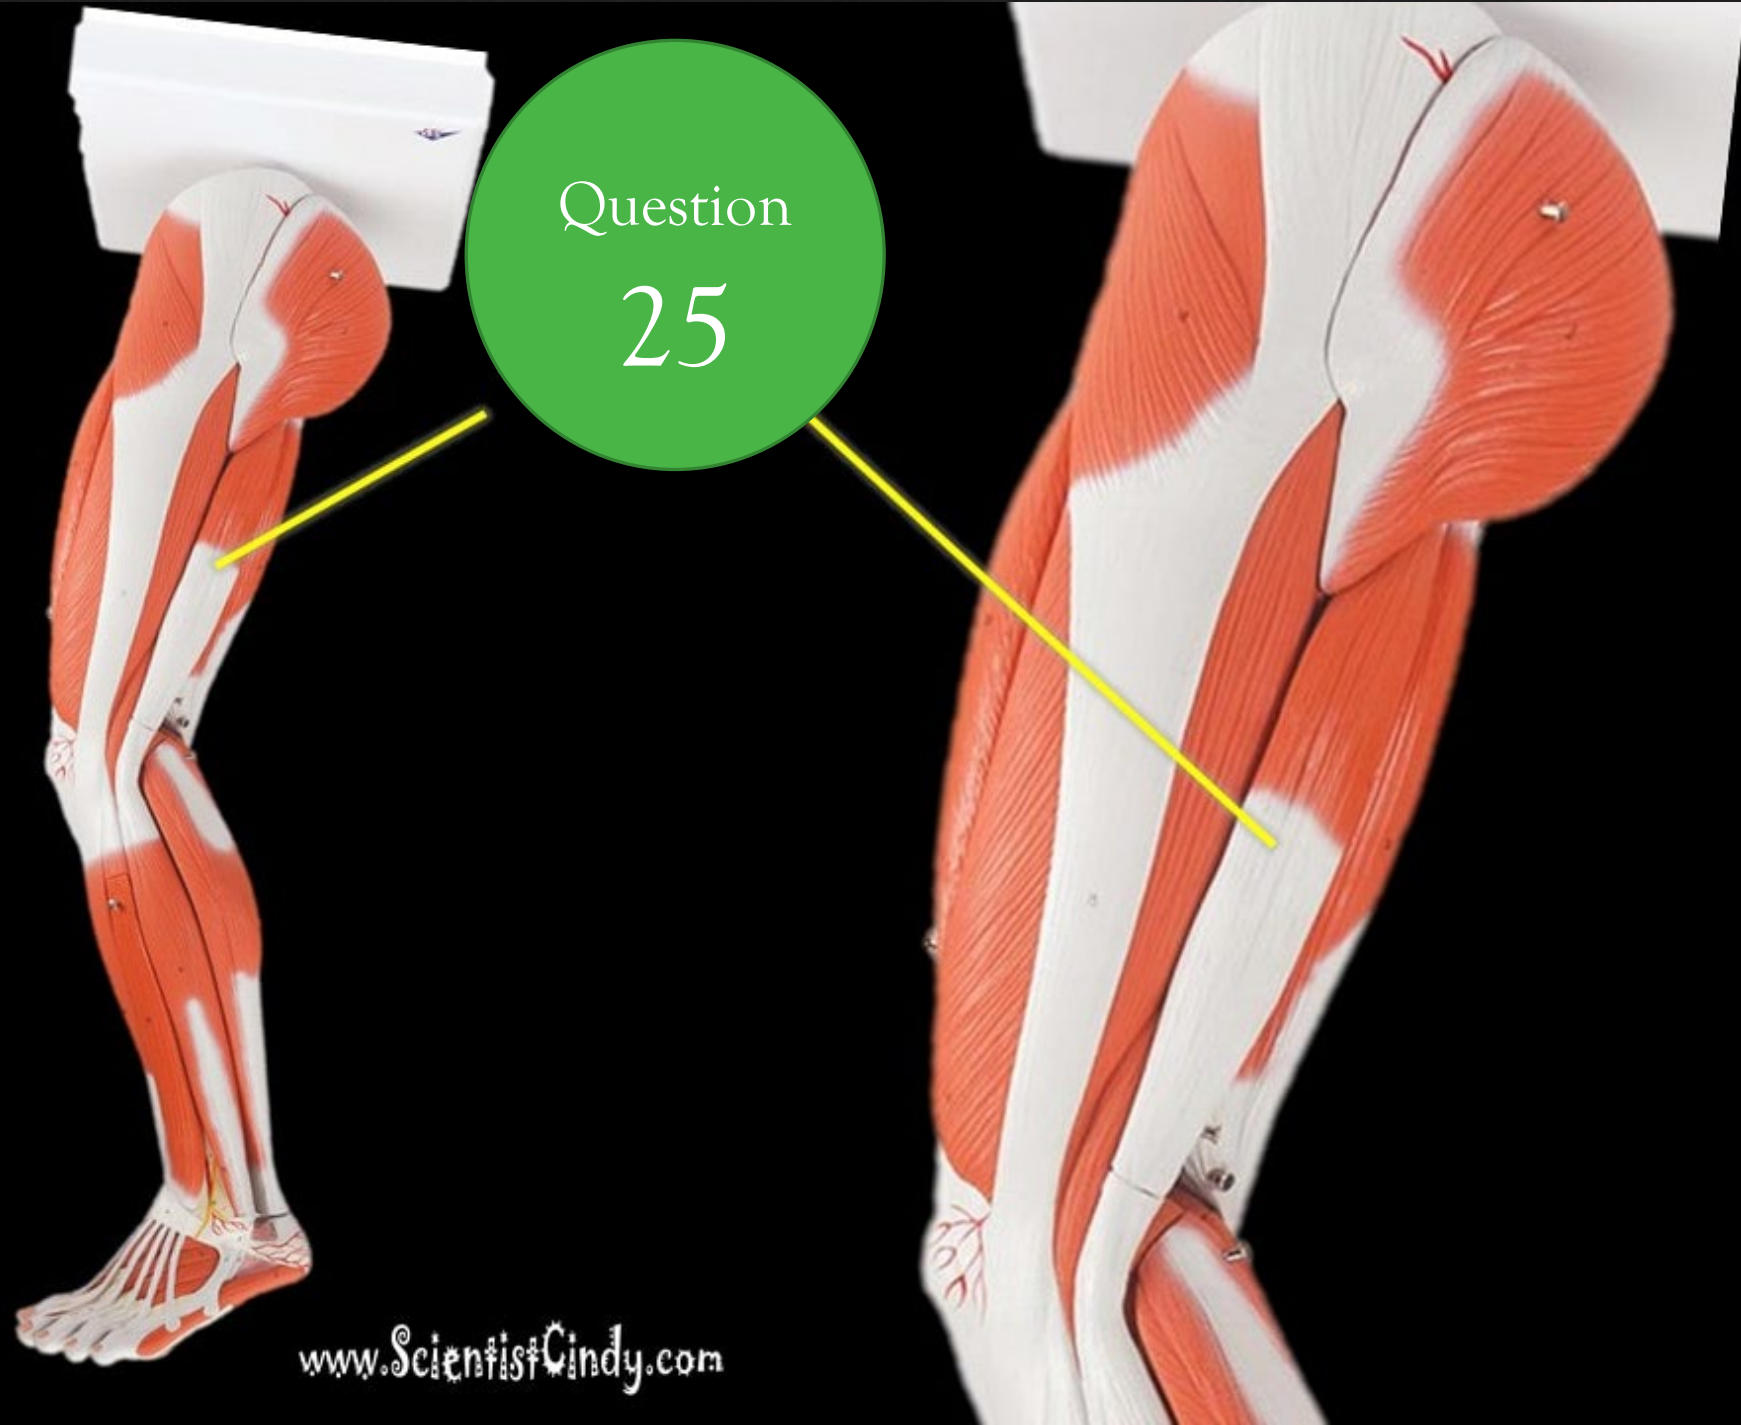

Question

24

Identify the
muscle.

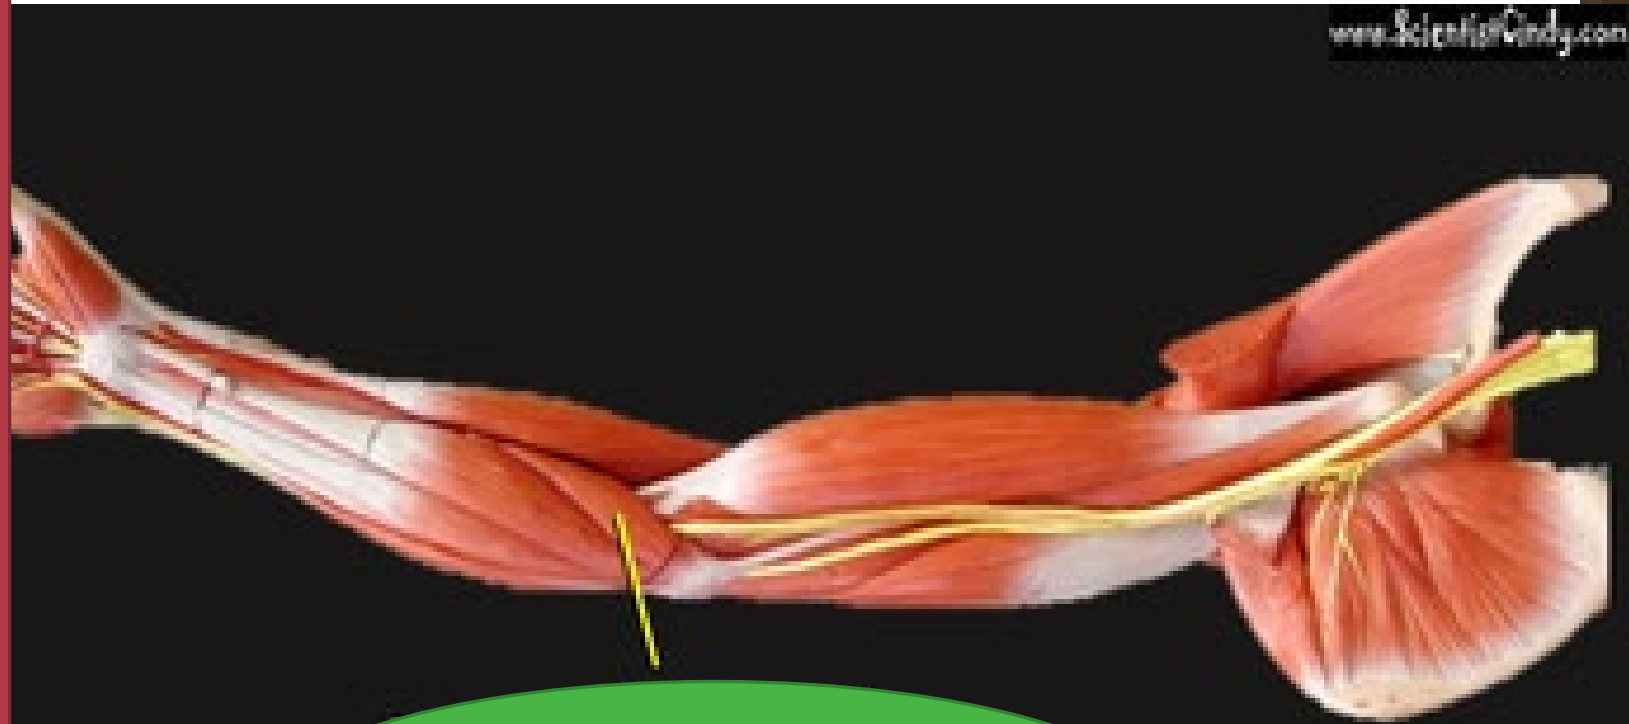

Gluteus medius
Biceps femoris
Rectus femoris
Gracilis
Sartorius
Semitendinosus
Vastus medialis

Question
25

Identify the muscle.

- Extensor digitorum
- Flexor digitorum superficialis
- Pronator teres
- Extensor carpi ulnaris
- Flexor carpi ulnaris

Question 26

ANTERIOR ARM MUSCLES

Identify the muscle.

- Extensor digitorum
- Flexor digitorum superficialis
- Pronator teres
- Extensor carpi ulnaris
- Flexor carpi ulnaris

ANTERIOR LOWER ARM

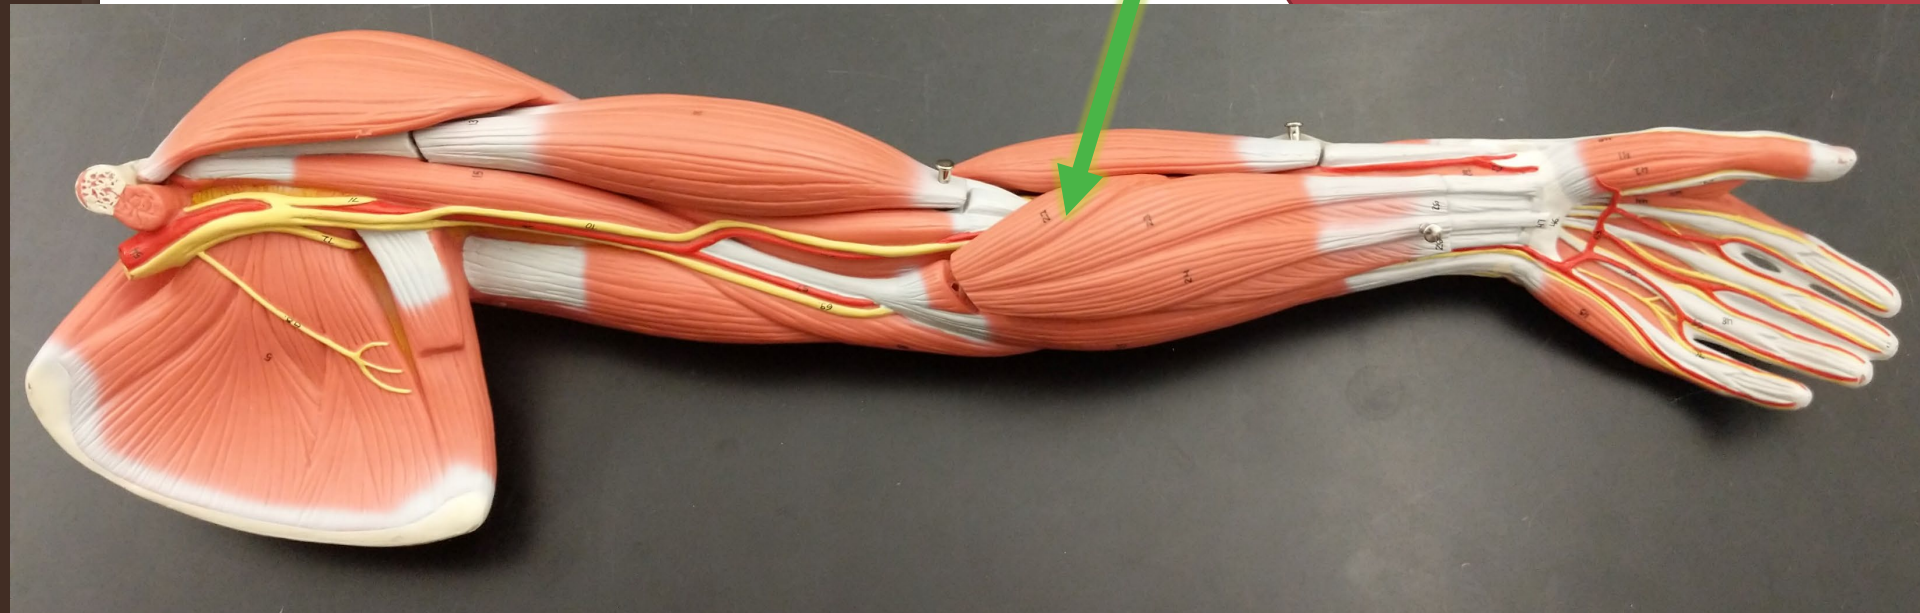

Question 27

Question 28

Identify the muscle.

- Extensor digitorum
- Flexor digitorum superficialis
- Pronator teres
- Extensor carpi ulnaris
- Flexor carpi ulnaris

Identify the muscle.

Temporalis

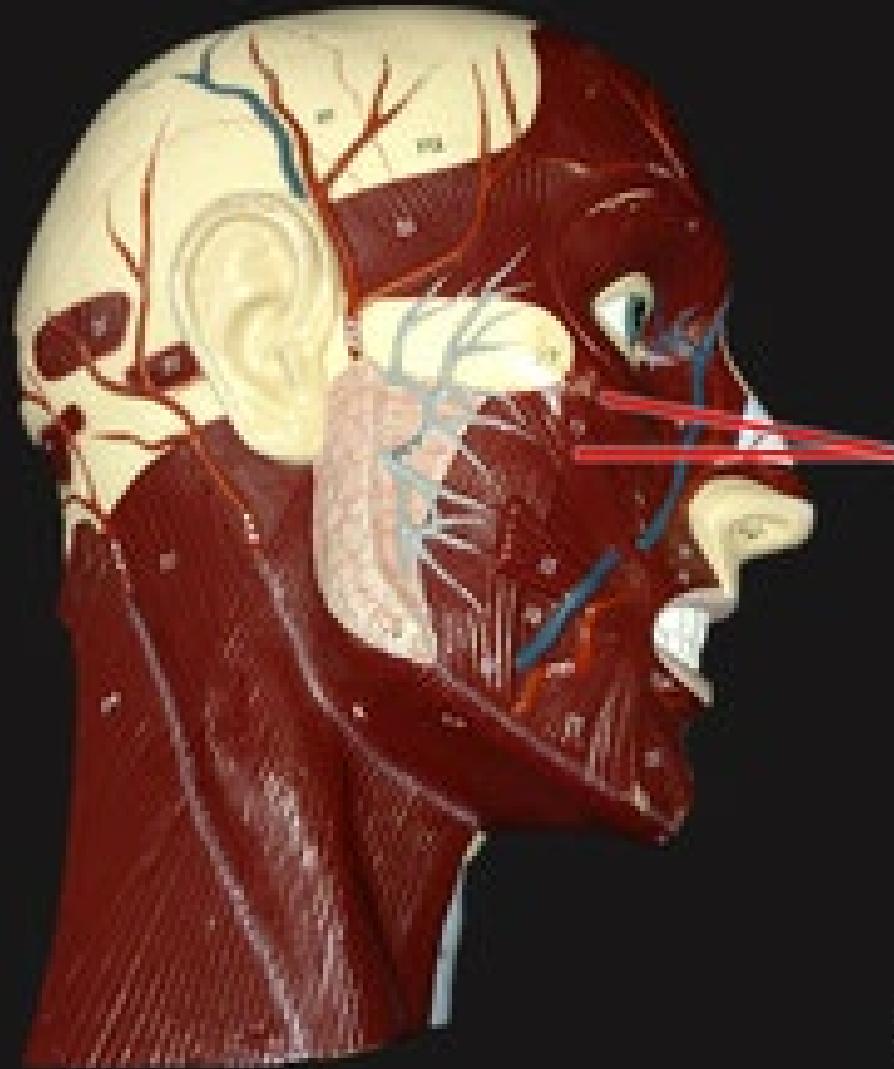

Zygomaticus

Buccinator

Orbicularis oculi

Orbicularis oris

Masseter

Question

29

Identify the muscle.

Extensor digitorum

Flexor digitorum superficialis

Pronator teres

Extensor carpi ulnaris

Flexor carpi ulnaris

Question

30

Question

31

Identify the muscle.

Pronator teres

Brachioradialis

Subscapularis

Triceps brachii

Deltoid

Trapezius

Identify the muscle.

Semitendinosus

Biceps femoris

Rectus femoris

Vastus intermedius

Vastus lateralis

Vastus medialis

Question

32

Identify the muscle.

Vastus Lateralis

Gluteus maximus

Gluteus medius

Semitendinosus

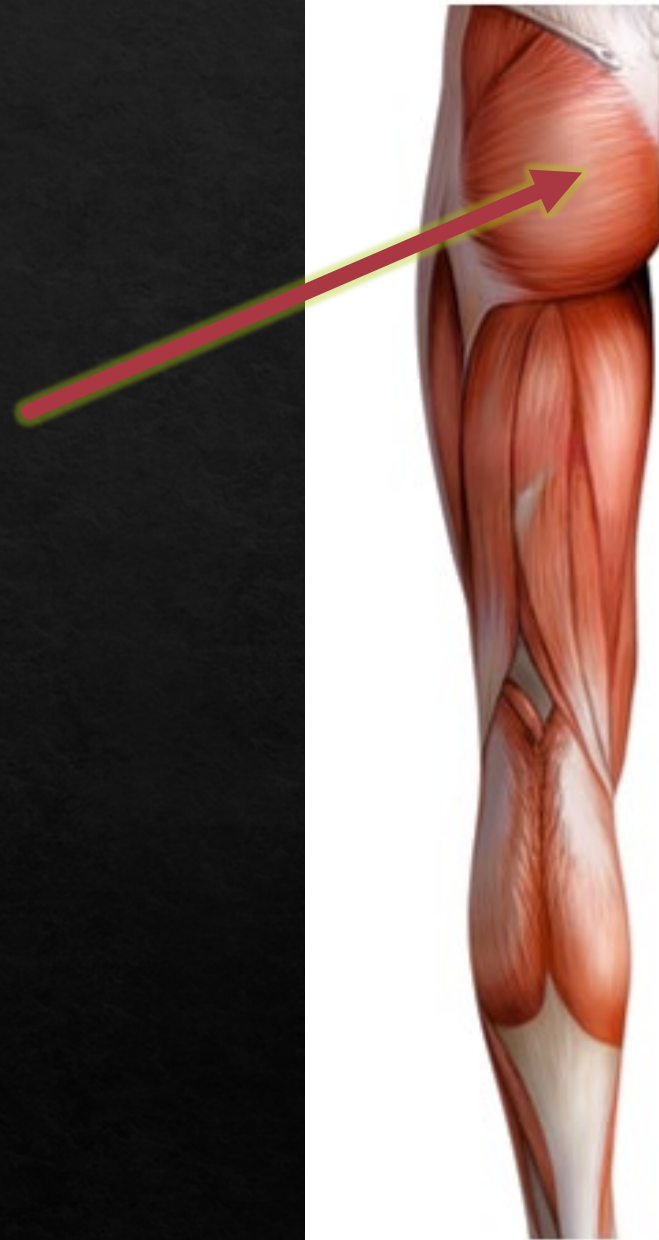

Semimembranosus

Rectus femoris

Biceps femoris

Question

33

Identify the muscle.

Sartorius

Gracilis

Soleus

Fibularis longus

Vastus Lateralis

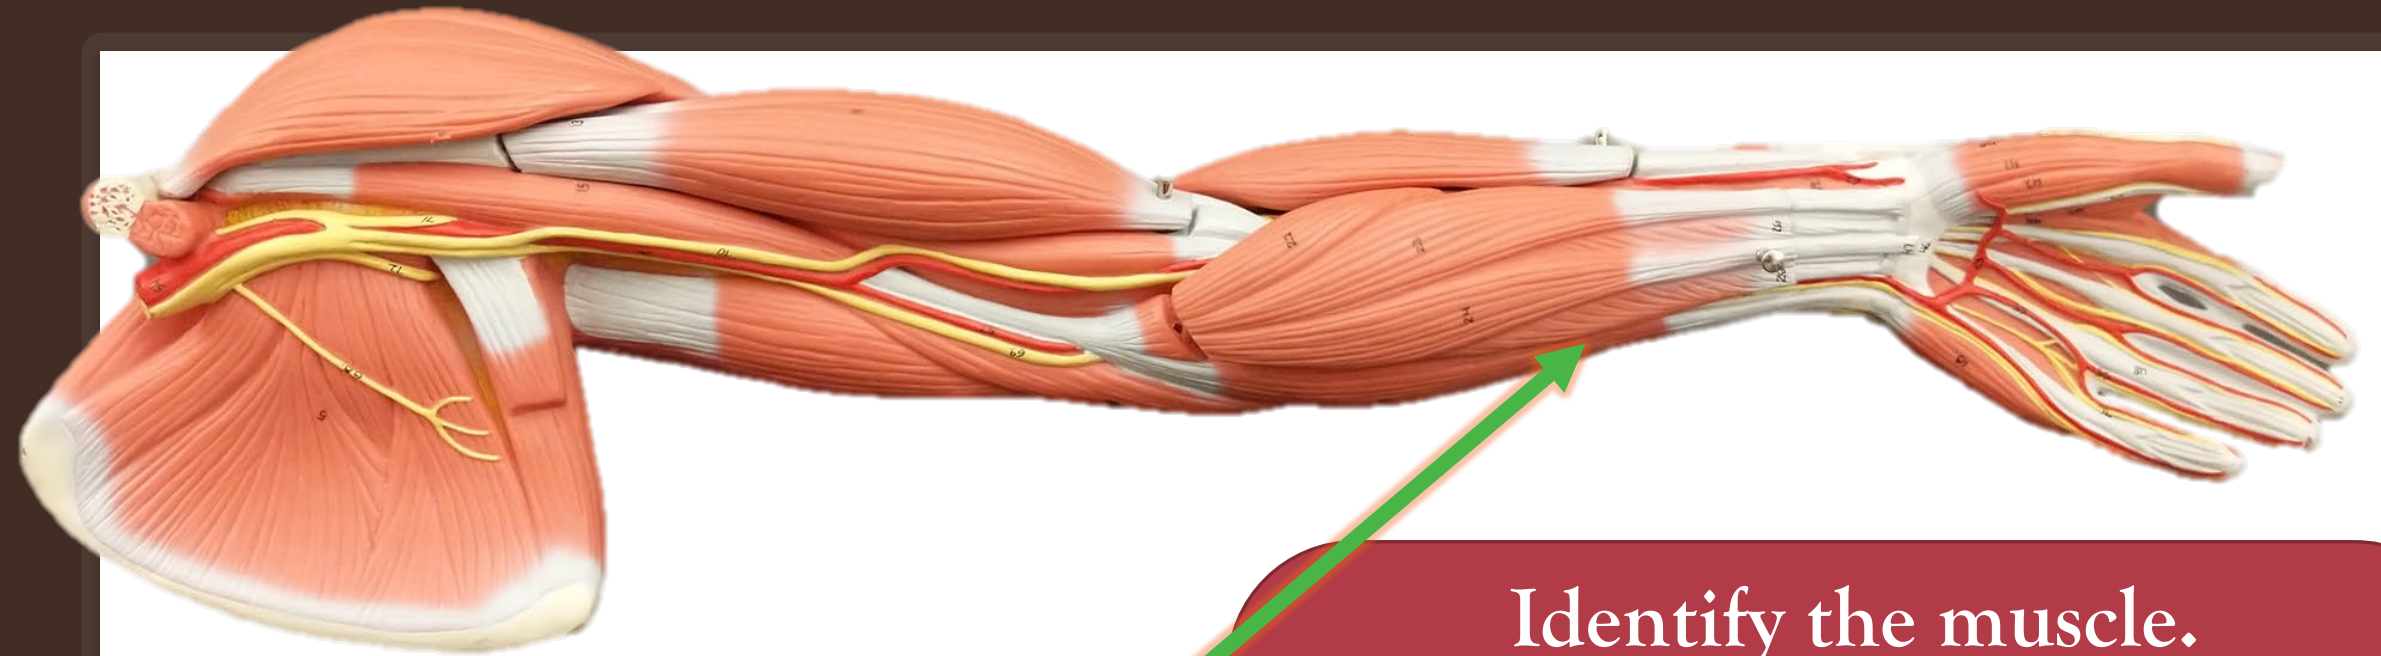

Vastus Medialis

Semitendinosus

Question

34

Question

35

Identify the muscle.

- Extensor digitorum
- Flexor digitorum superficialis
- Pronator teres
- Extensor carpi ulnaris
- Flexor carpi ulnaris

Identify the muscle.

Vastus Lateralis

Vastus intermedius

Vastus Medialis

Semitendinosus

Semimembranosus

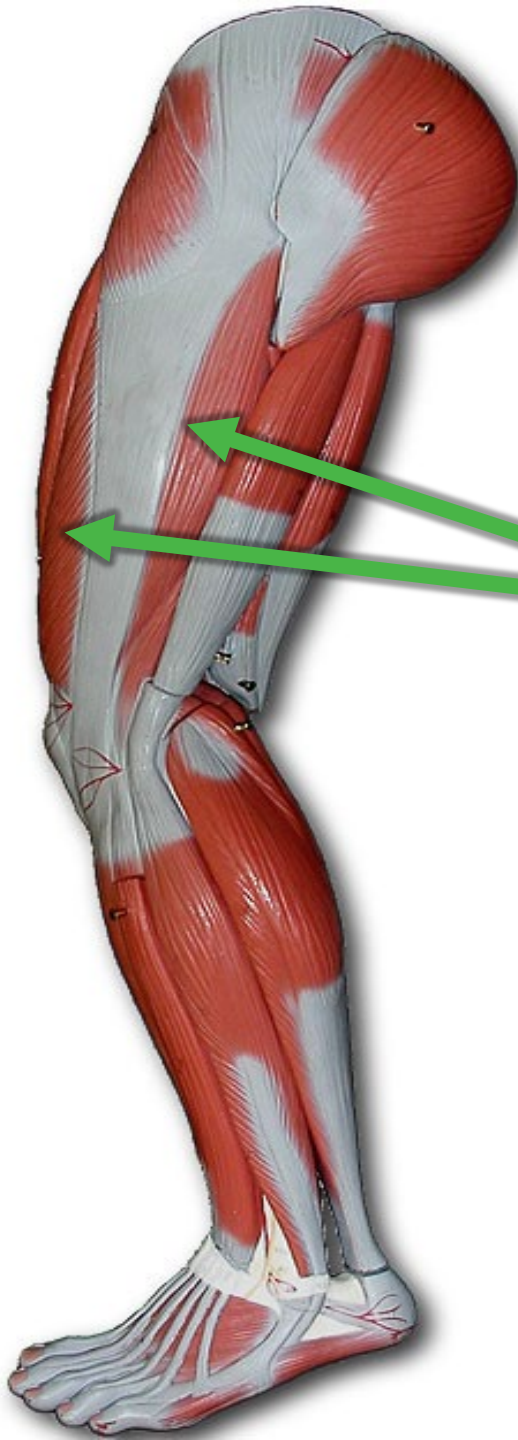

Rectus femoris

Biceps femoris

Question

36

Question

37

Identify the muscle.

Vastus Lateralis

Vastus intermedius

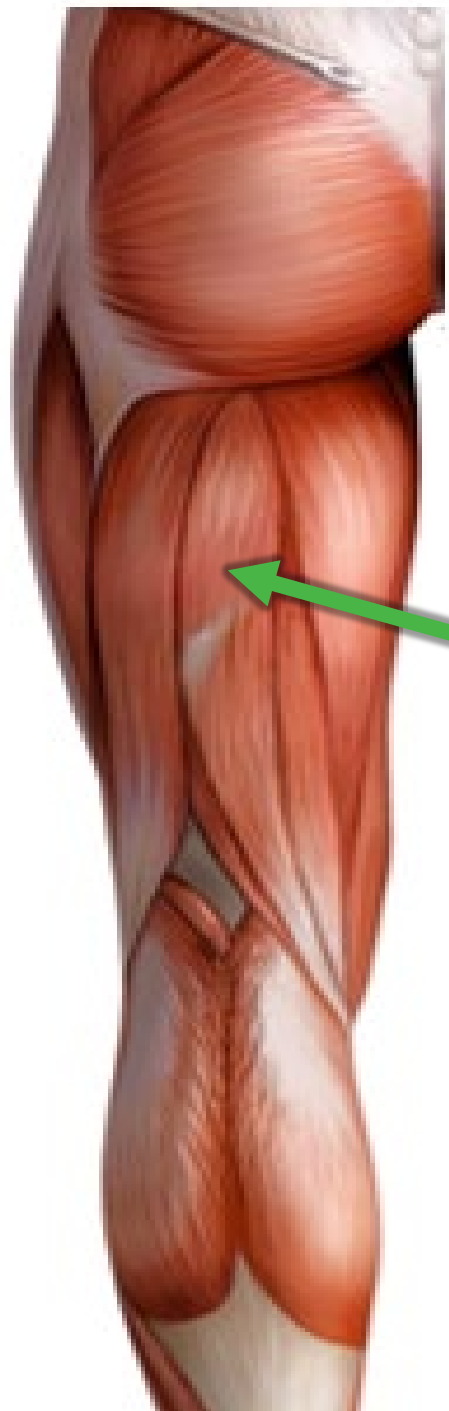

Vastus Medialis

Semitendinosus

Semimembranosus

Rectus femoris

Biceps femoris

Question

38

Identify the muscle.

Vastus Lateralis

Vastus intermedius

Vastus Medialis

Semitendinosus

Semimembranosus

Rectus femoris

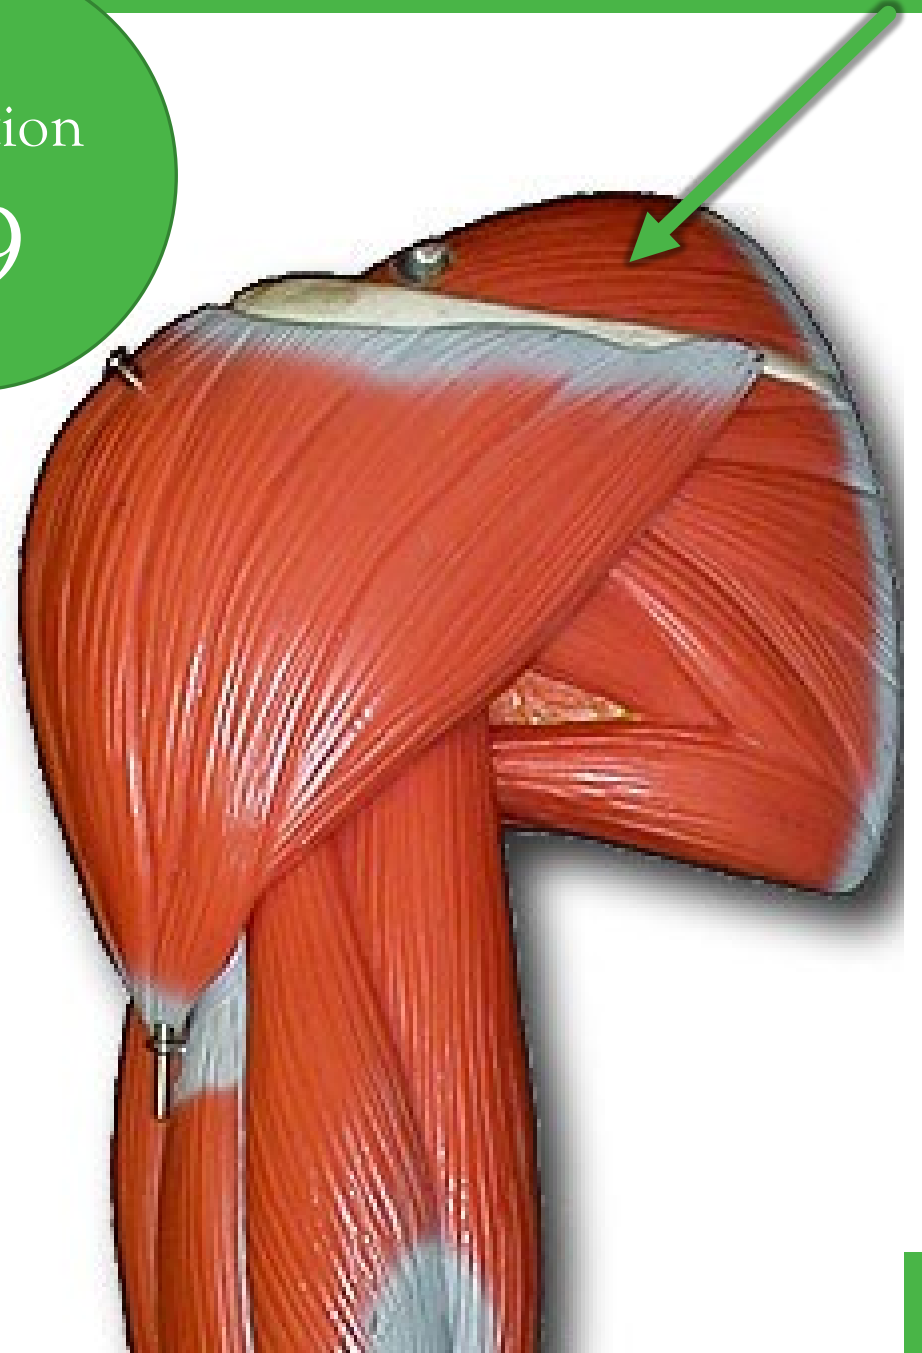

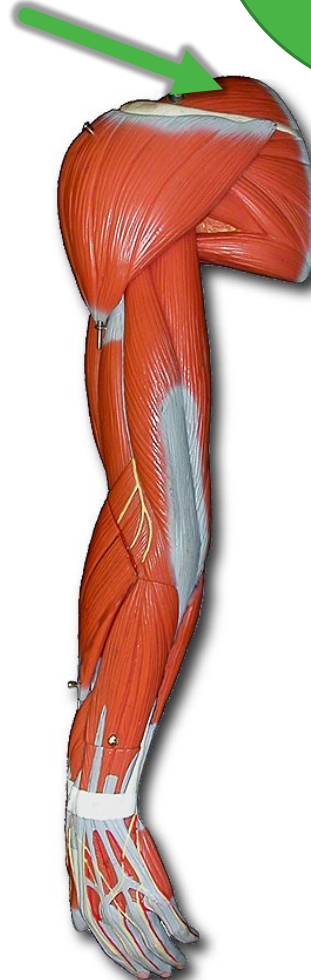

Biceps femoris

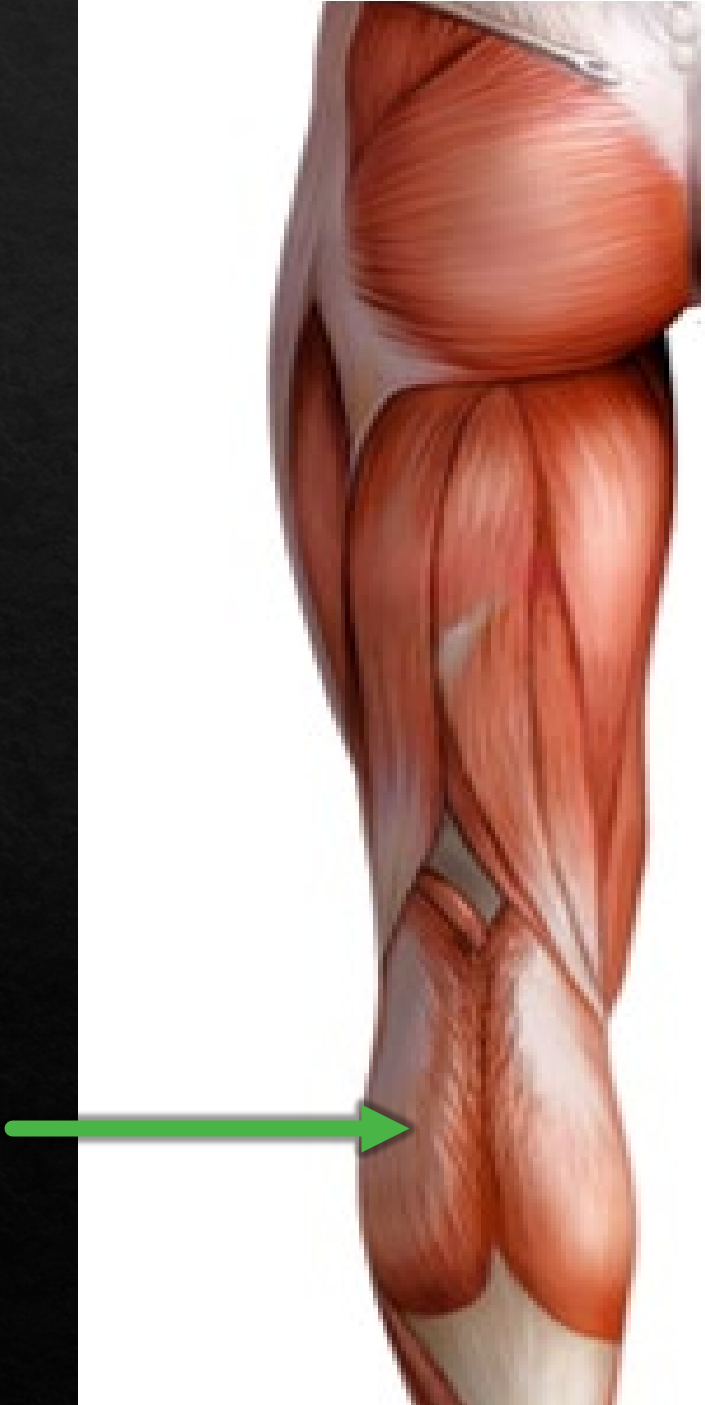

Identify the muscle.

- Pronator teres
- Infraspinatus
- Subscapularis
- Supraspinatus
- Trapezius
- Deltoid
- Trapezius

Question

39

Identify the muscle.

Vastus Lateralis

Vastus intermedius

Vastus Medialis

Semitendinosus

Semimembranosus

Gastrocnemius

Biceps femoris

Question

40

Question

41

Identify the muscle.

Pronator teres
Brachioradialis
Subscapularis
Triceps brachii
Biceps brachii
Deltoid
Trapezius

Identify the muscle.

Trapezius

Latissimus dorsi

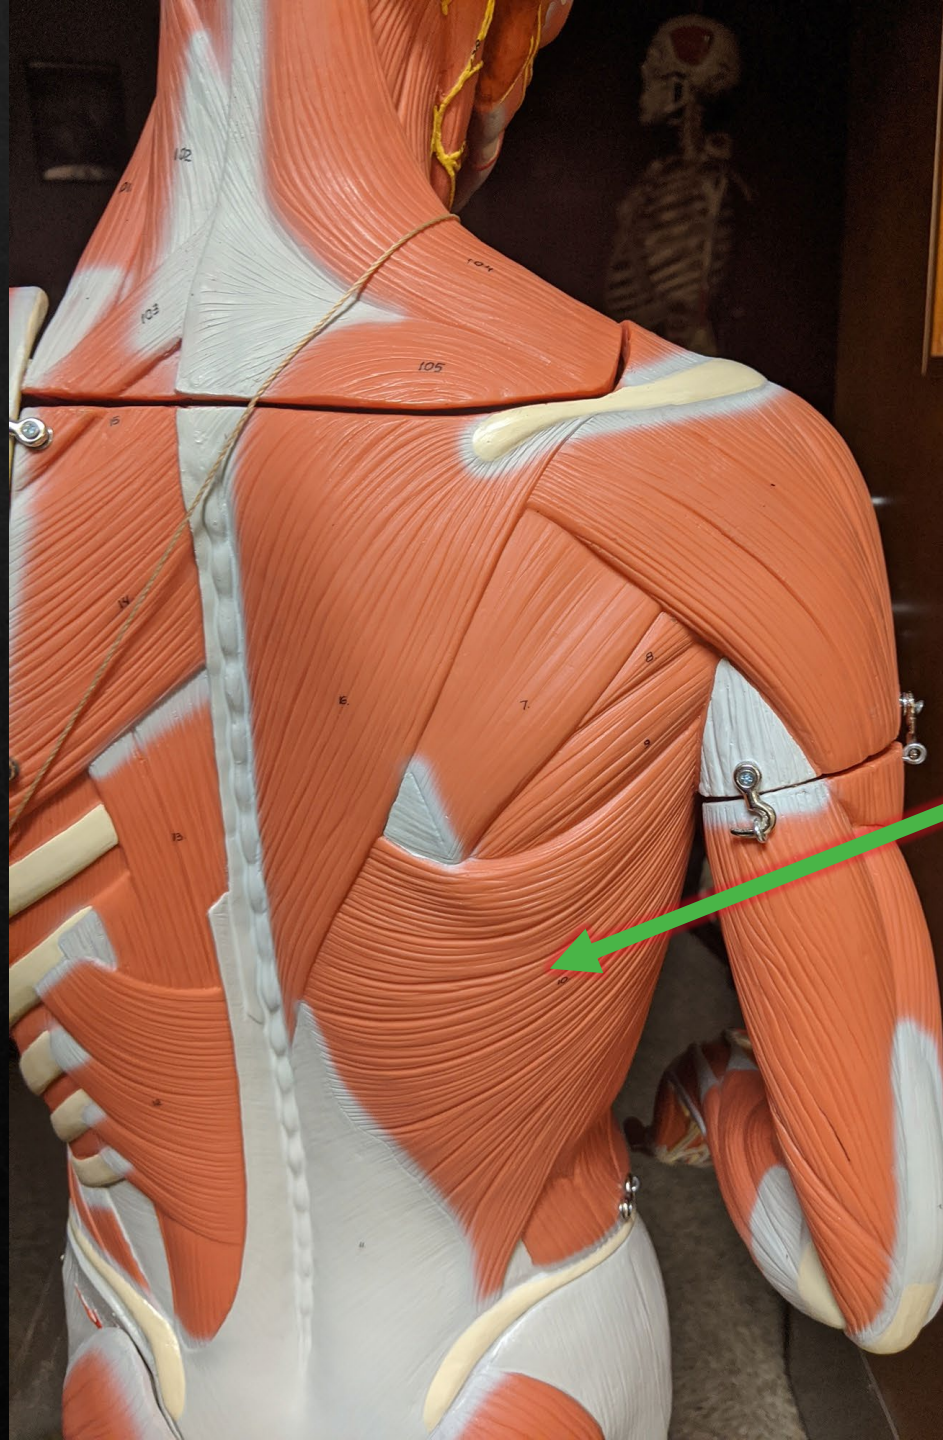

External obliques

Intercostal muscles

Sternocleidomastoid

Brachialis

Supraspinatus

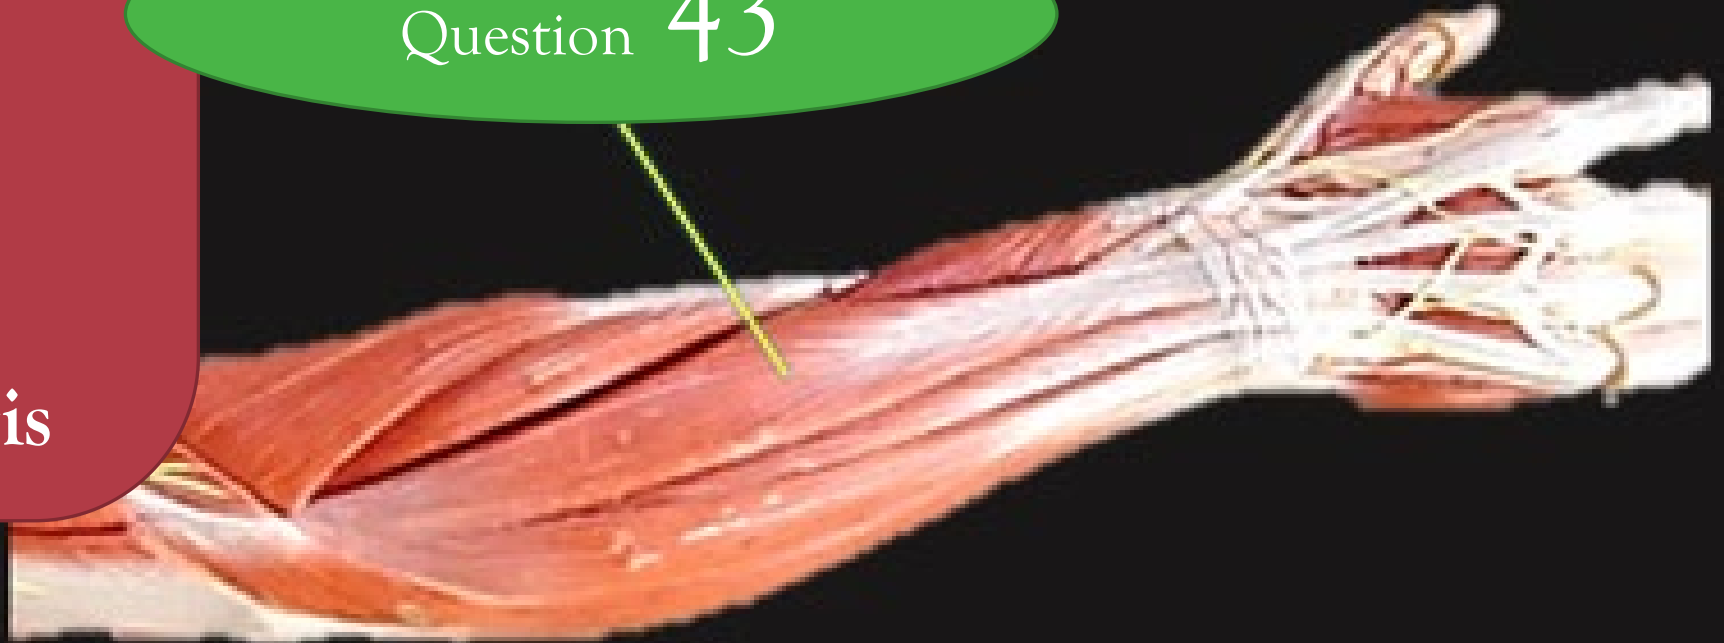

Question

42

Identify the muscle.

- Extensor digitorum
- Flexor digitorum superficialis
- Pronator teres
- Extensor carpi ulnaris
- Flexor carpi ulnaris

Question 43

www.ScienceStudy.com

*POSTERIOR VIEW OF THE
LOWER ARM MUSCLES*

Question

44

Identify the muscle.

Teres major

Teres minor

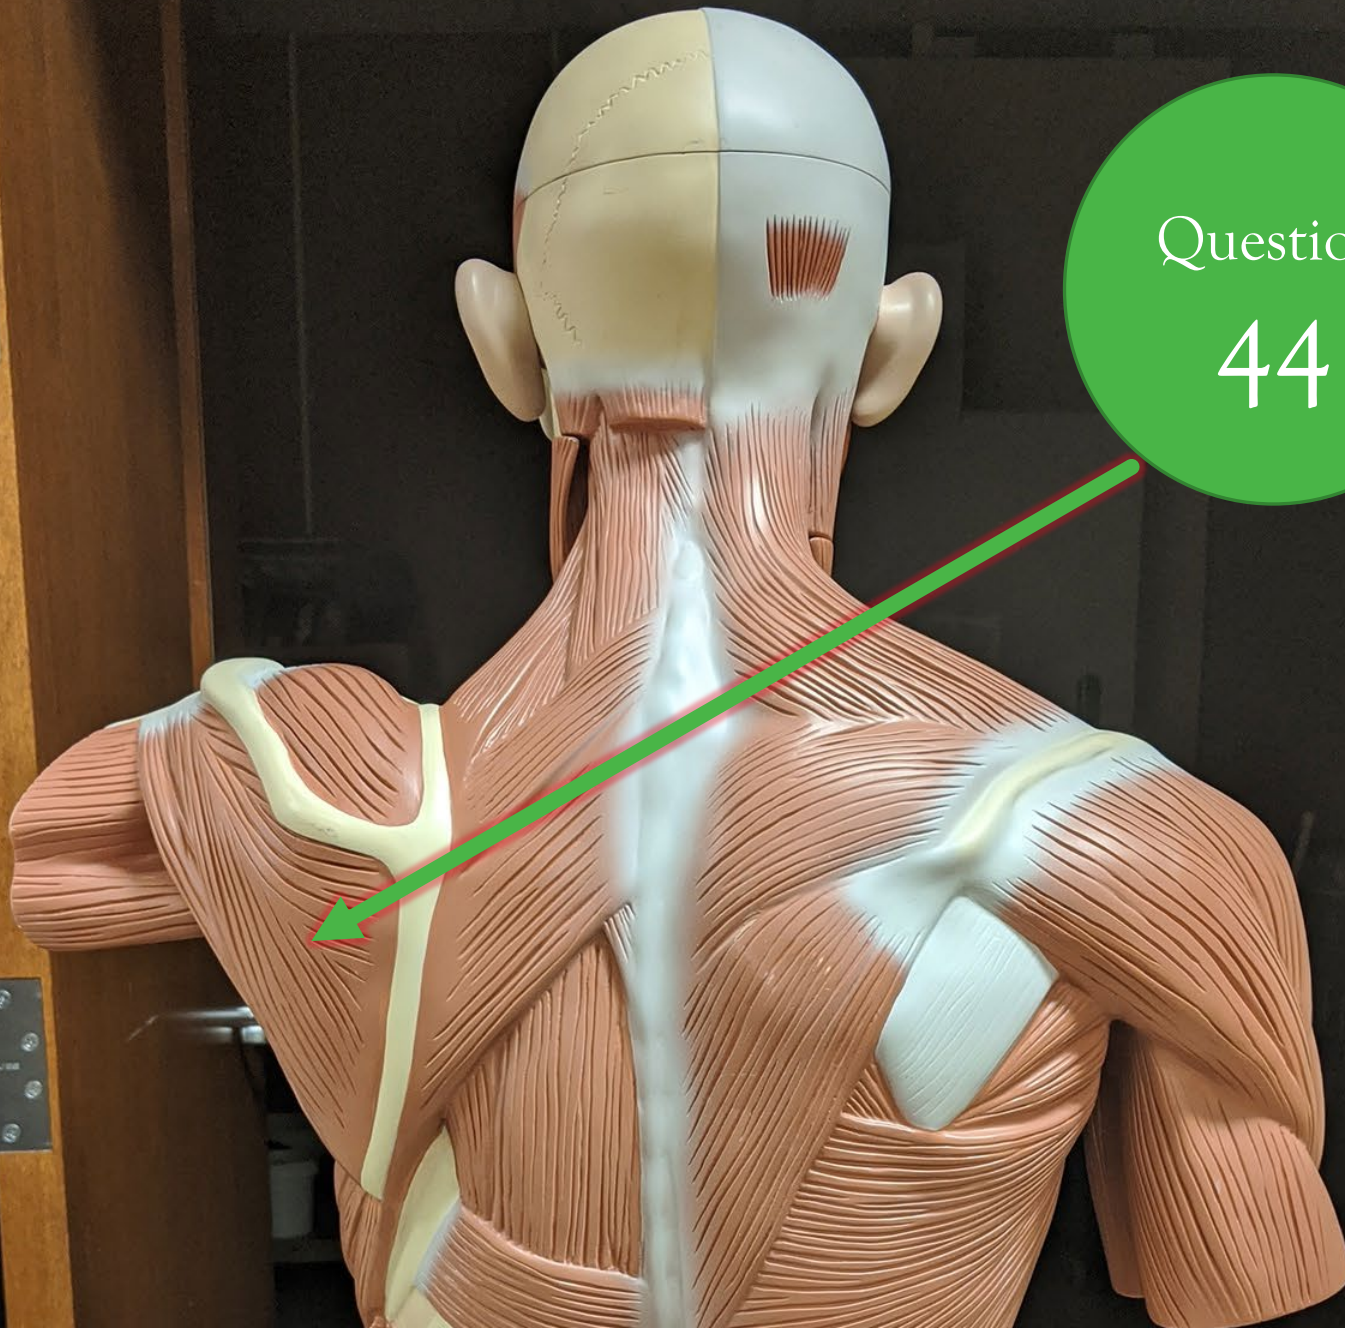

Pronator teres

Trapezius

Intercostal muscles

Infraspinatus

Subscapularis

Identify the muscle.

Deltoid

Trapezius

Latissimus dorsi

Sternocleidomastoid

Rectus Abdominus

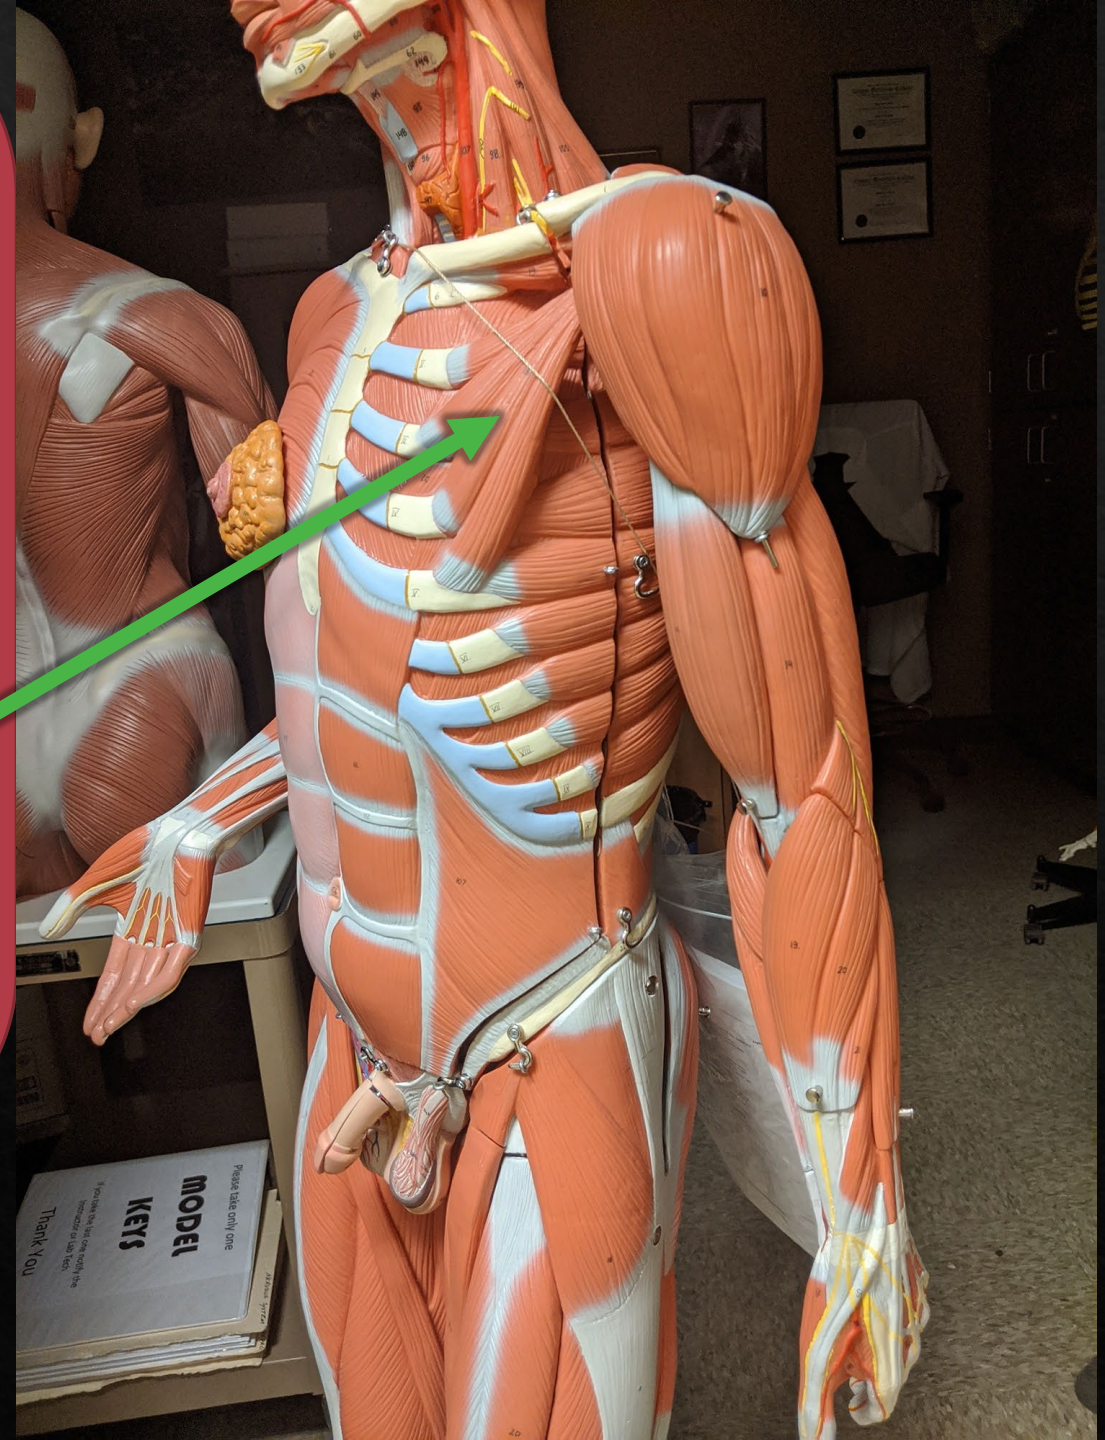

Pectoralis major

Pectoralis minor

Intercostal muscles

Question

45

Identify the muscle.

Deltoid

Trapezius

Latissimus dorsi

Sternocleidomastoid

Abdominus rectus

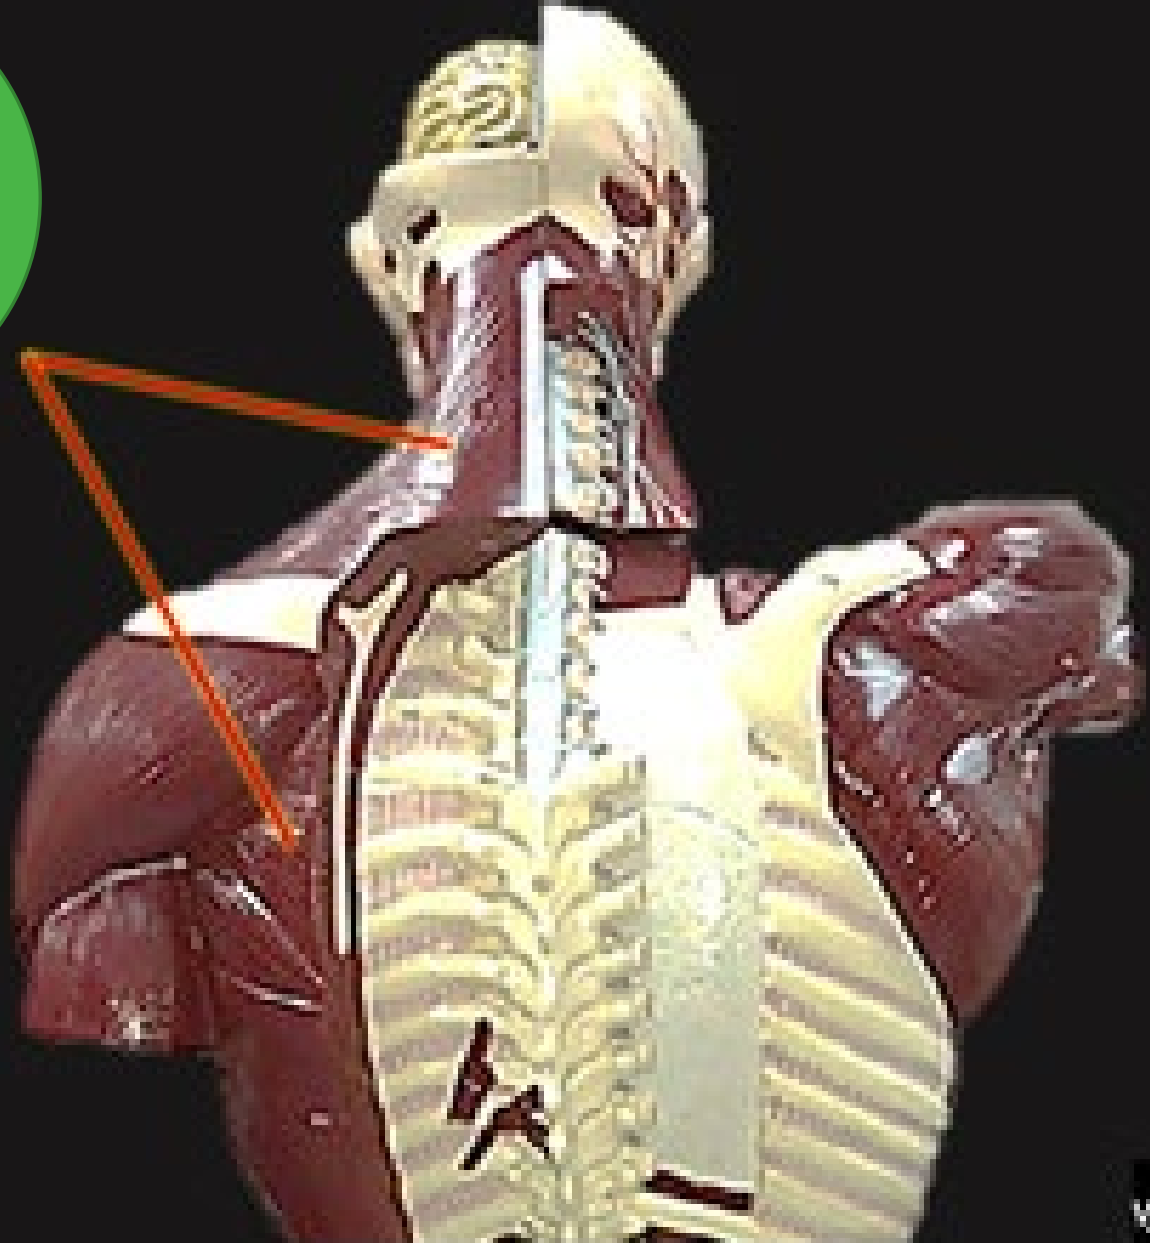

Pectoralis major

Pectoralis minor

Intercostal muscles

Question

46

Identify the muscle.

Deltoid

Trapezius

Latissimus dorsi

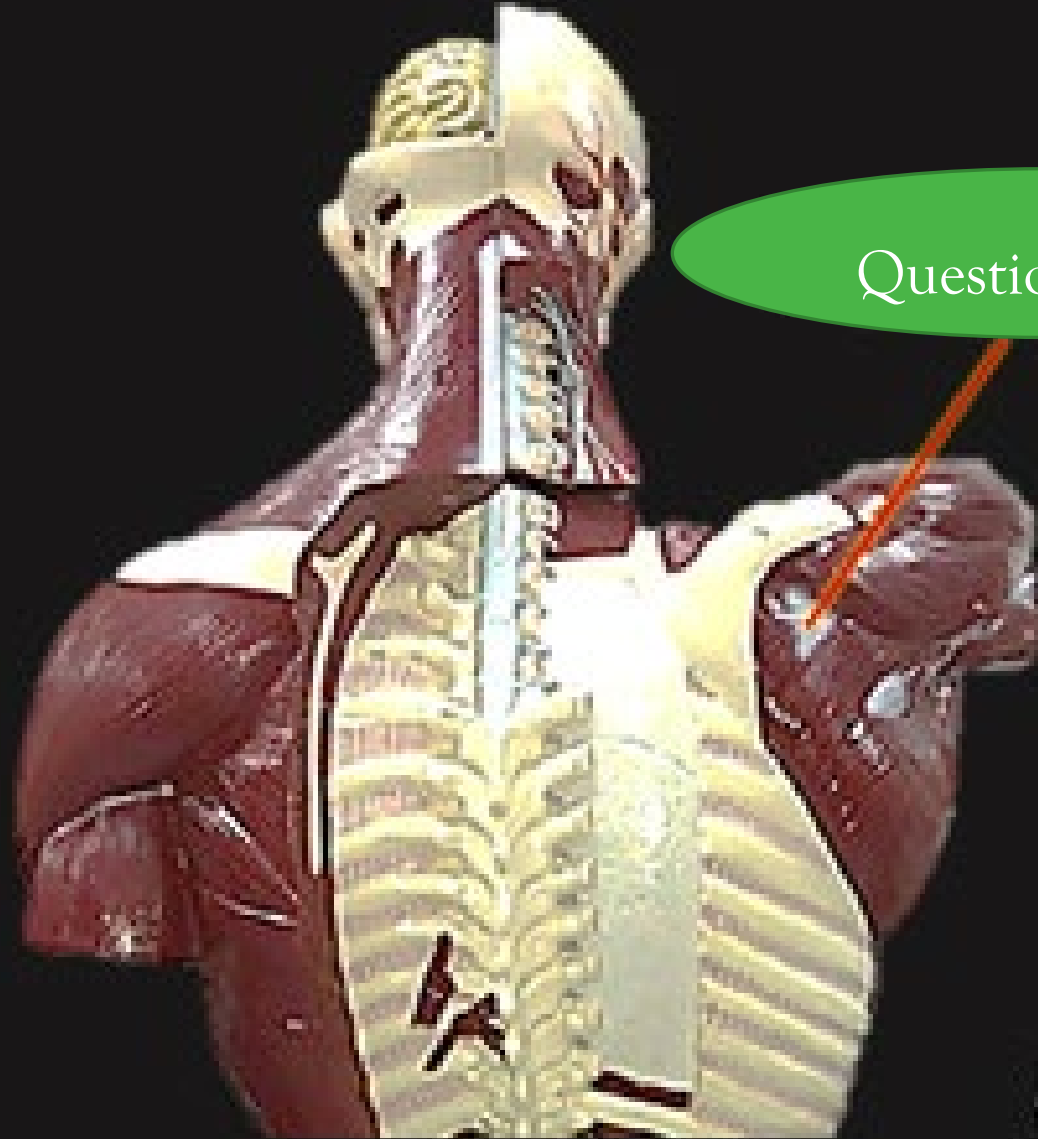

Sternocleidomastoid

Rectus Abdominus

Pectoralis major

Pectoralis minor

Intercostal muscles

Question 47

Identify the muscle.

Trapezius

Latissimus dorsi

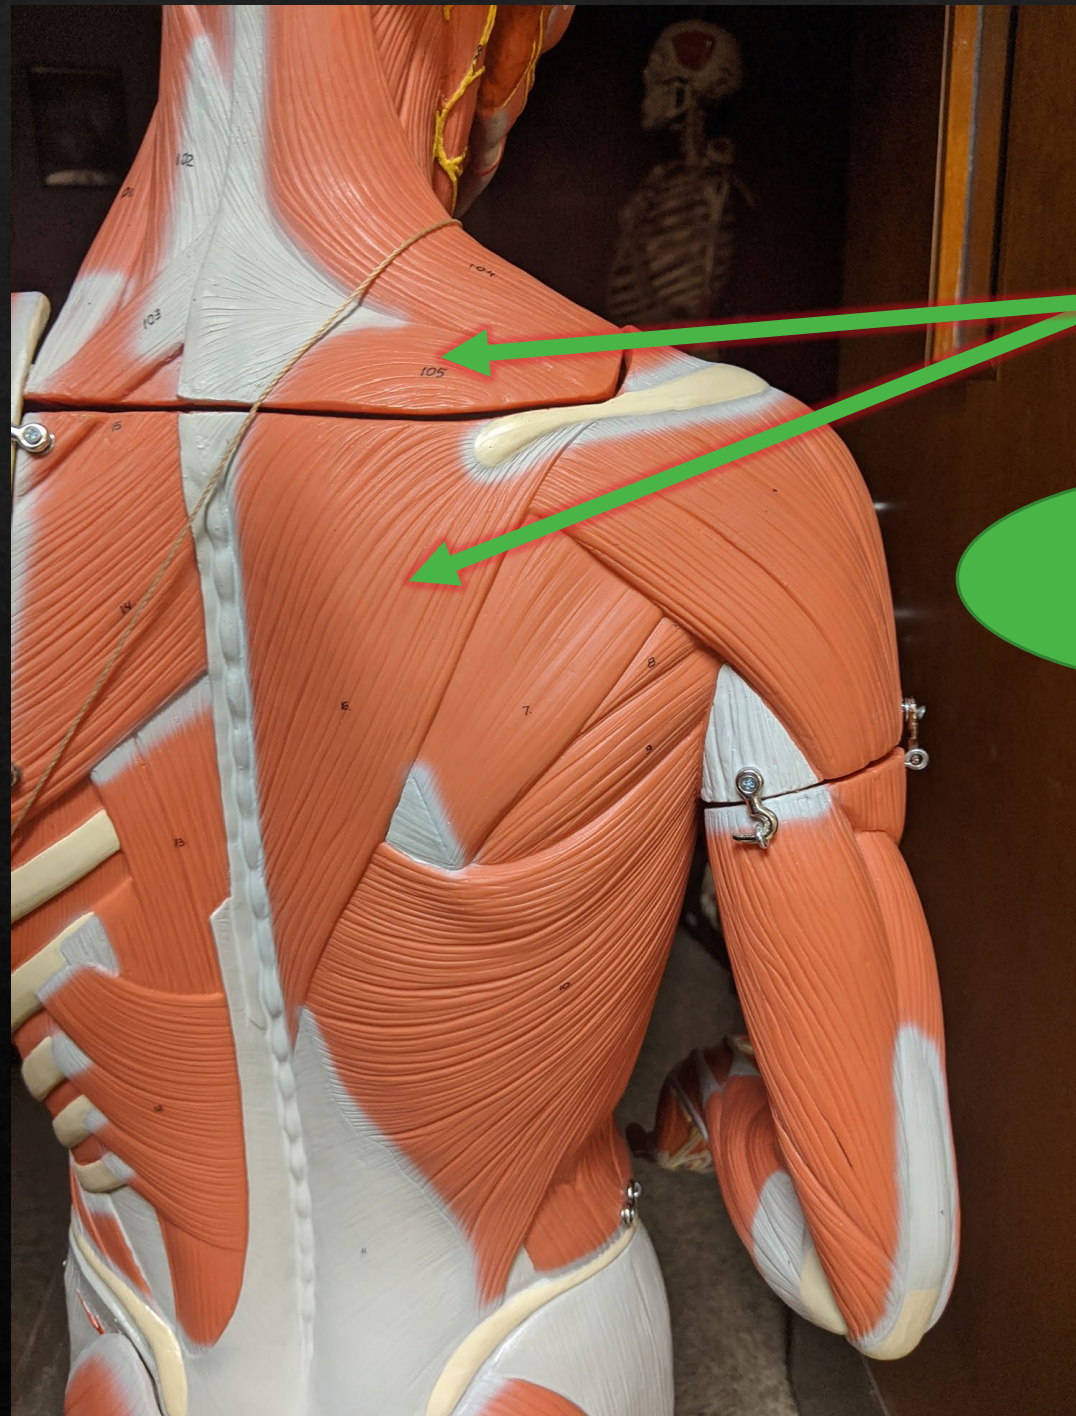

External obliques

Intercostal muscles

Sternocleidomastoid

Brachialis

Supraspinatus

Question 48

What is the muscle?

Deltoid

Trapezius

Latissimus dorsi

Sternocleidomastoid

Rectus Abdominus

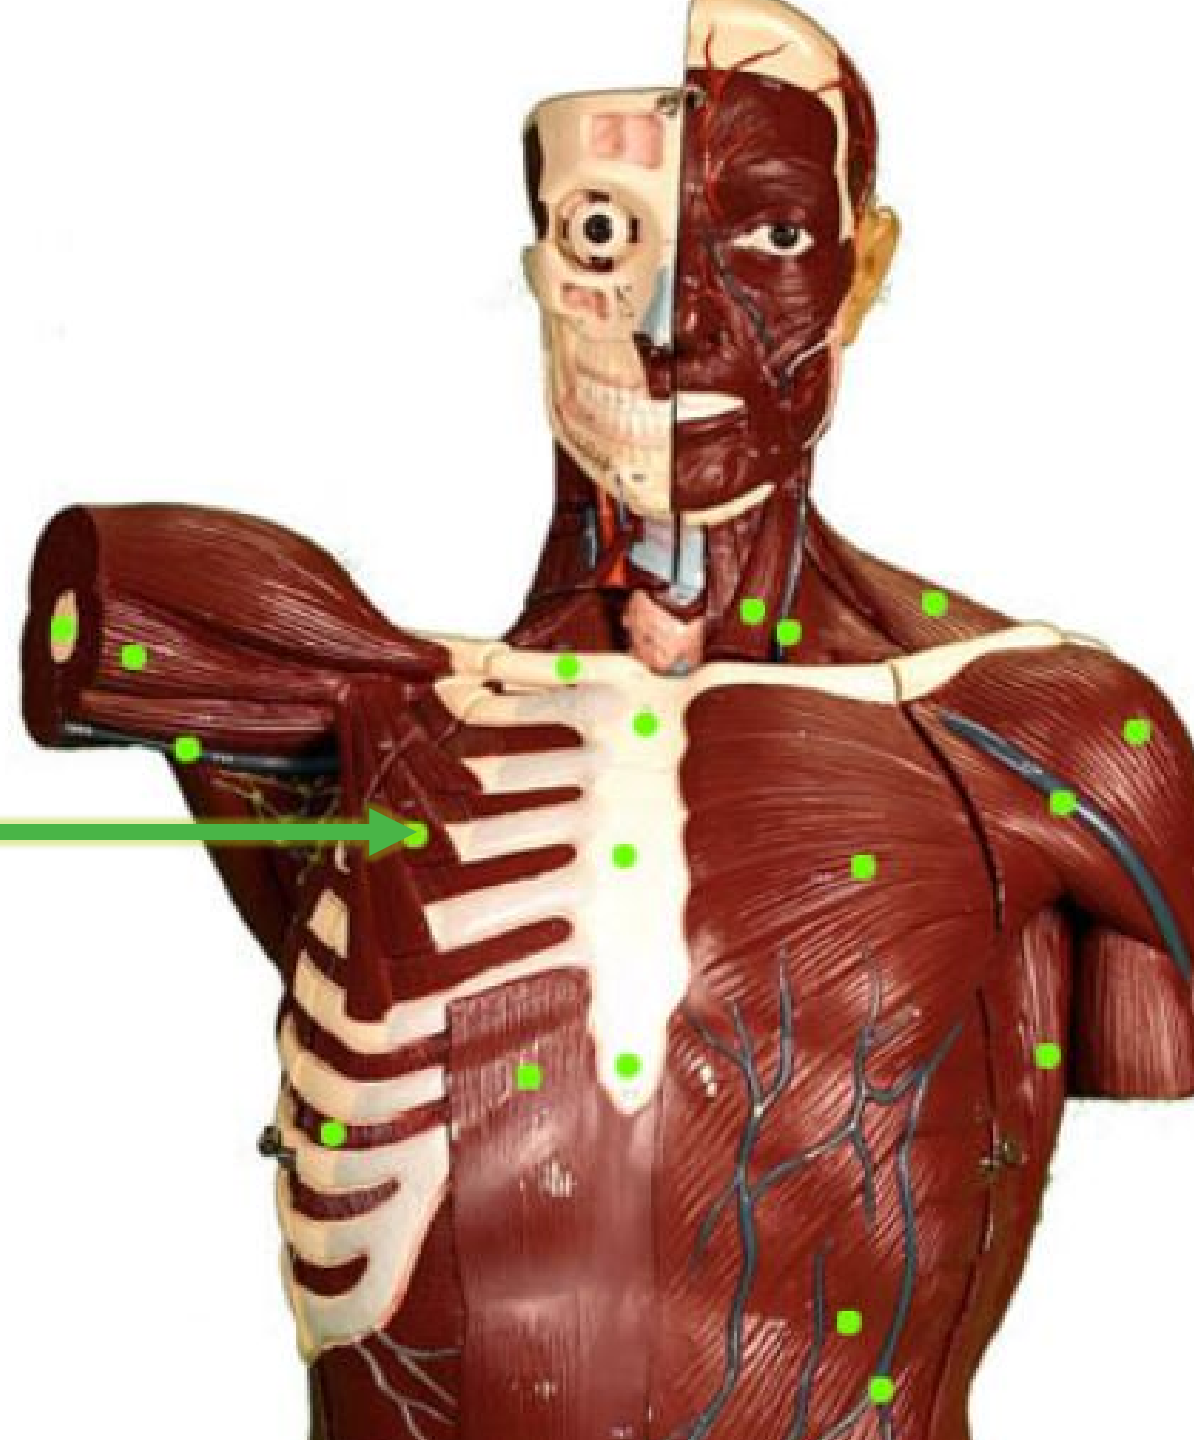

Pectoralis major

Pectoralis minor

Intercostal muscles

Question

49

What is the muscle?

Question
50

Deltoid

Trapezius

Latissimus dorsi

Sternocleidomastoid

Rectus Abdominus

Pectoralis major

Pectoralis minor

Intercostal muscles
